

Sheth L.U.J. And Sir M.V. College

Aim:- Designing Effective and Visually Appealing Dashboards

A] Apply Worksheet-Level and Workbook-Level Formatting

Step 1:- Connect Data in Tableau: Open Tableau Desktop. On the left blue panel under To a File, click Text File. Browse to the folder where you extracted the files, select List of Orders.csv, and click Open. Similarly open Order Details.csv

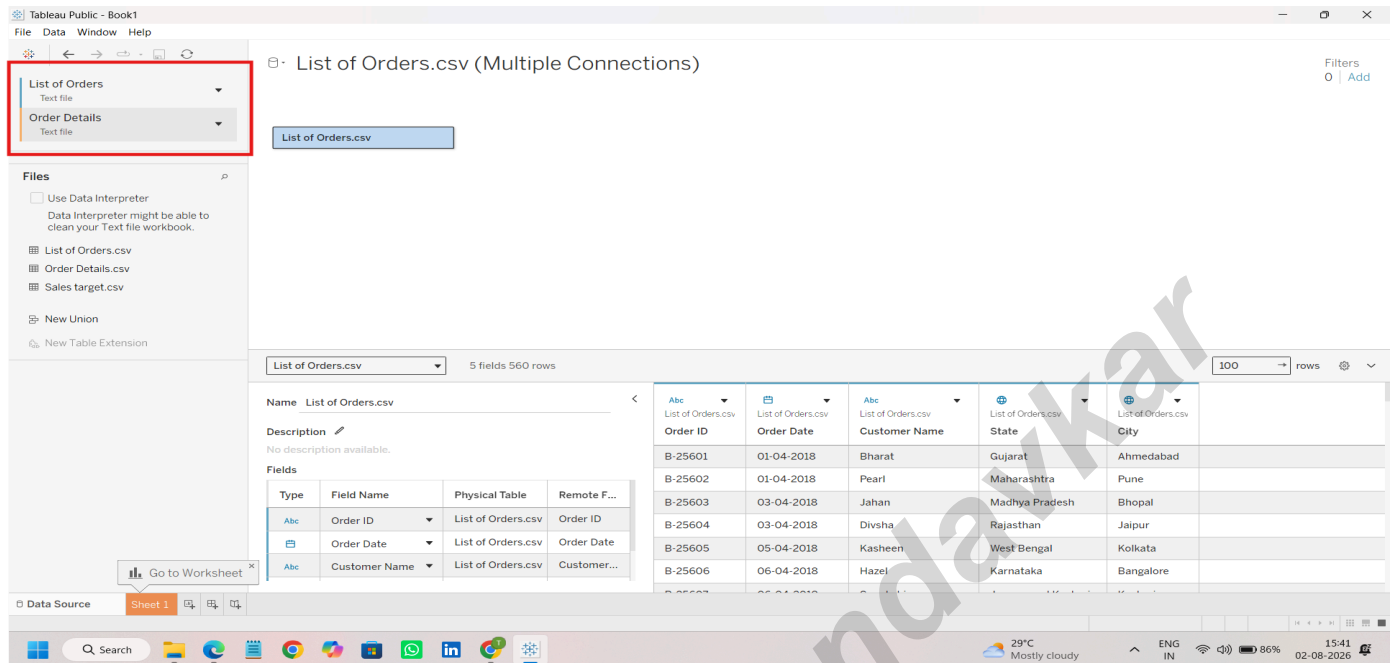

Name:- Chetan Mandavkar

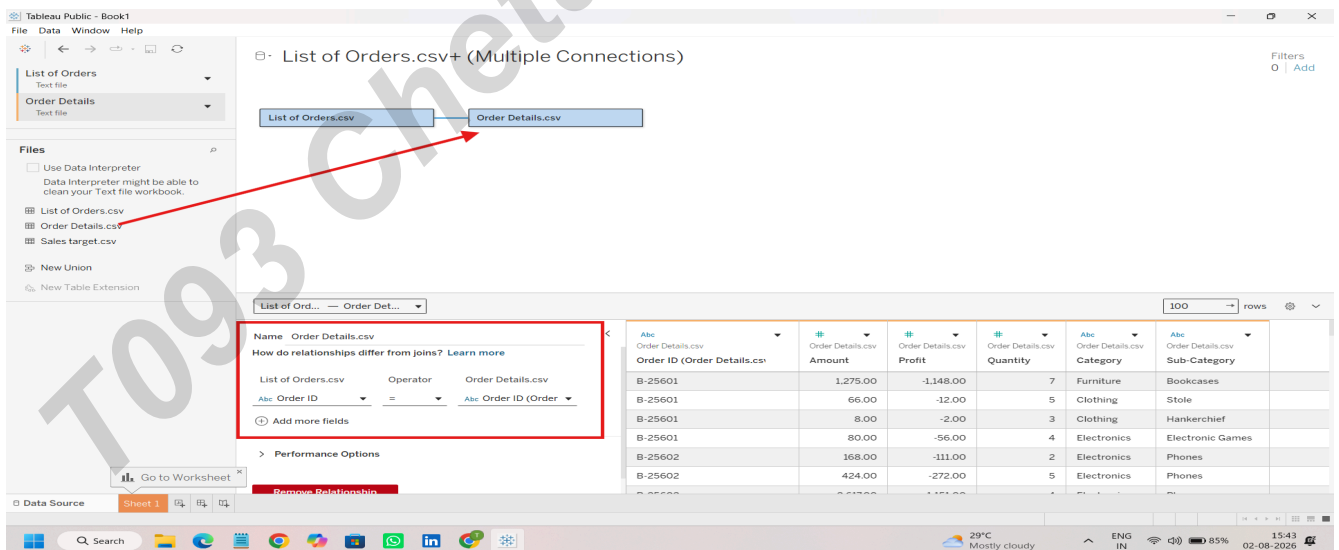

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 2:- Relate the Two Files: In the top left under Files, drag Order Details.csv into the canvas area (to the right of List of Orders.csv). A line (noodle) will connect them. If a popup asks for the relationship field, select Order ID from List of Orders on the left and Order ID from Order Details on the right

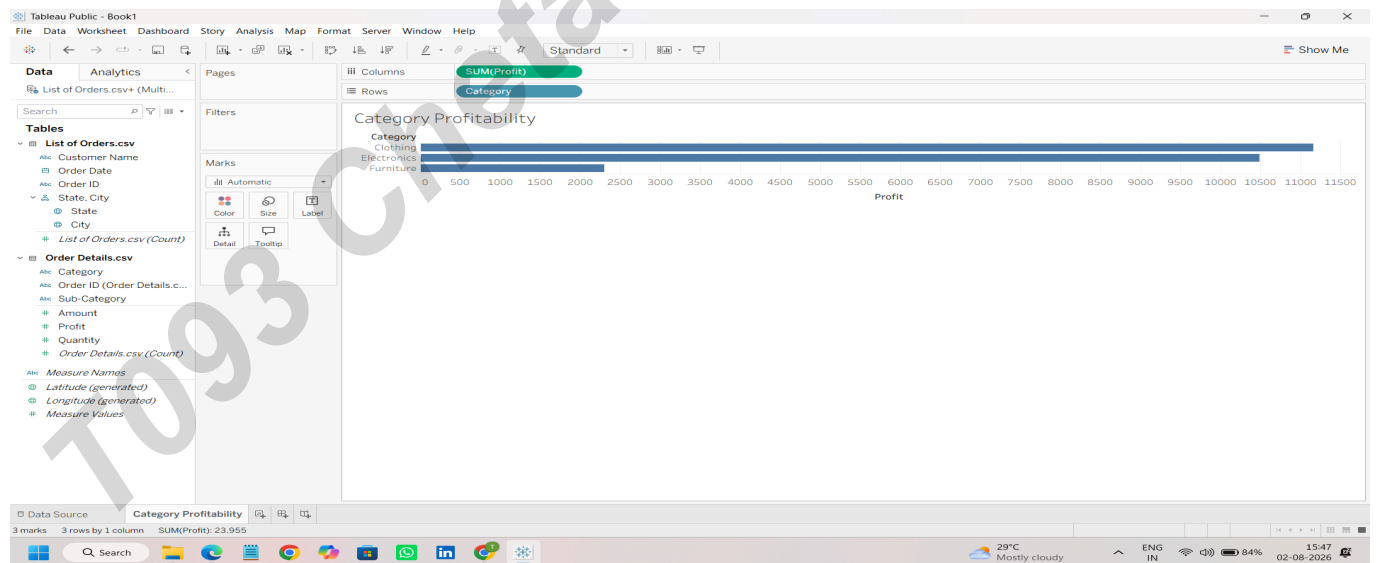

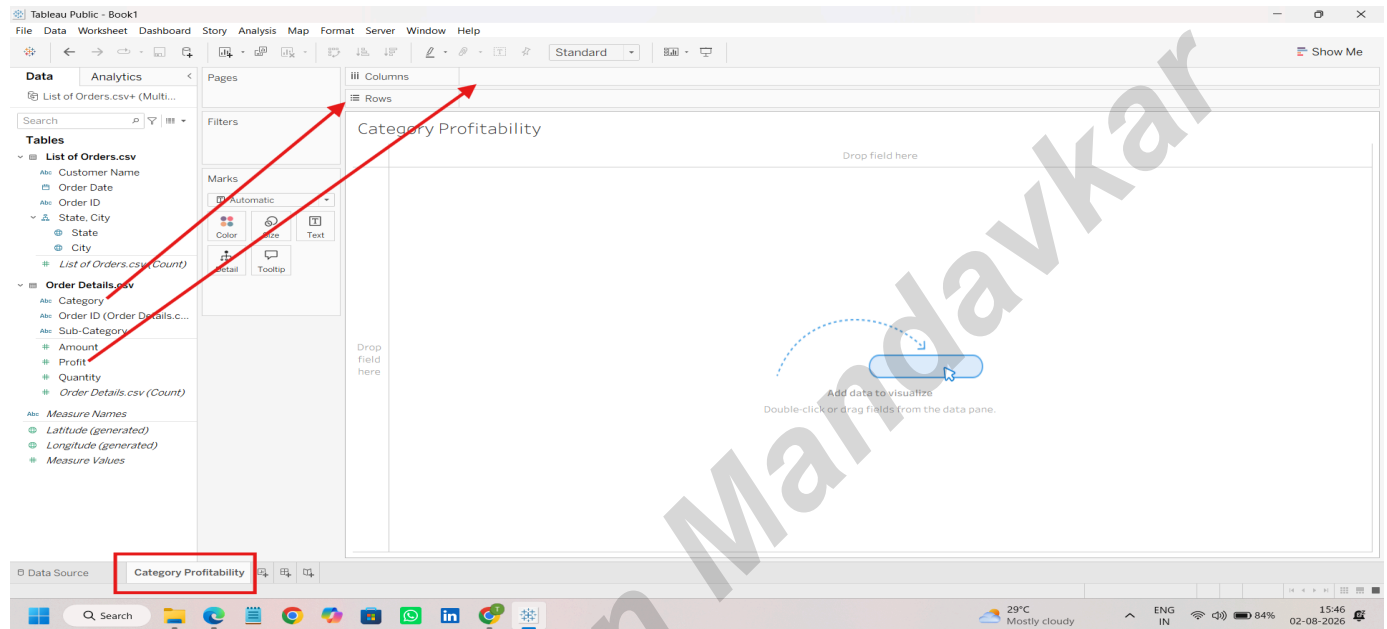

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 3:- Create the Base Chart: At the bottom left, click on Sheet 1. Right-click the Sheet 1 tab at the bottom, select Rename, and type: **Category Profitability**. From the Data Pane on the far left, click and drag **Category** onto the Rows shelf (at the top of the screen). From the Data Pane, click and drag **Profit** onto the Columns shelf.

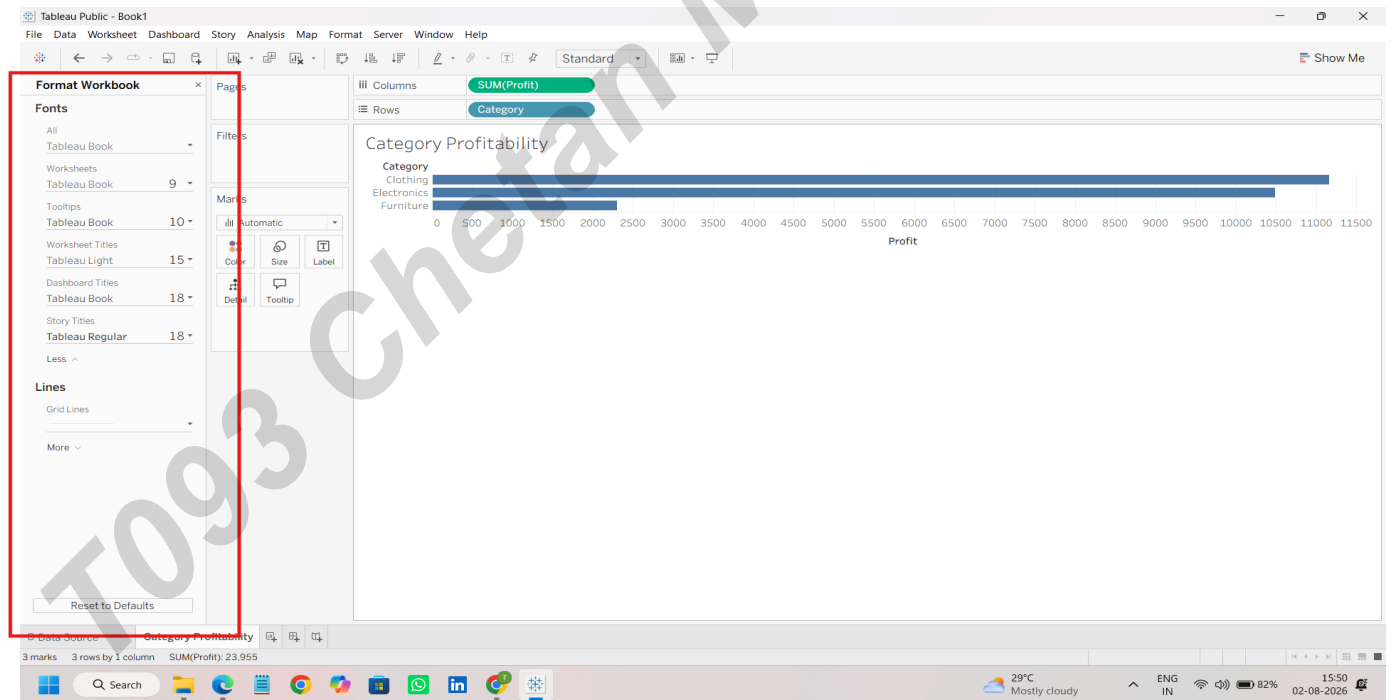

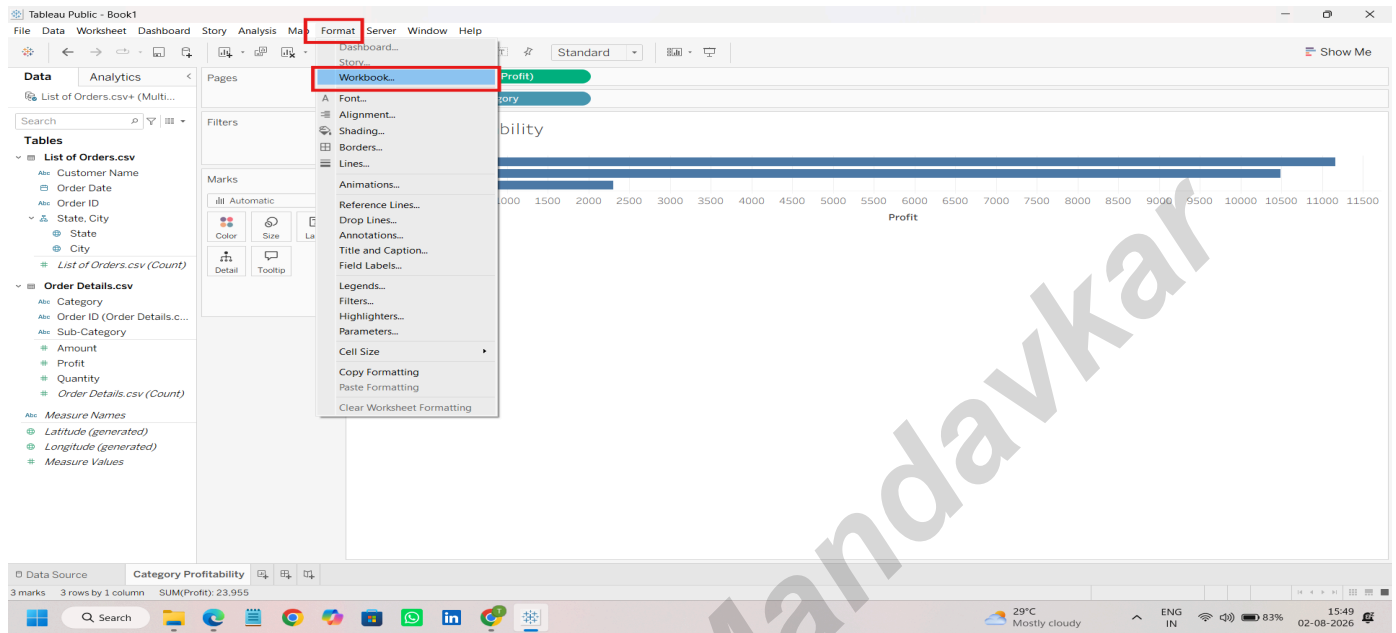

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 4:- Go to the top menu bar, click Format, then select Workbook... A Format Workbook panel will open on the left side of your screen:

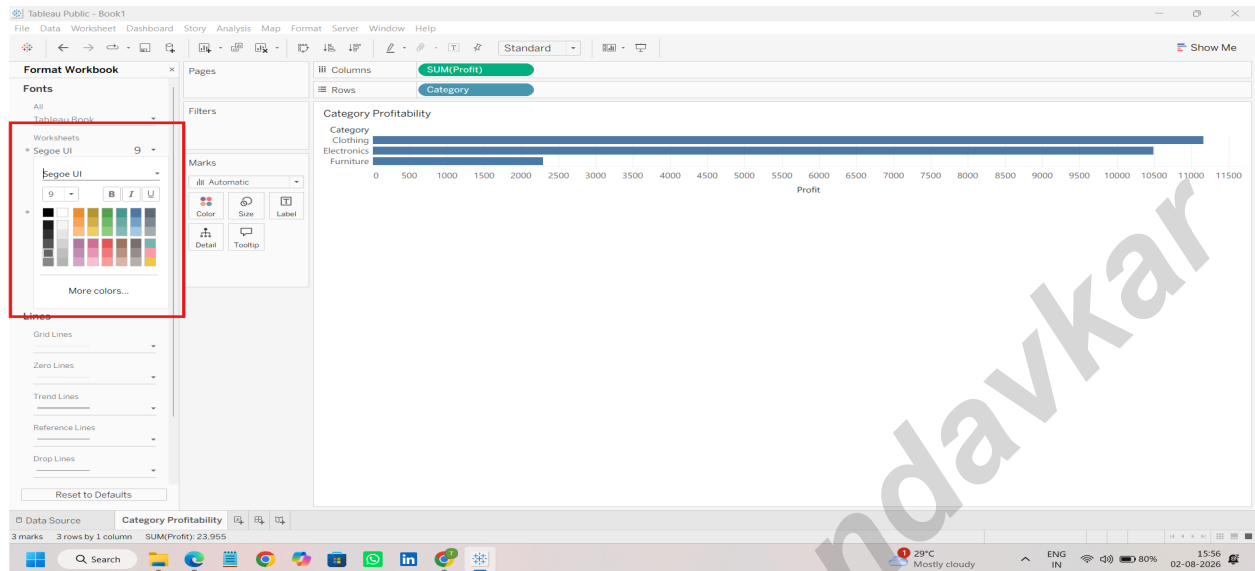

Name:- Chetan Mandavkar

Roll No. T093

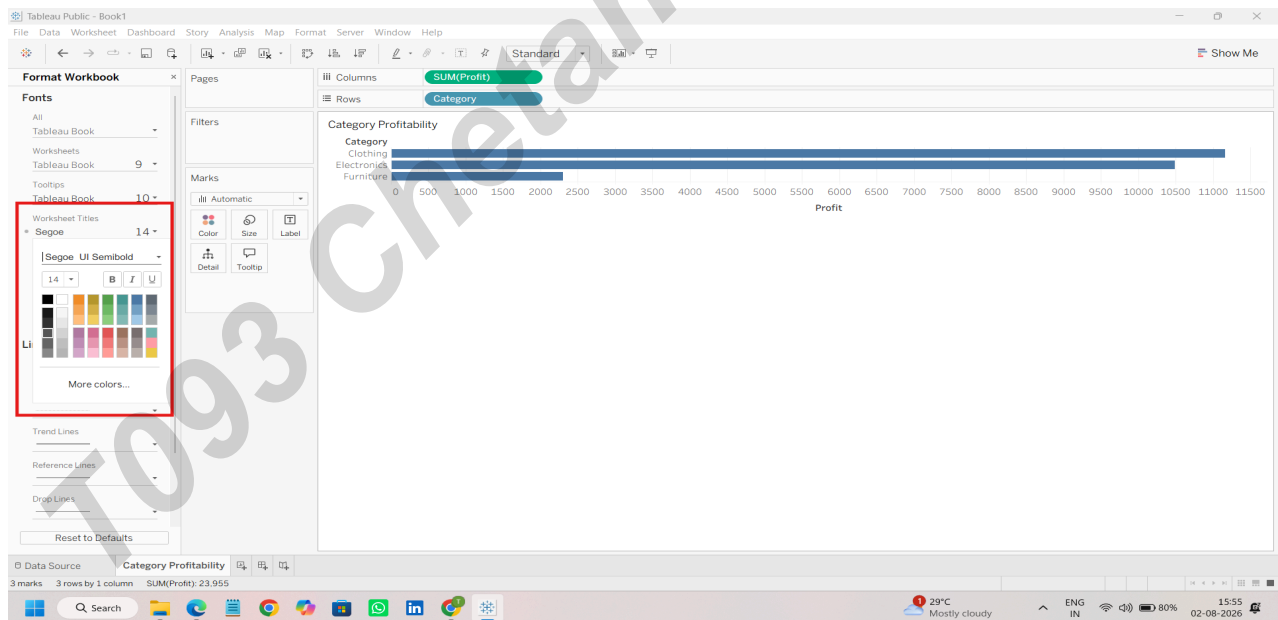

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Fonts: Under Fonts, click the drop-down menu for Workbook Fonts and select Segoe UI (or Tableau Book).

Title Font: Click the drop-down under Worksheet Titles and set the font to Segoe UI Semibold, size 14pt, and select a dark gray or navy color.

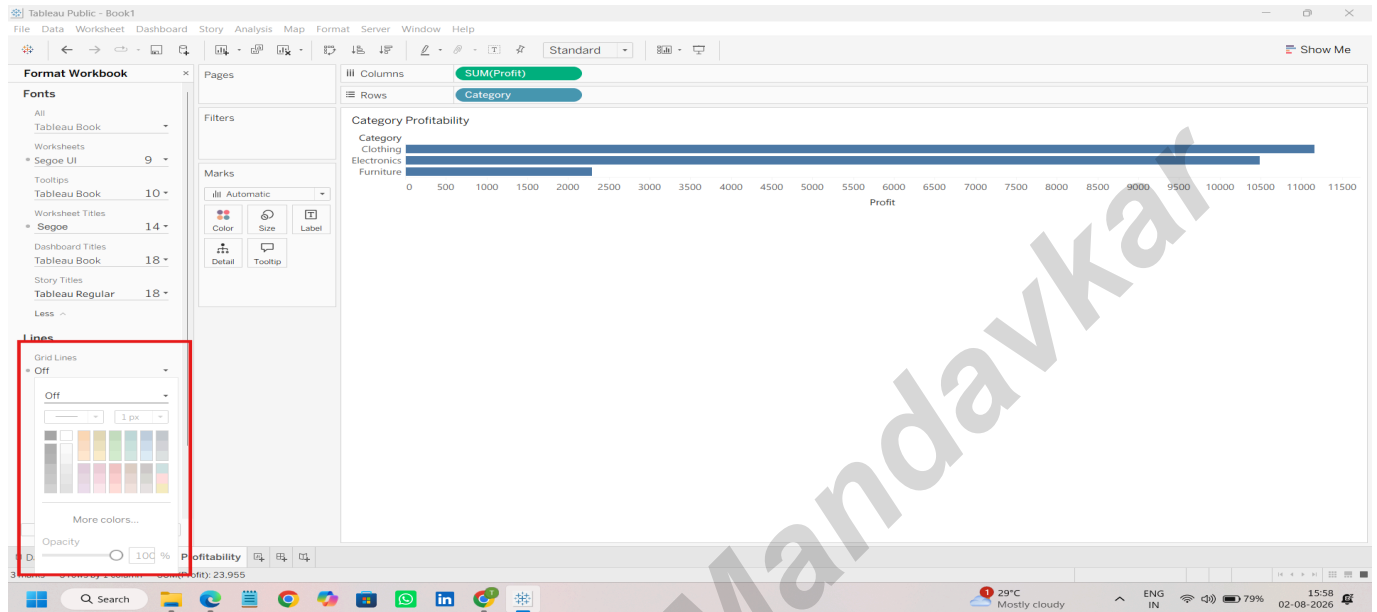

Name:- Chetan Mandavkar

Roll No. T093

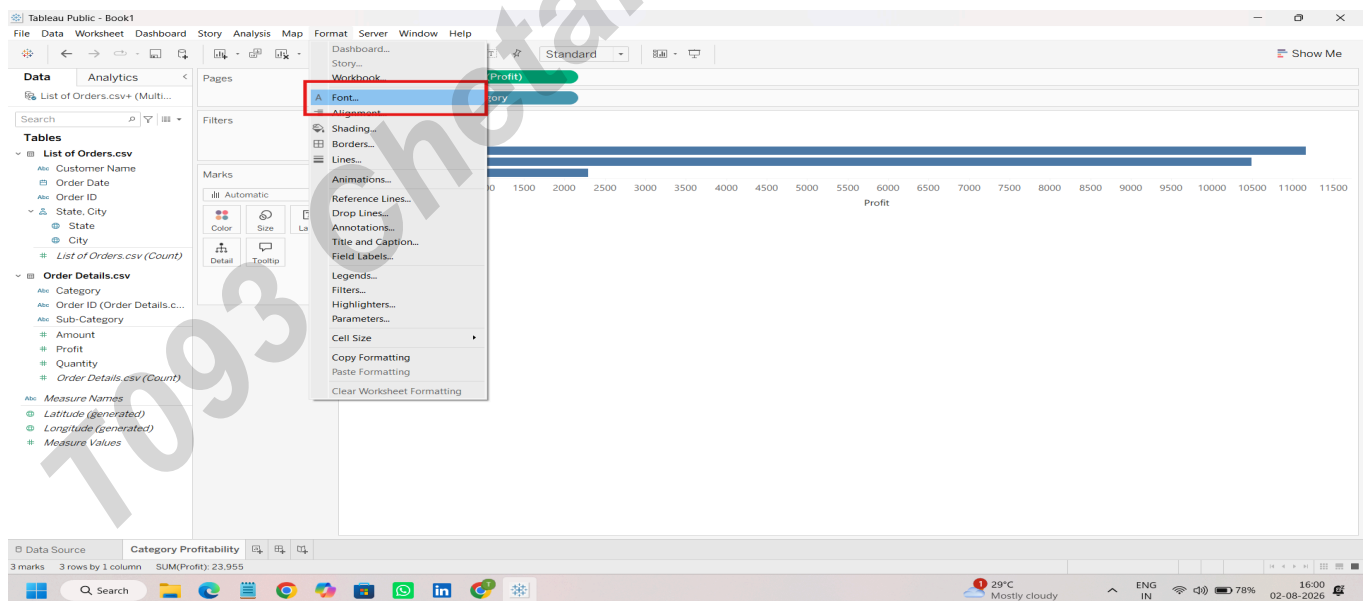

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Grid Lines: Scroll down to the Lines section in the panel. Click the drop-down next to Grid Lines and select Off (or choose a light gray line).

Step 5:- Click Format in Menu Bar At the top of the Format pane, click the Font tab (it looks like a capital A)

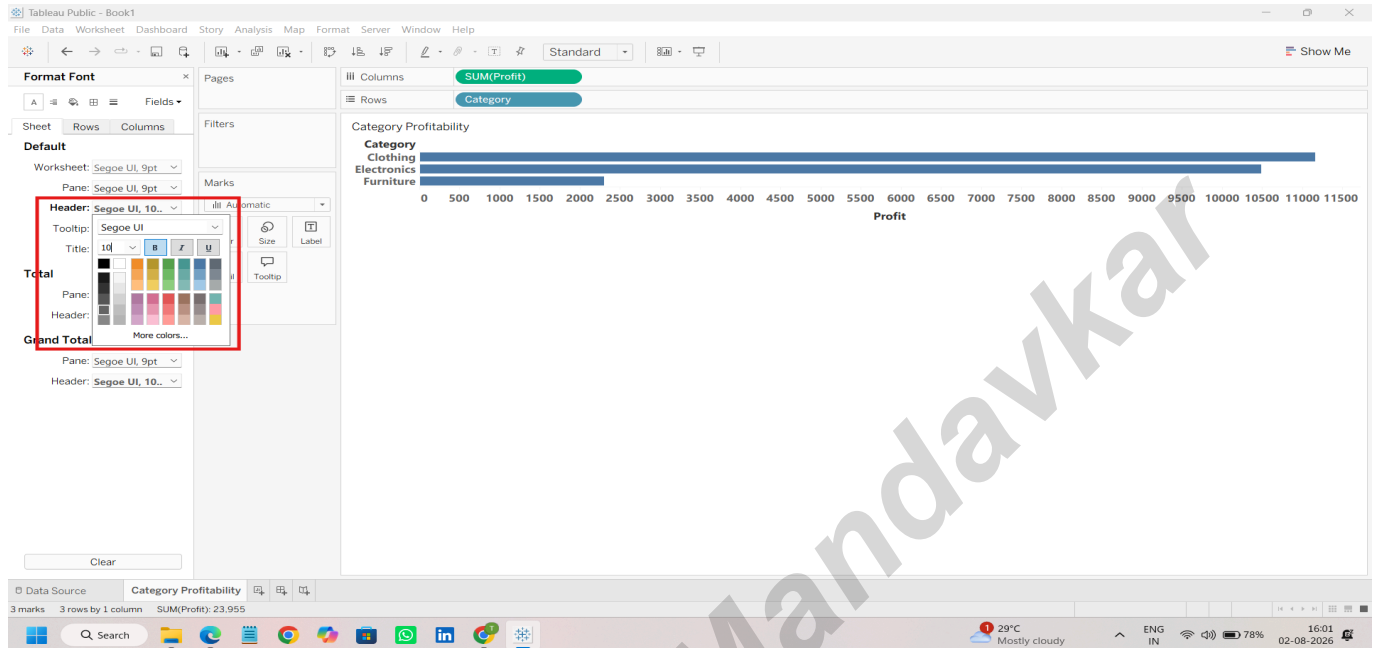

Name:- Chetan Mandavkar

Roll No. T093

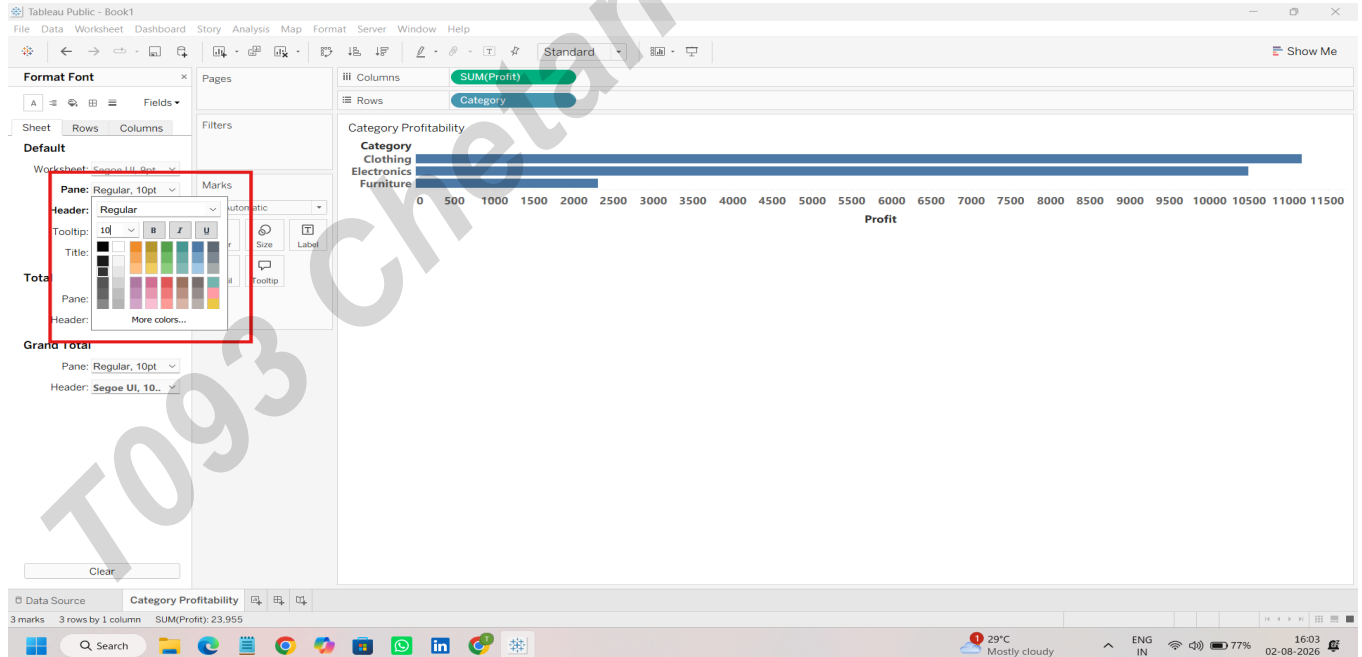

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

o Under Header, click the drop-down menu, set the font style to **Bold**, and size to **10pt**.

o Under Pane, set the font style to **Regular** and size to **10pt**.

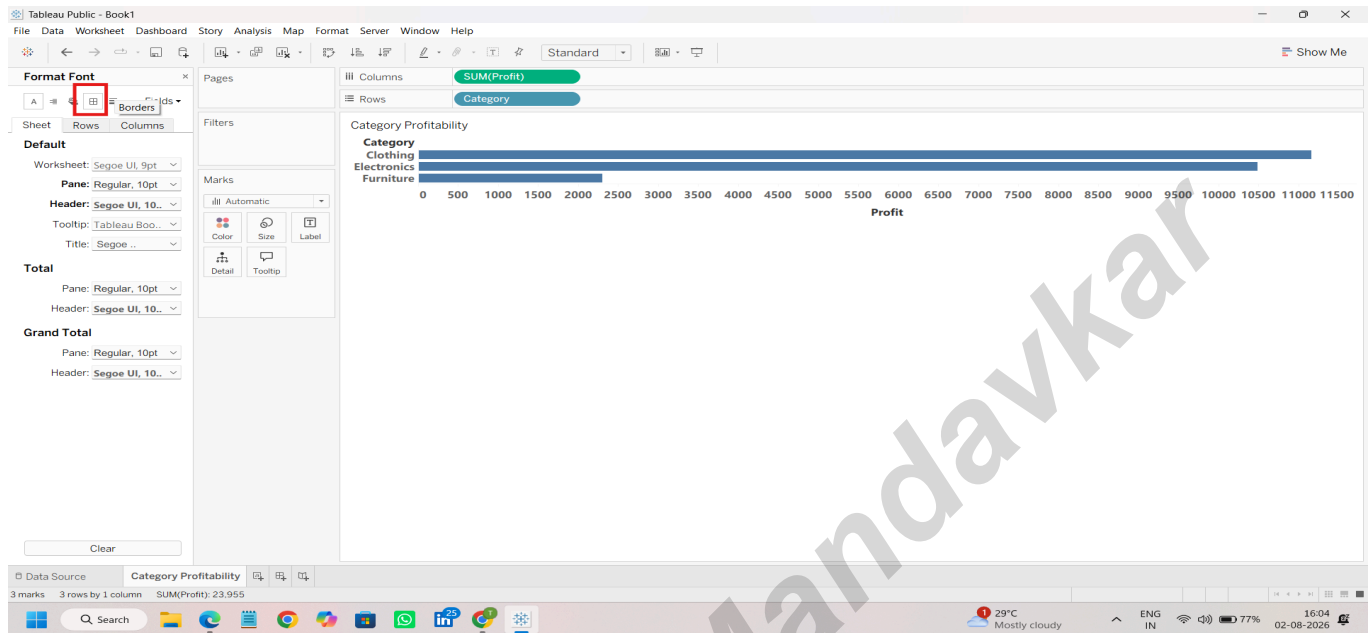

Name:- Chetan Mandavkar

Roll No. T093

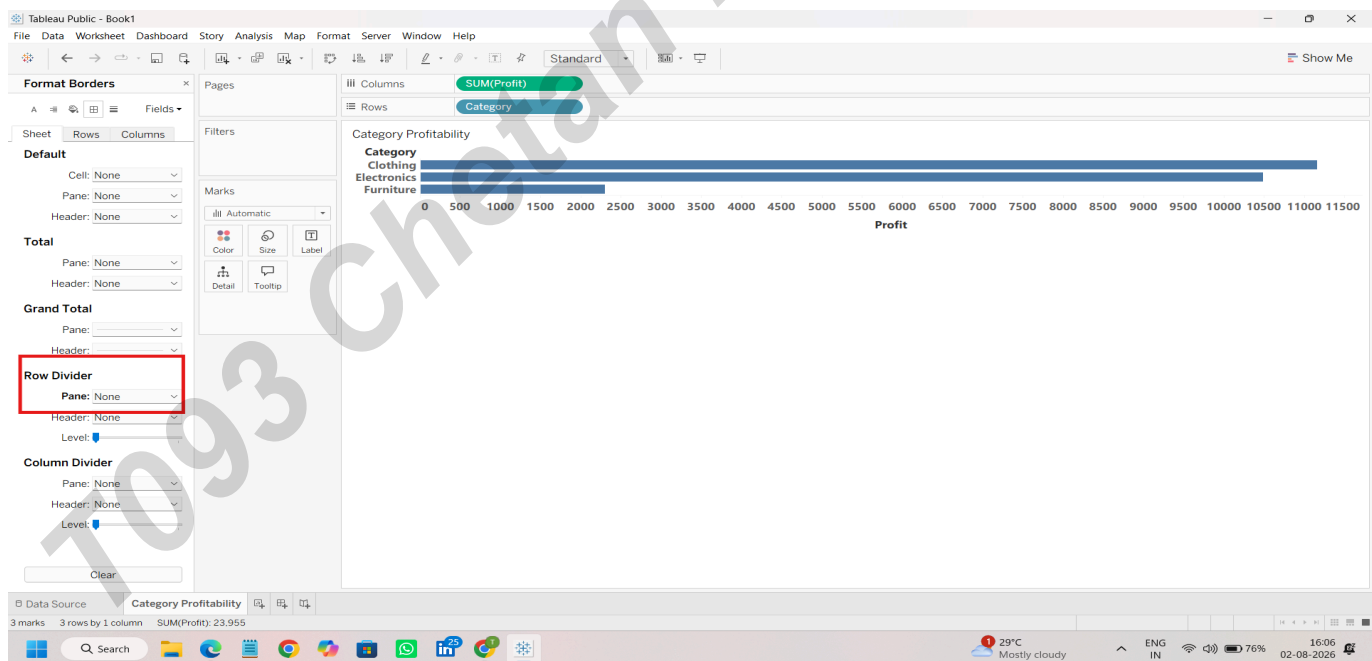

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 6:- At the top of the Format pane, click the Borders tab (it looks like a square outline with four quadrants).

o Under Row Divider, click the Pane drop-down and select None

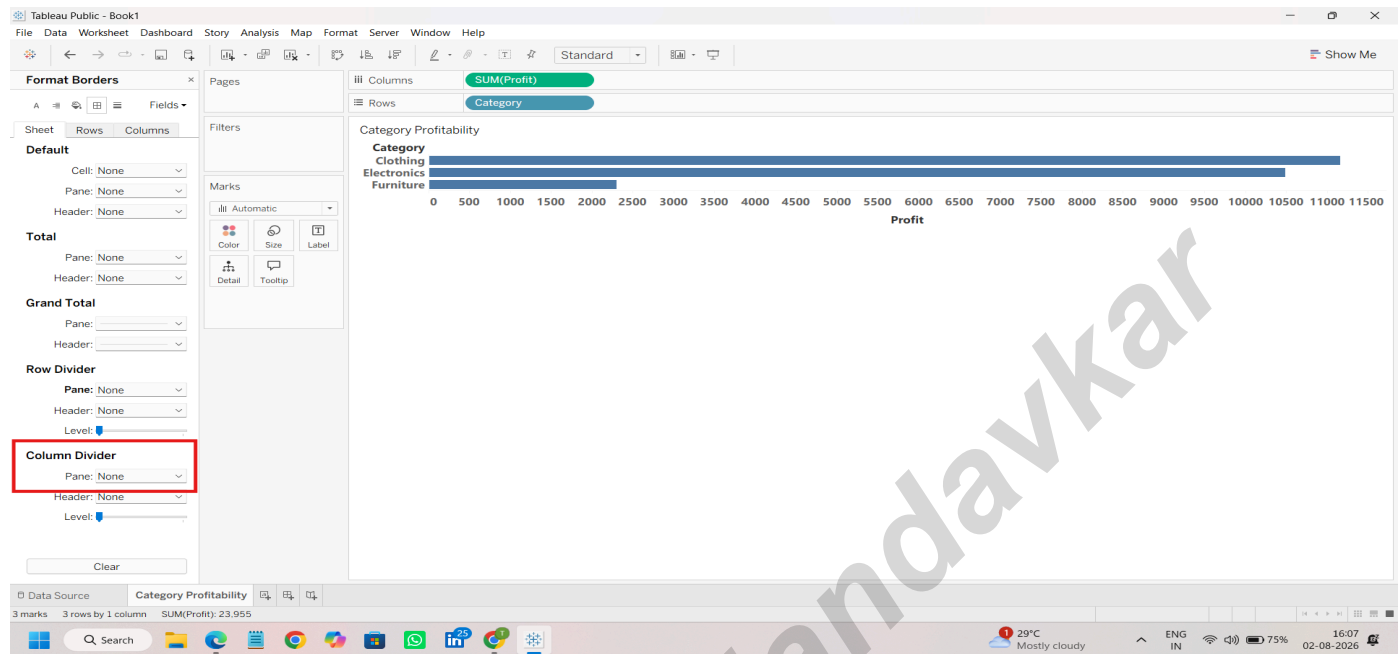

Name:- Chetan Mandavkar

Roll No. T093

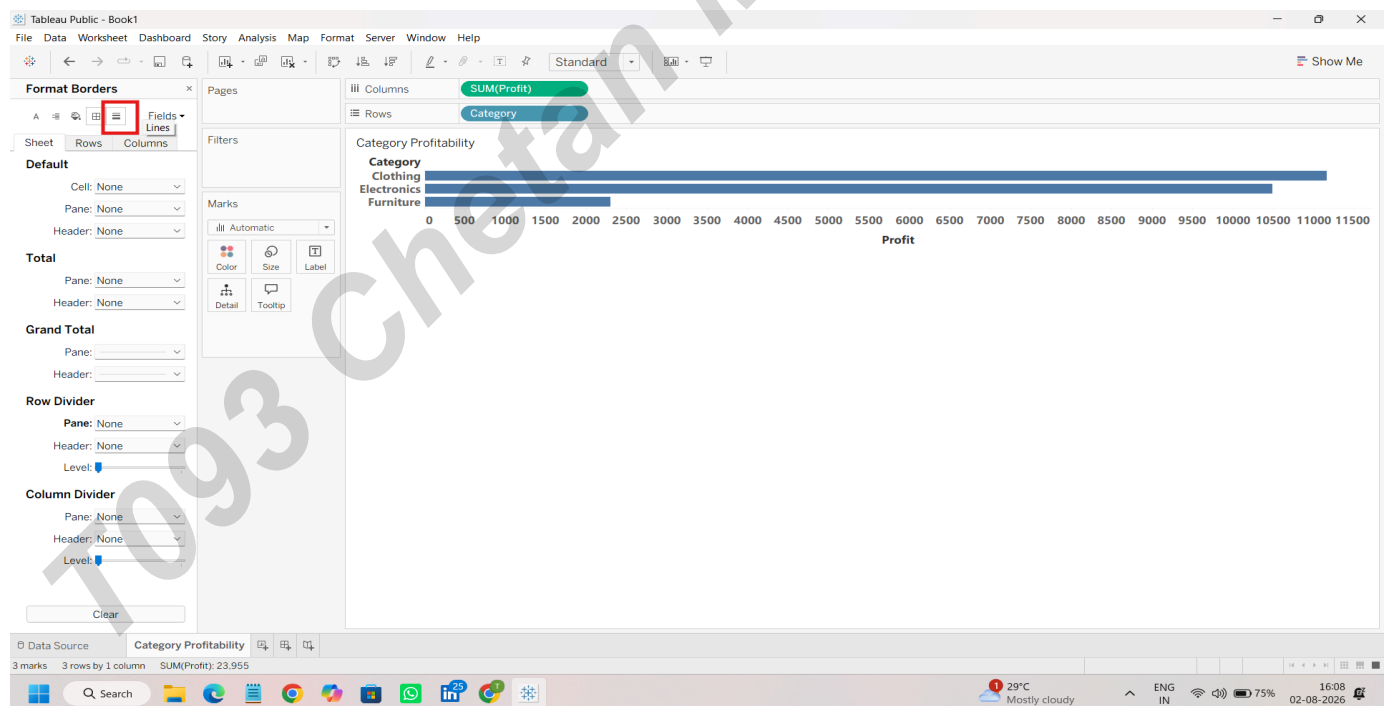

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

o Under Column Divider, click the Pane drop-down and select None

Step 7:- At the top of the Format pane, click the Lines tab

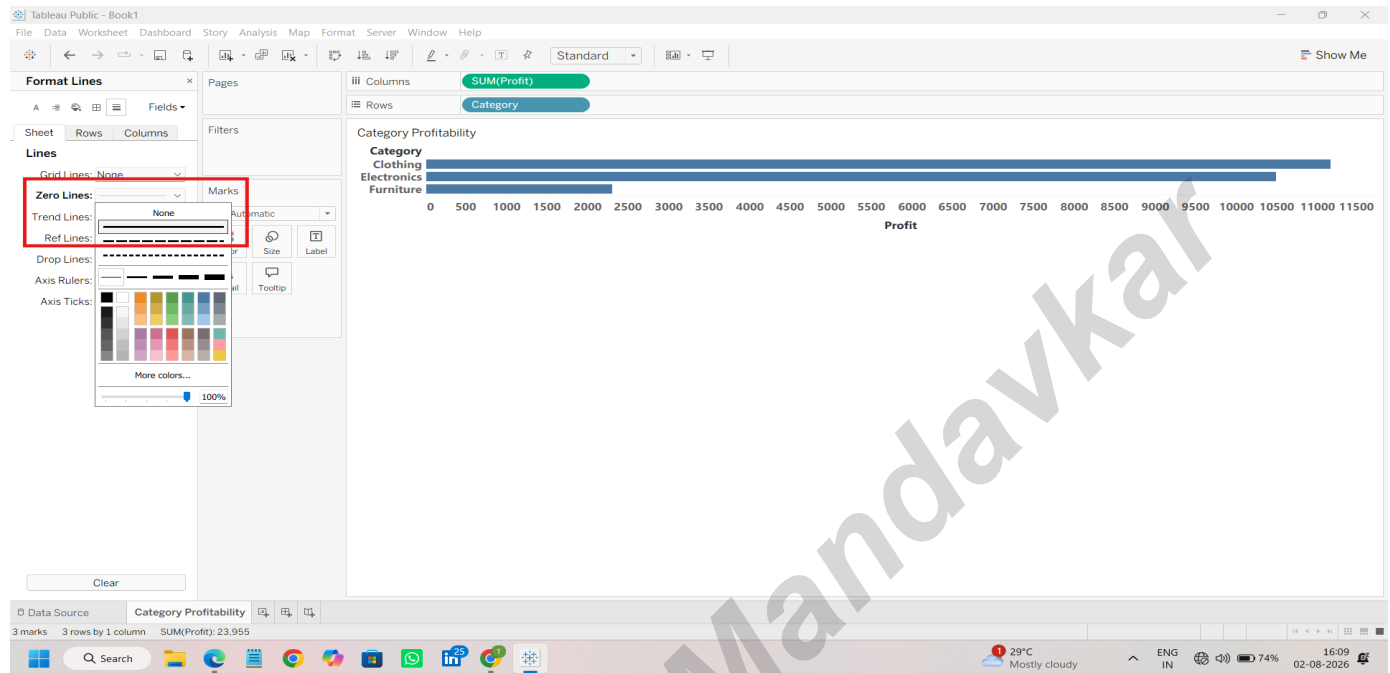

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

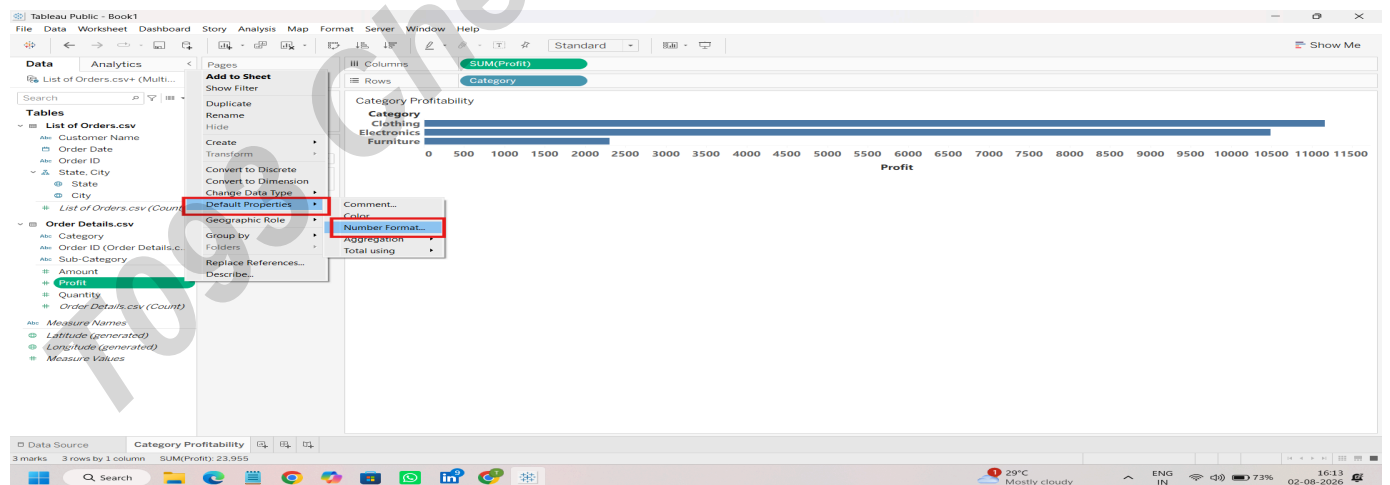

Sheth L.U.J. And Sir M.V. College

Find the Zero Lines option, click its drop-down, and select a solid dark gray line

B] Customize Number, Date, and Null Value Formatting

Step 1:- In the Data Pane on the left side of your screen, find Profit under Order Details. Right-click Profit, hover over Default Properties, and click Number Format.

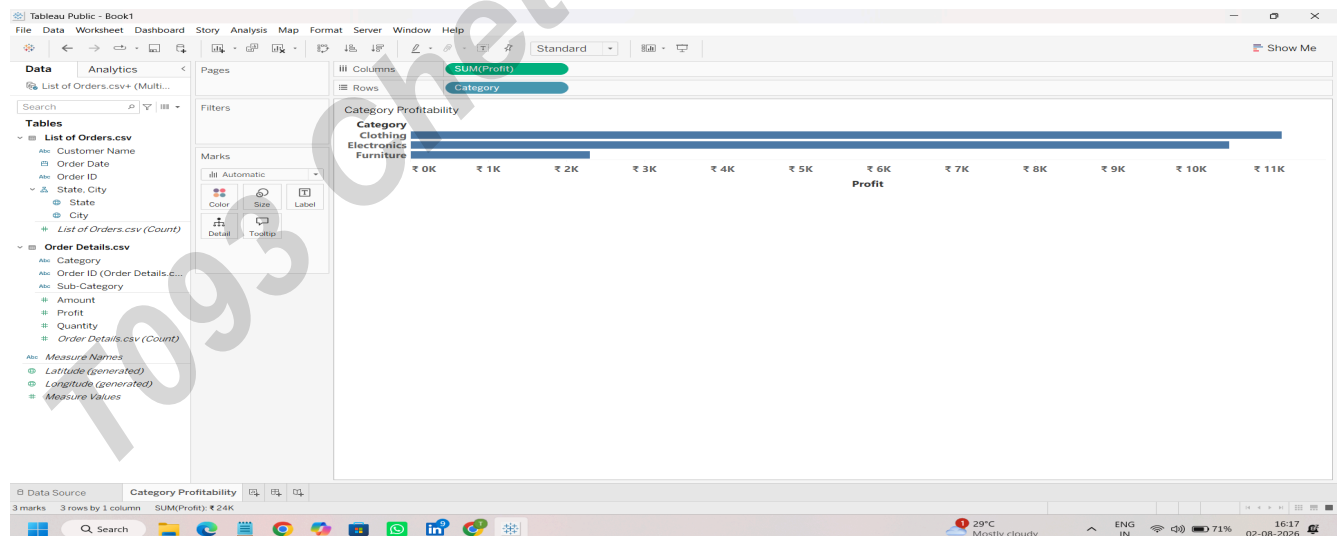

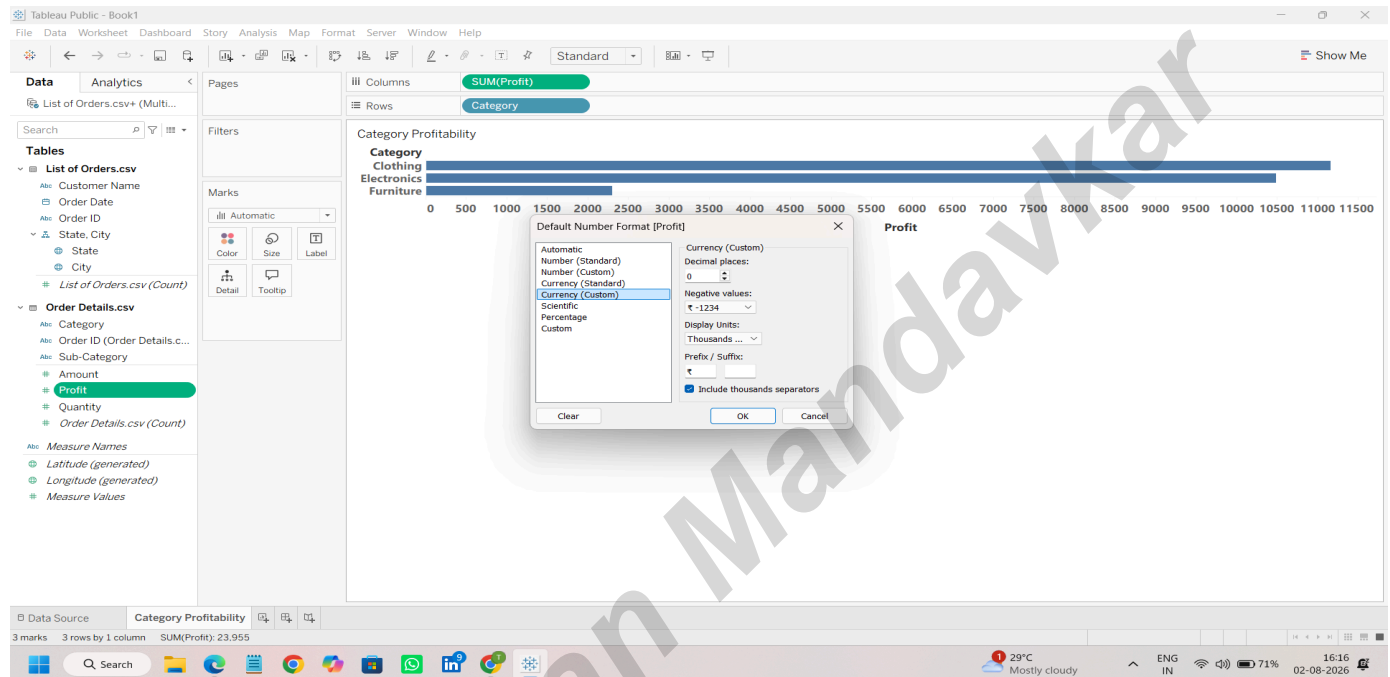

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 2:- In the dialog box that opens: **Select Currency (Custom)** on the left menu. Set **Decimal places** to 0 (or 2 if you prefer decimals). **Set Prefix/Suffix:** Type ₹ into the Prefix box (or INR). Set **Display Units** to **Thousands (K)** or **Thousands (K)** depending on preference (or leave as None).

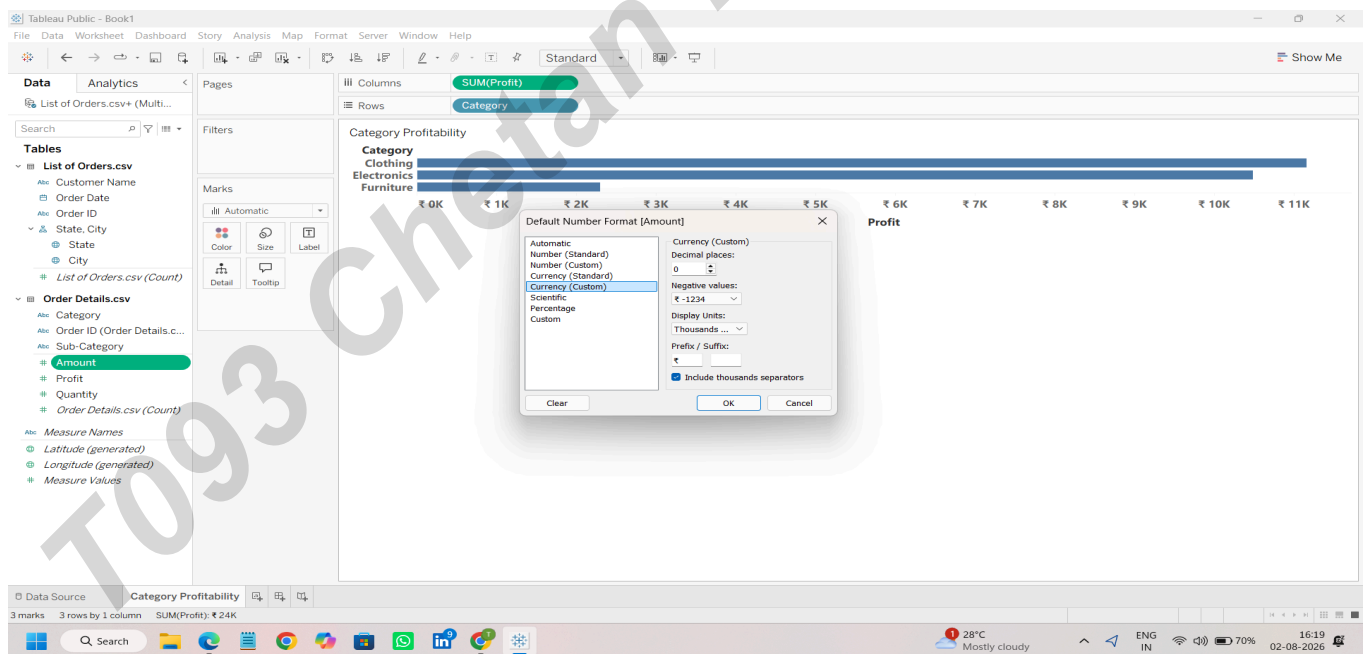

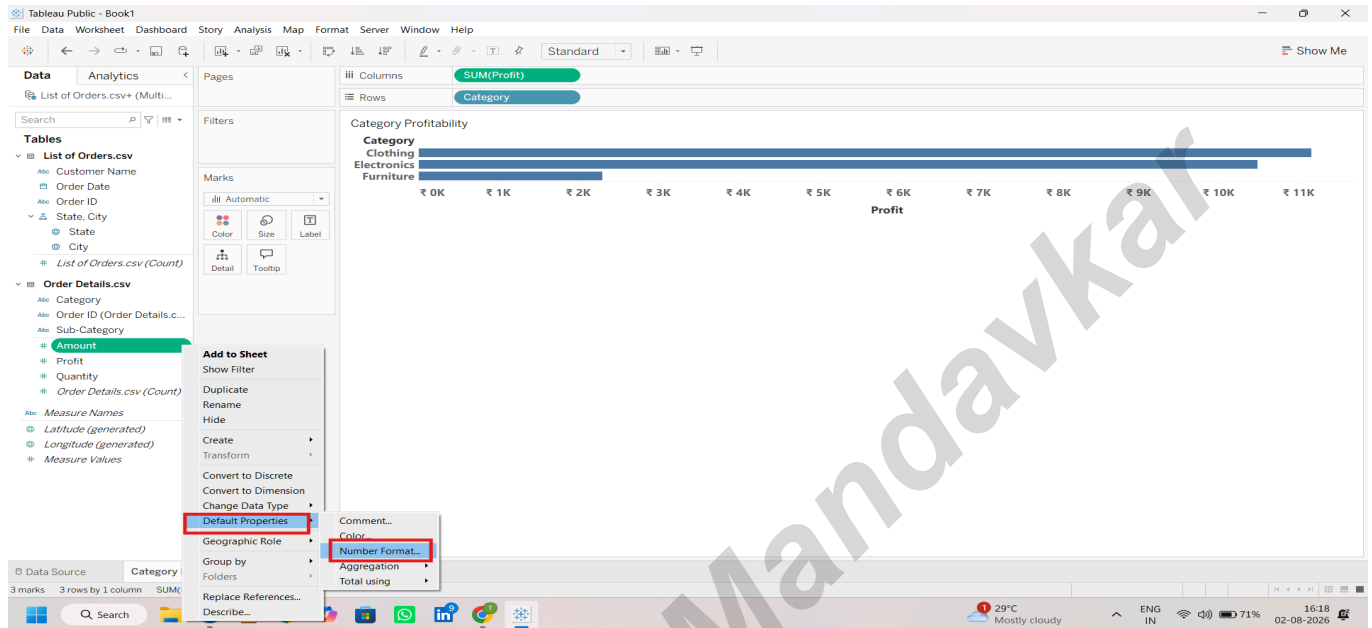

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 3:- Repeat these steps for the Amount field: Right-click Amount Default Properties Number Format... Choose Currency (Custom), set Prefix to ₹, and click OK.

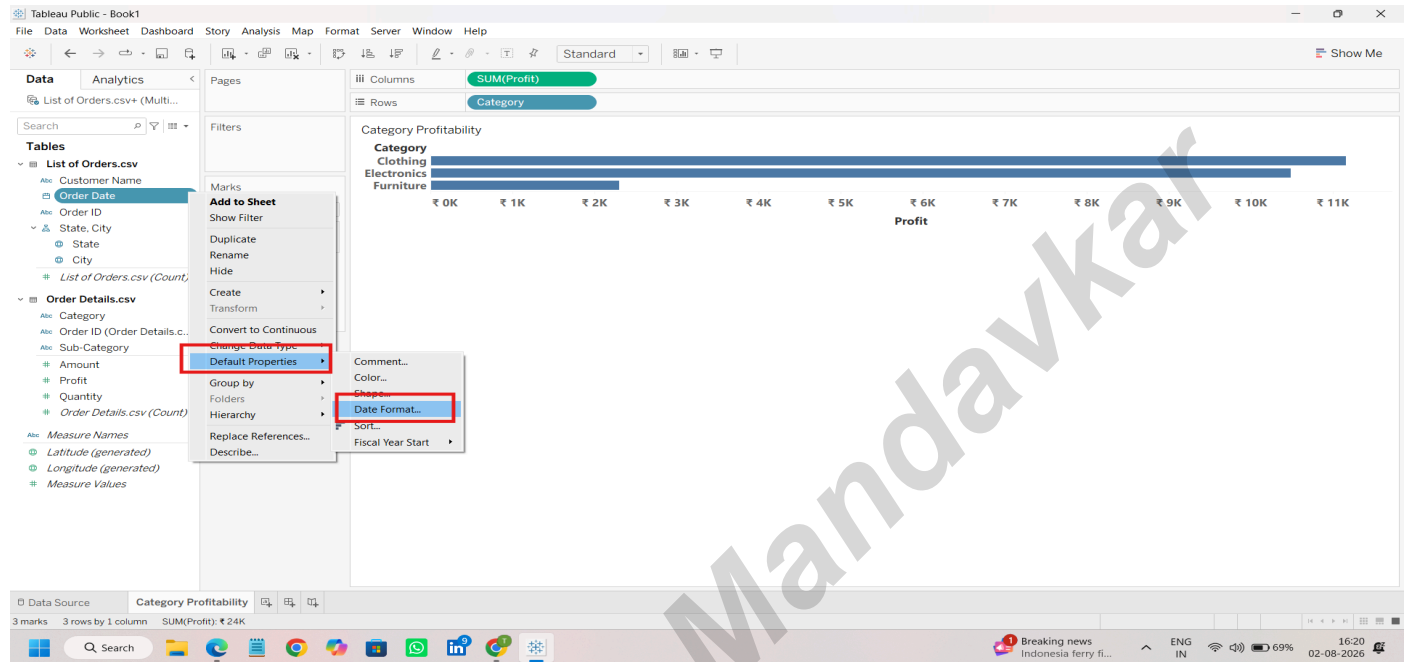

Name:- Chetan Mandavkar

Roll No. T093

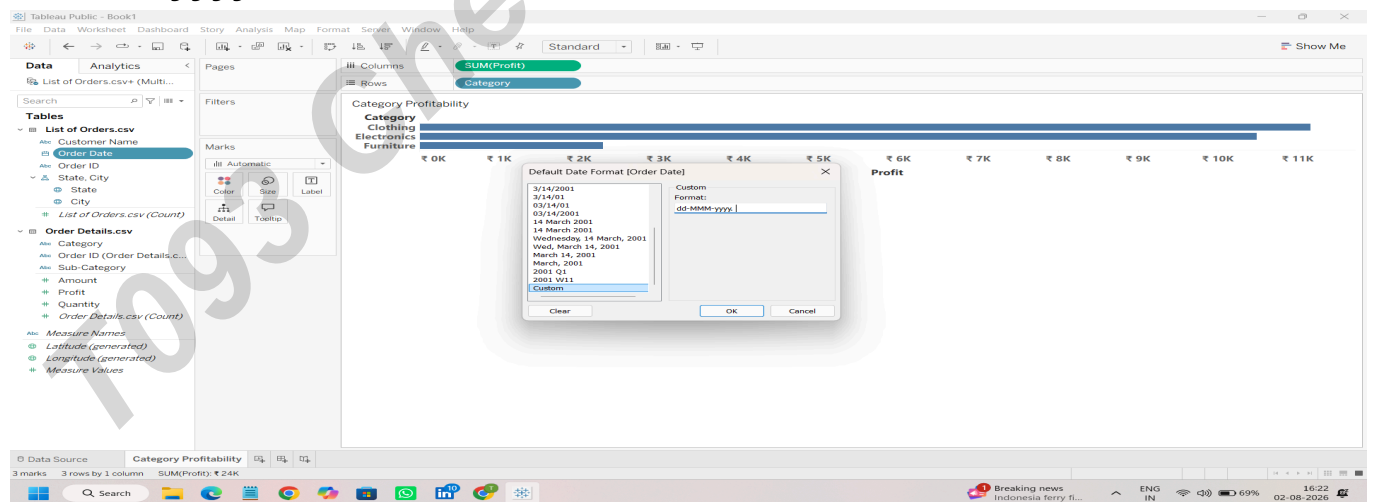

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 4:- In the Data Pane, locate Order Date under List of Orders. Right-click Order Date, hover over Default Properties, and click Date Format...

Step 5:- In the menu: o Select a standard format like dd-mmm-yyyy (e.g., 14-Jan-2018) or scroll down to select Custom and type: dd-MMM-yyyy.

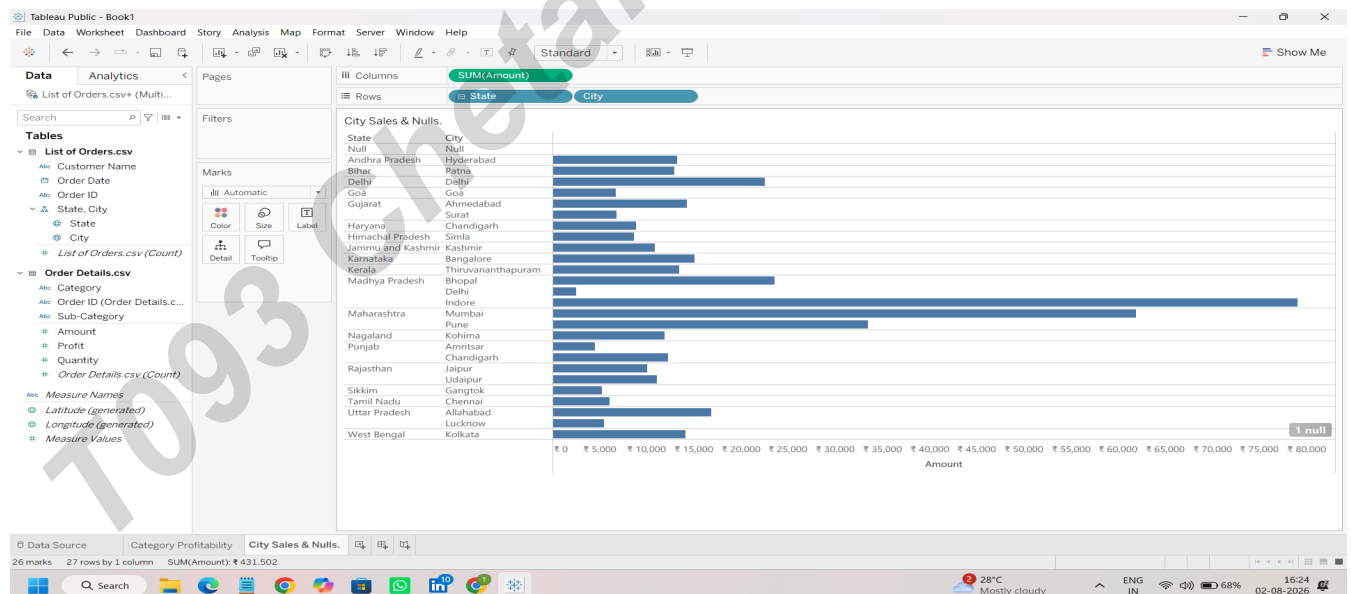

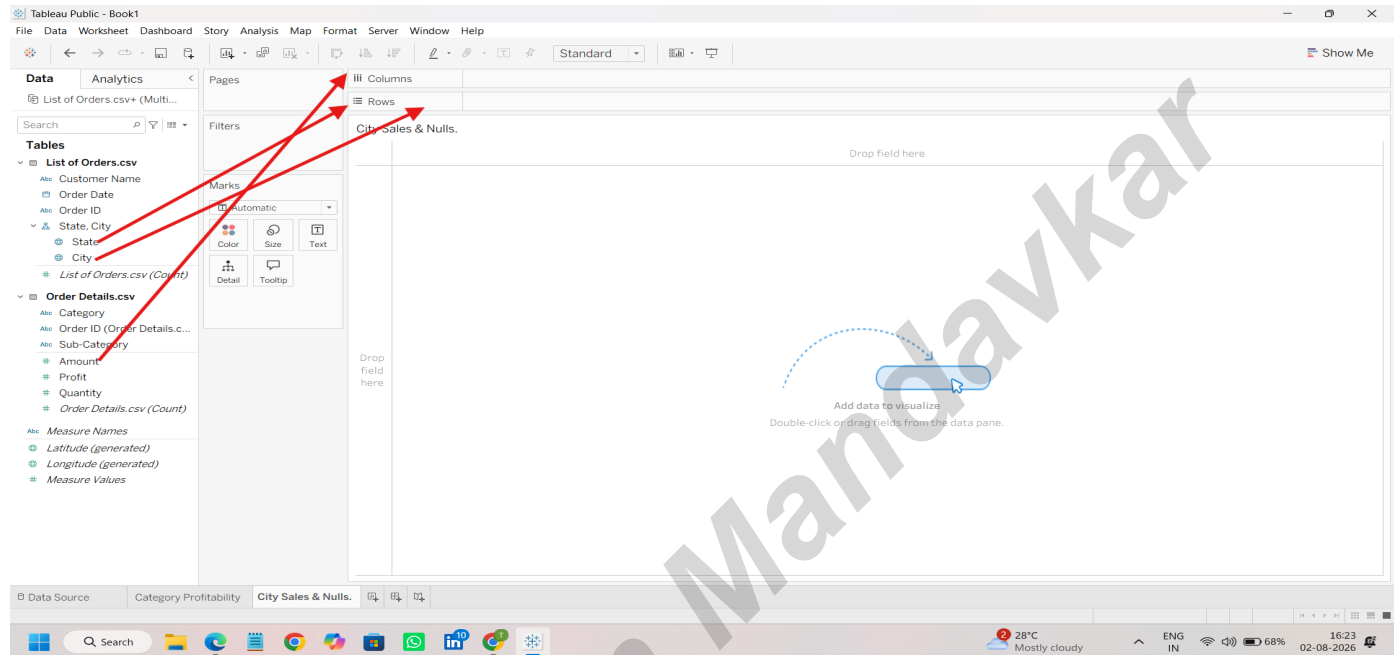

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 6:- Create a new worksheet by clicking the New Worksheet tab at the bottom and name it: City Sales & Nulls. From the Data Pane, drag State to the Rows shelf. Drag City to the Rows shelf (placing it next to State). Drag Amount to the Columns shelf.

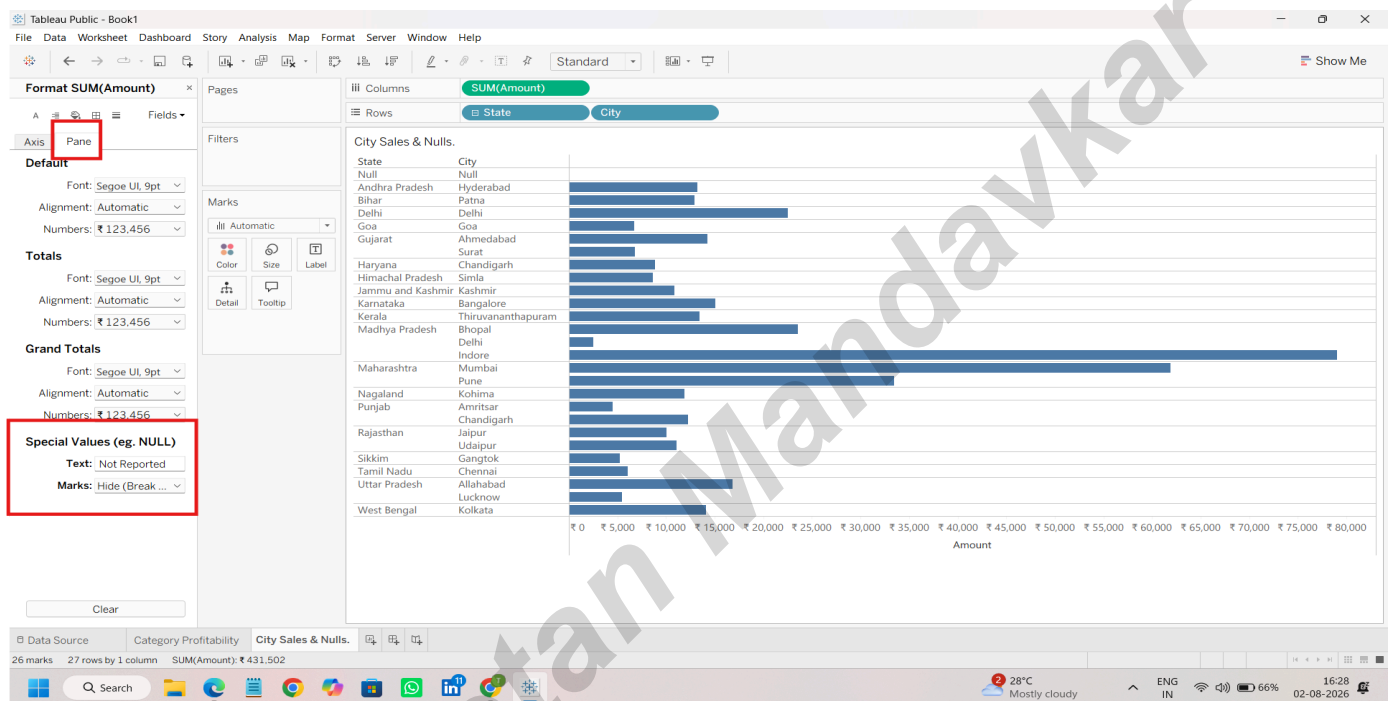

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 7:- Customize Null Text: Right-click on the SUM(Amount) pill on the Columns shelf and select Format... In the Format pane on the left, make sure you are on the Pane tab. At the very bottom of the Format pane, find the Special Values (e.g. NULL) section. In the Text box, type: Not Reported or N/A. In the Marks drop-down, you can choose Hide (Break Lines) or Show at Default Value.

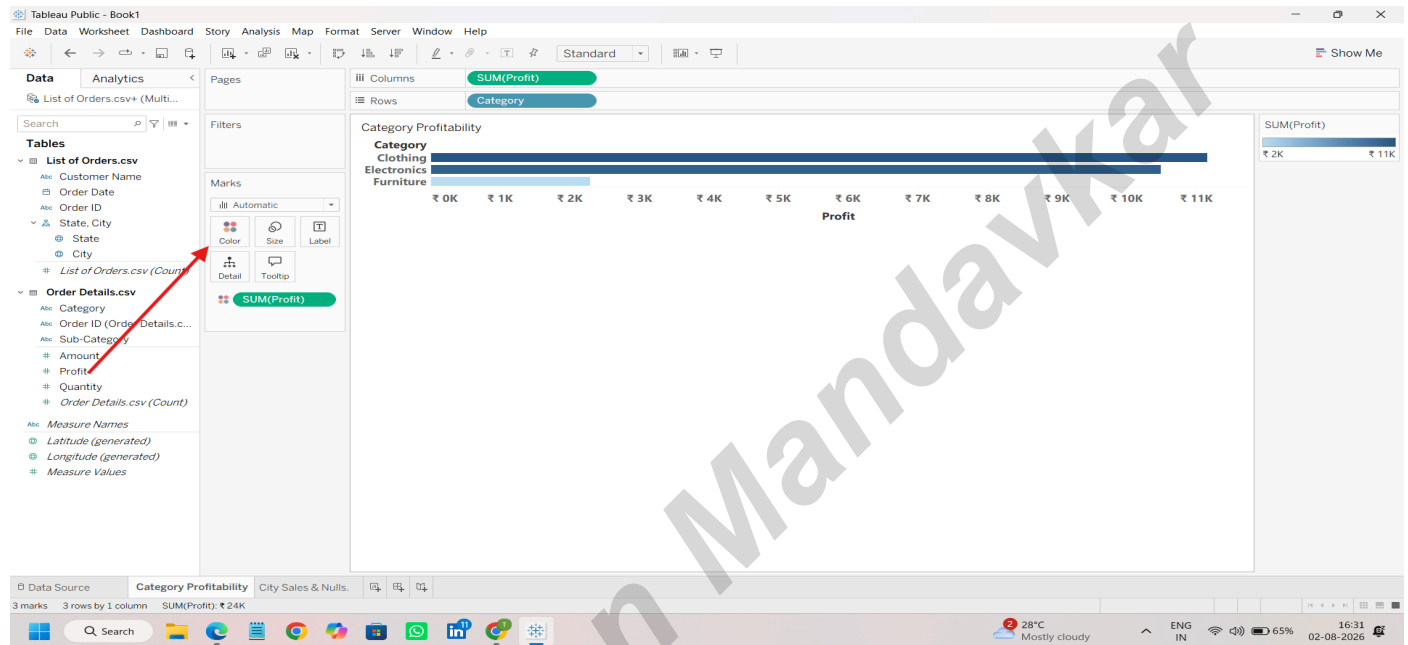

Name:- Chetan Mandavkar

Roll No. T093

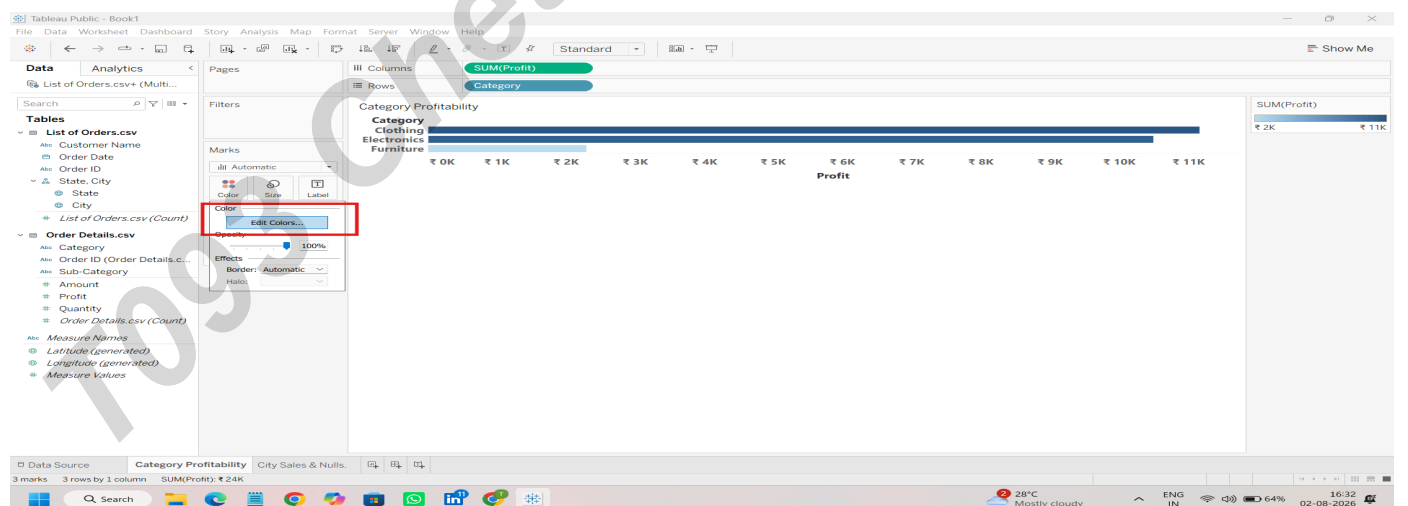

Subject:- Data Visualization With Power BI And Tableau

C] Design Effective Color Schemes and Layouts

Step 1:- Click on your Category Profitability worksheet tab at the bottom. From the Data Pane on the left, drag Profit directly onto the Color card in the Marks card. Tableau will assign a default color gradient. To customize it: Click the Color card on the Marks card.

Click Edit Colors...

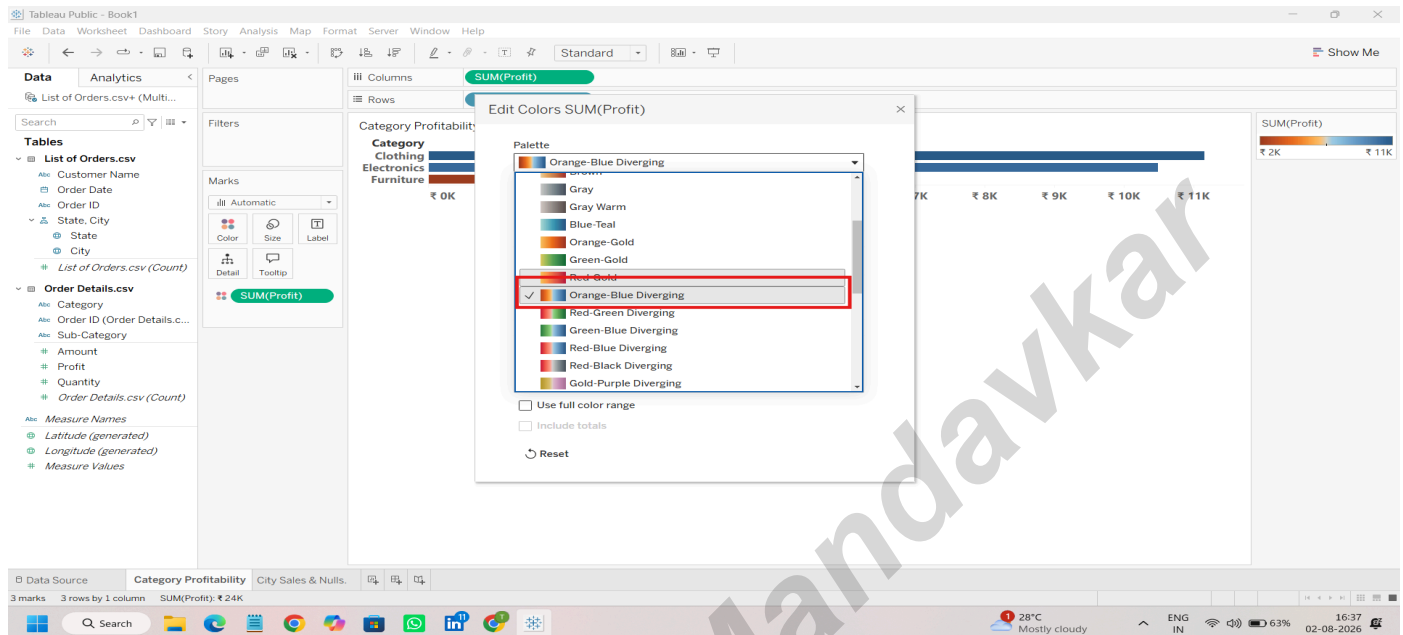

Name:- Chetan Mandavkar

Roll No. T093

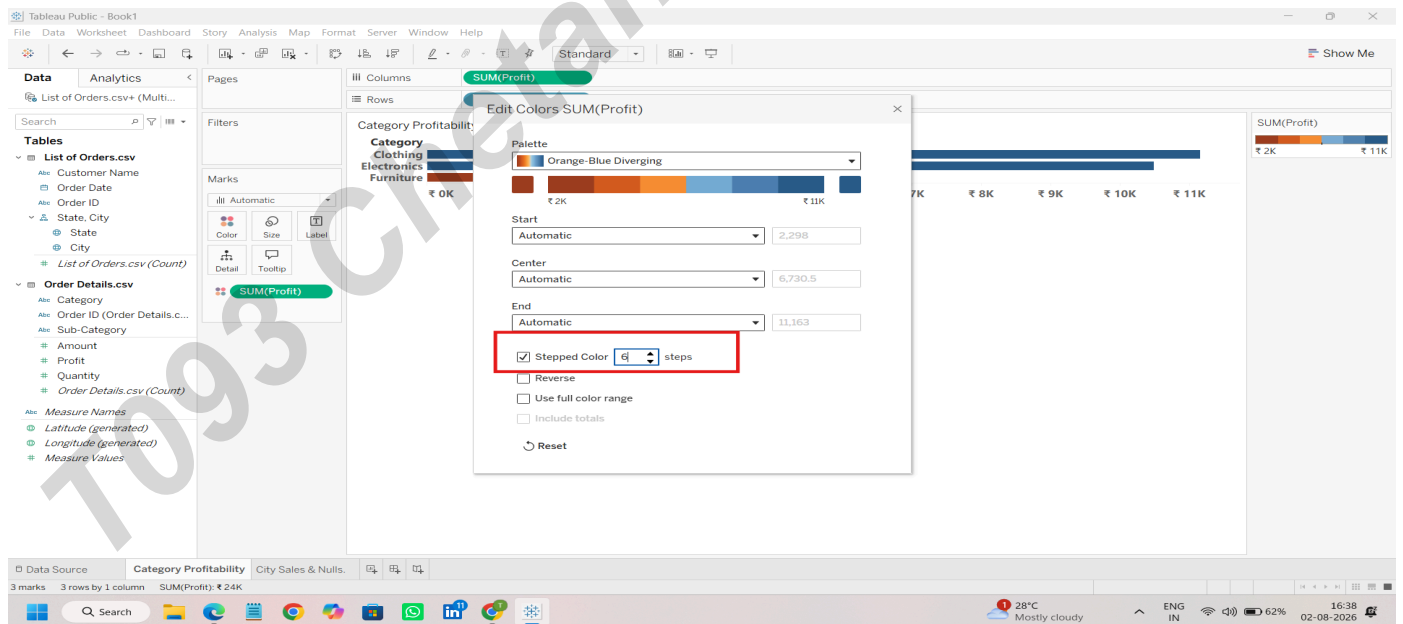

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

In the Edit Colors dialog box: Click the Palette drop-down menu and select Orange-Blue Diverging (or Red Green Diverging).

Check the box for Stepped Color and set the number of steps to 4 or 6 (this creates clear, distinct color bands).

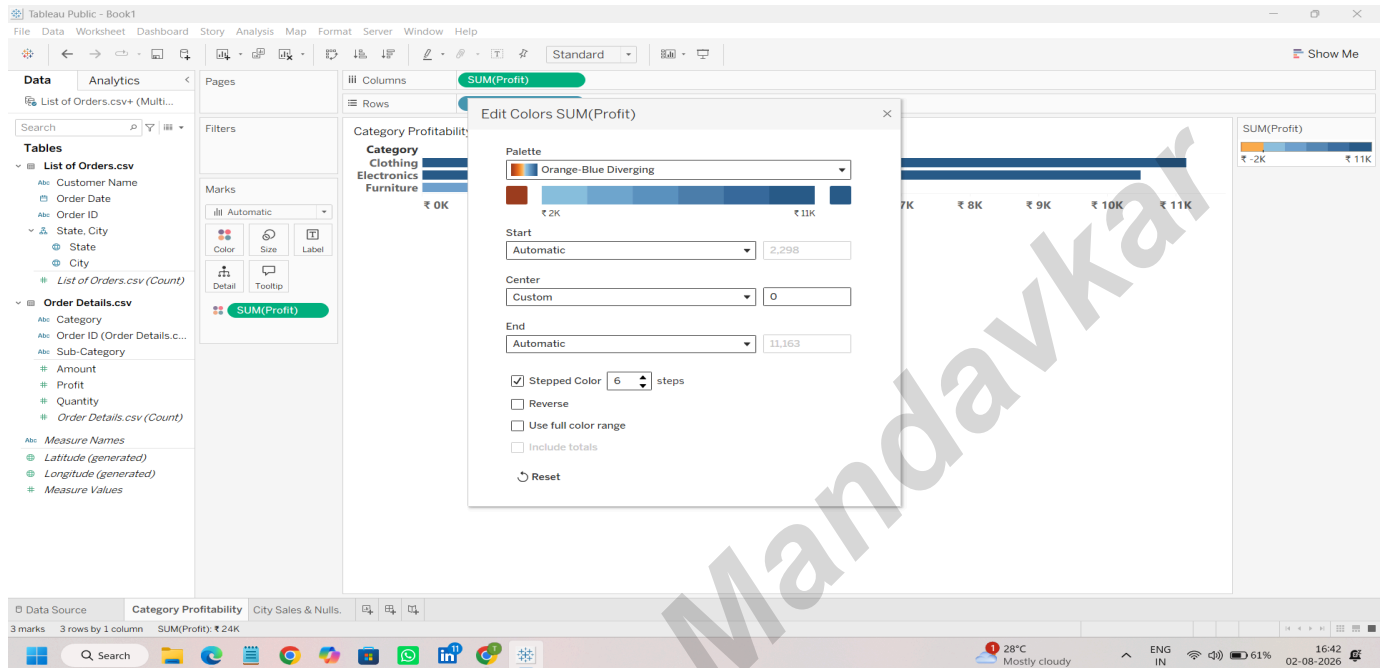

Name:- Chetan Mandavkar

Roll No. T093

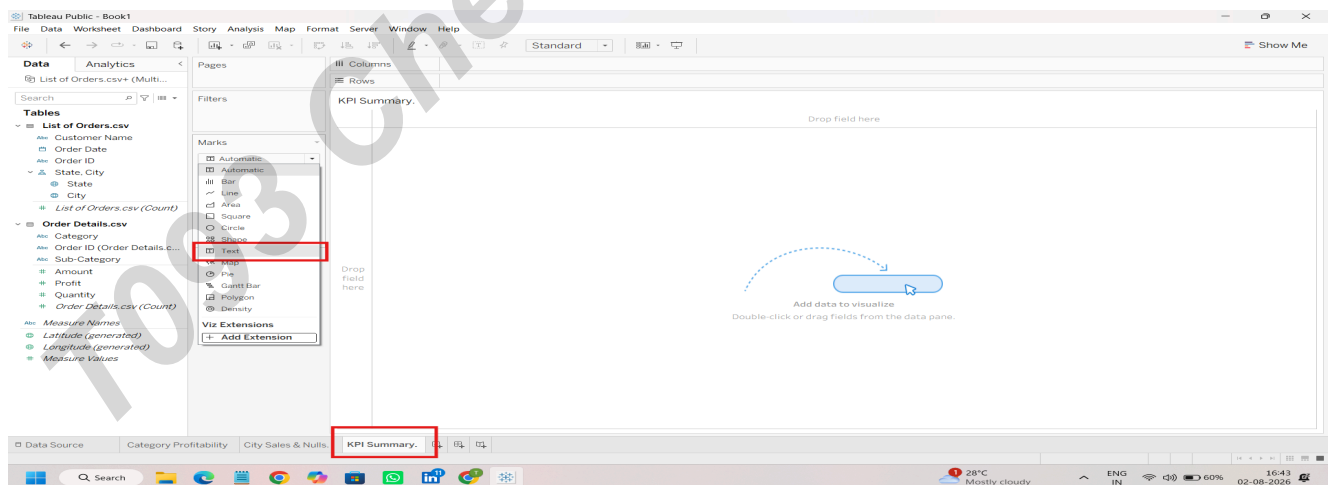

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

o Click Advanced >> to expand additional settings (The Additional settings may show even if you don't click advanced). Check the Center box and ensure the value is set to 0.

Step 2:- Click the New Worksheet icon at the bottom and name it: KPI Summary. Change the Mark type in the Marks card drop-down from Automatic to Text.

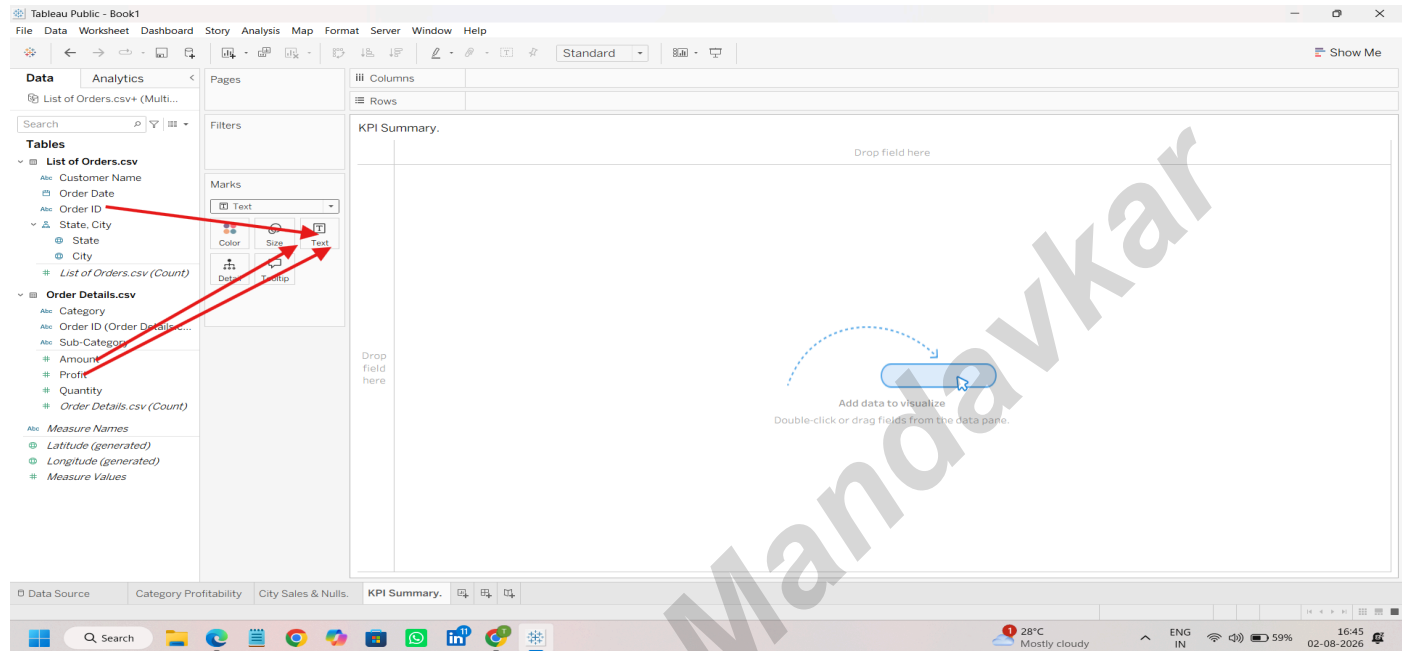

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Drag Amount onto the Text card (it will display as SUM(Amount)). Drag Profit onto the Text card (it will display as SUM(Profit)). Drag Order ID onto the Text card.

[illegible]

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

o Click the down arrow on the Order ID pill Measure Count (Distinct)
so it displays as CNTD(Order ID).

The screenshot shows the Tableau Public interface with a worksheet named 'KPI Summary'. The 'Columns' shelf contains a pill for 'SUM(Amount)'. The 'Marks' shelf contains a pill for 'SUM(Profit)'. The 'Order ID' pill is currently on the 'Columns' shelf. A right-click context menu is open over the 'Order ID' pill, and the 'Measure' option is selected. The 'Measure' submenu is open, showing 'Minimum', 'Maximum', and 'Count (Distinct)'. The 'Count (Distinct)' option is highlighted. The status bar at the bottom shows '501 marks' and '1 row by 1 column'.

The screenshot shows the same Tableau Public interface, but the 'Order ID' pill on the 'Columns' shelf now displays 'CNTD(Order ID)'. The 'SUM(Amount)' pill on the 'Columns' shelf now shows a value of 431,502. The 'SUM(Profit)' pill on the 'Marks' shelf now shows a value of 24K. The status bar at the bottom shows '1 mark' and '1 row by 1 column'.

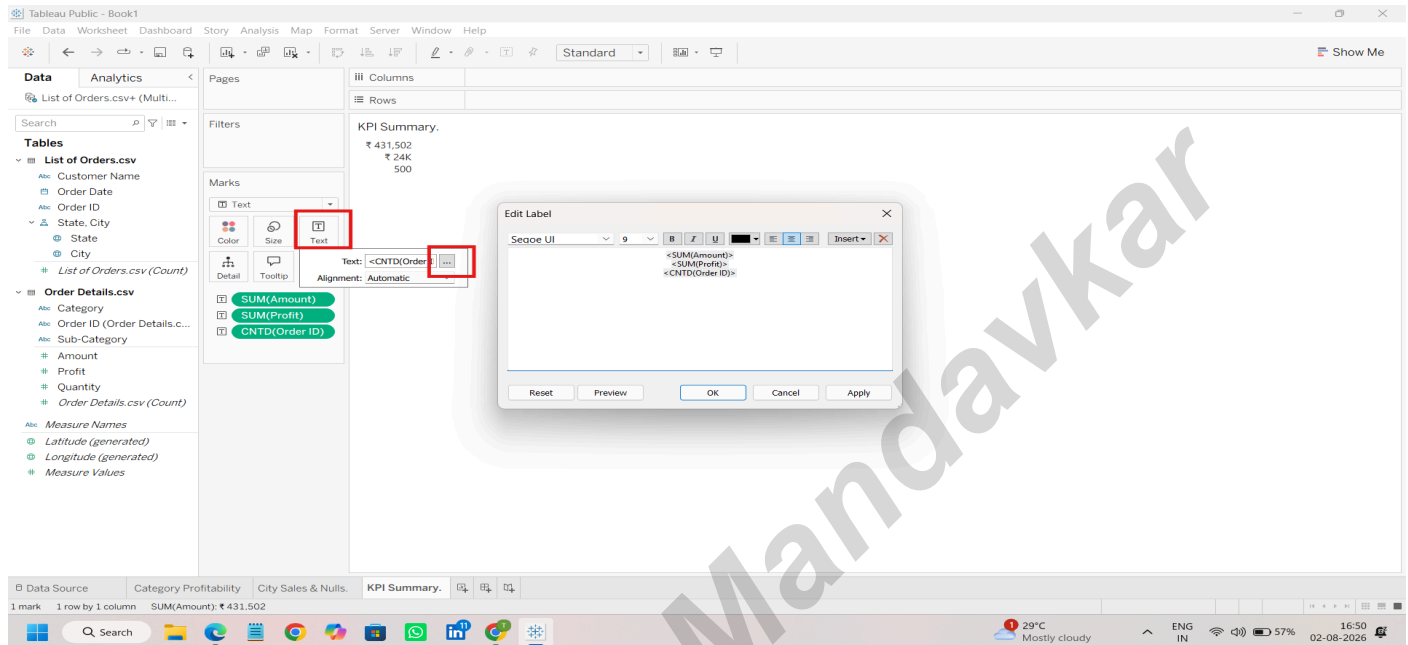

Name:- Chetan Mandavkar

Roll No. T093

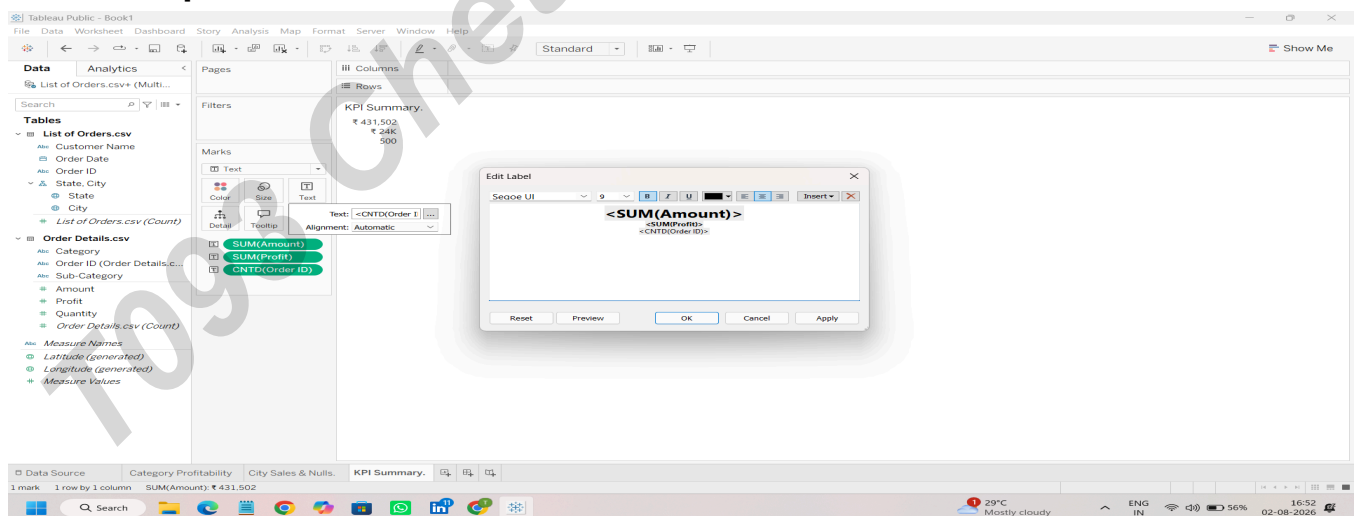

Subject:- Data Visualization With Power BI And
Tableau

Sheth L.U.J. And Sir M.V. College

**Step 3:- Click the Text card on the Marks card, then click the ... button next to Text to edit the text layout: Arrange and format the text clearly:
TOTAL SALES TOTAL PROFIT TOTAL ORDERS**

**Highlight the metric values (, etc.), make them Bold and size 18pt.
Highlight the labels (TOTAL SALES, etc.), make them light gray, Bold, and size 9pt.**

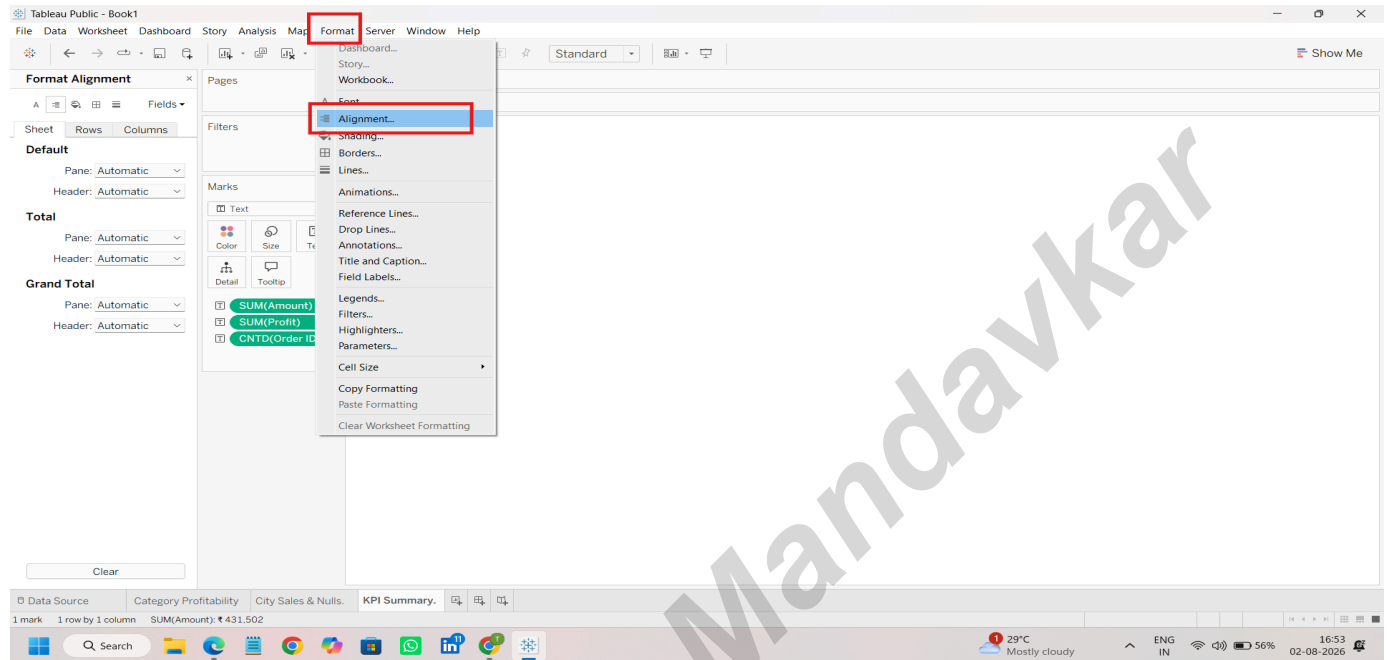

Name:- Chetan Mandavkar

Roll No. T093

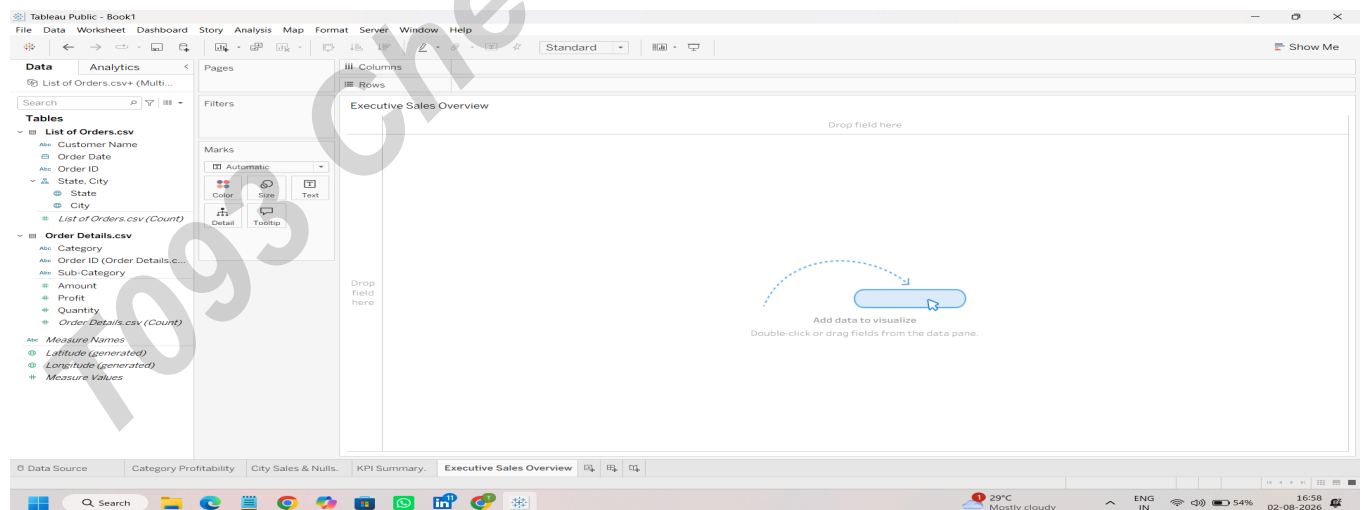

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 4:- Right-click anywhere in the sheet background, select Format..., go to the Alignment tab (icon with text lines), and set Horizontal Alignment to Center.

Step 5:- At the bottom of the screen, click the New Dashboard icon (the icon with a grid). Rename the dashboard tab: Executive Sales Overview

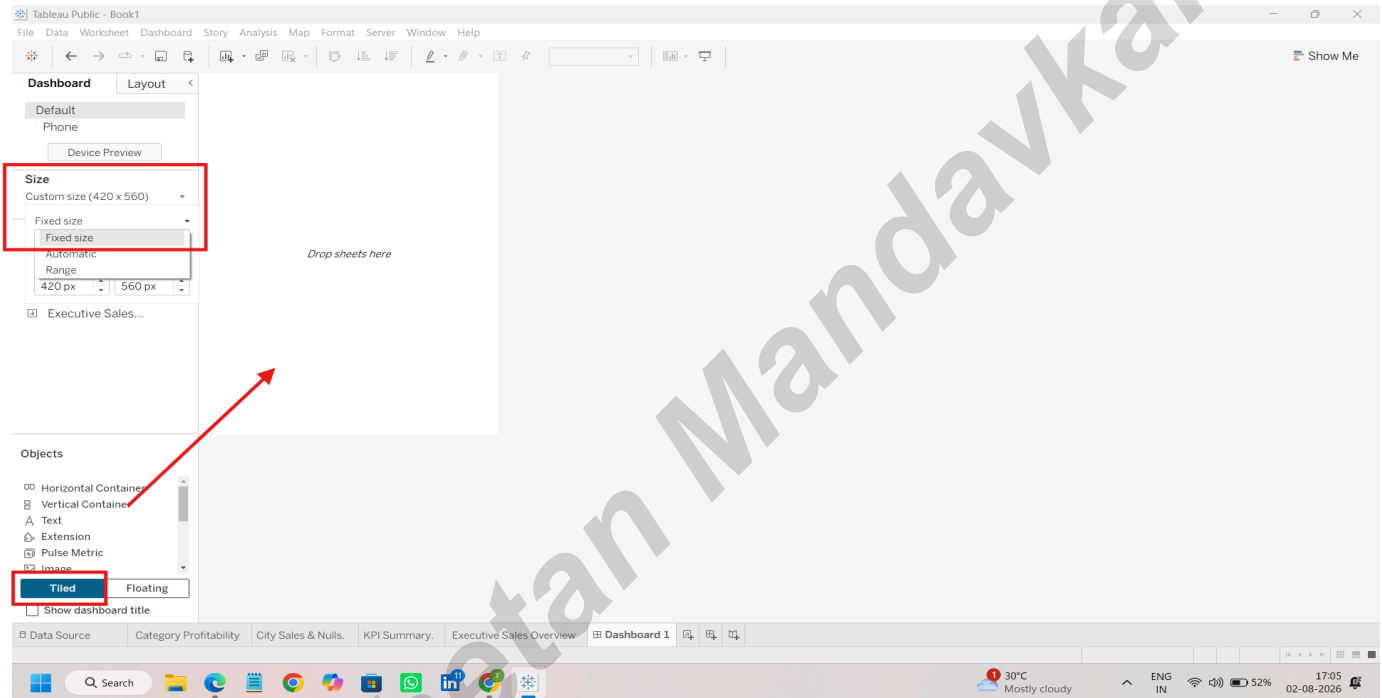

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 6:- In the Dashboard pane on the far left: Under Size, set the view to Fixed size or Desktop Browser (1000 x 800). Under Objects at the bottom left: Ensure Tiled is selected. Drag a Vertical Container onto the blank dashboard canvas. Drag your worksheets from the Sheets list into the container: Drag KPI Summary to the top section. Drag Category Profitability directly below KPI Summary. Drag City Sales & Nulls next to or below Category Profitability.

Sheth L.U.J. And Sir M.V. College

D] : Create Informative Tooltips

Step 1:- Click on your Category Profitability worksheet tab at the bottom.

2. On the Marks card (to the left of the chart), click the Tooltip card.

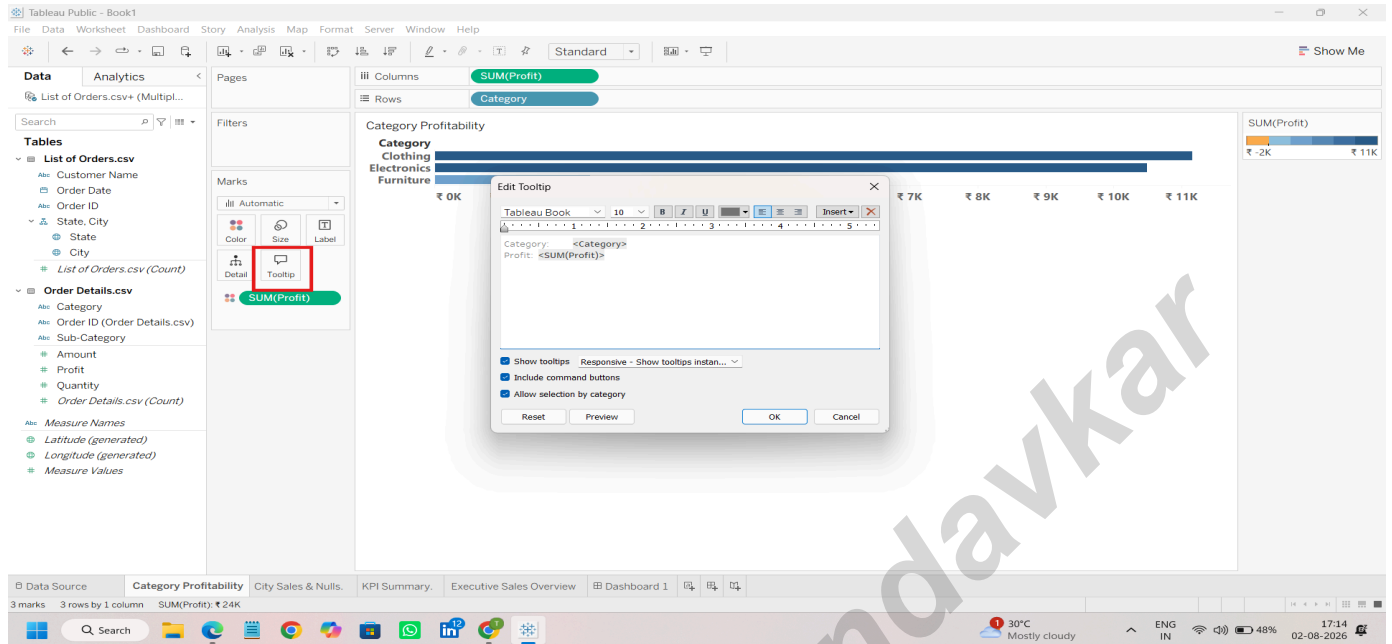

3. The Edit Tooltip dialog box will open showing the default Tableau code: Category: <Category> Profit: <Profit>

Name:- Chetan Mandavkar

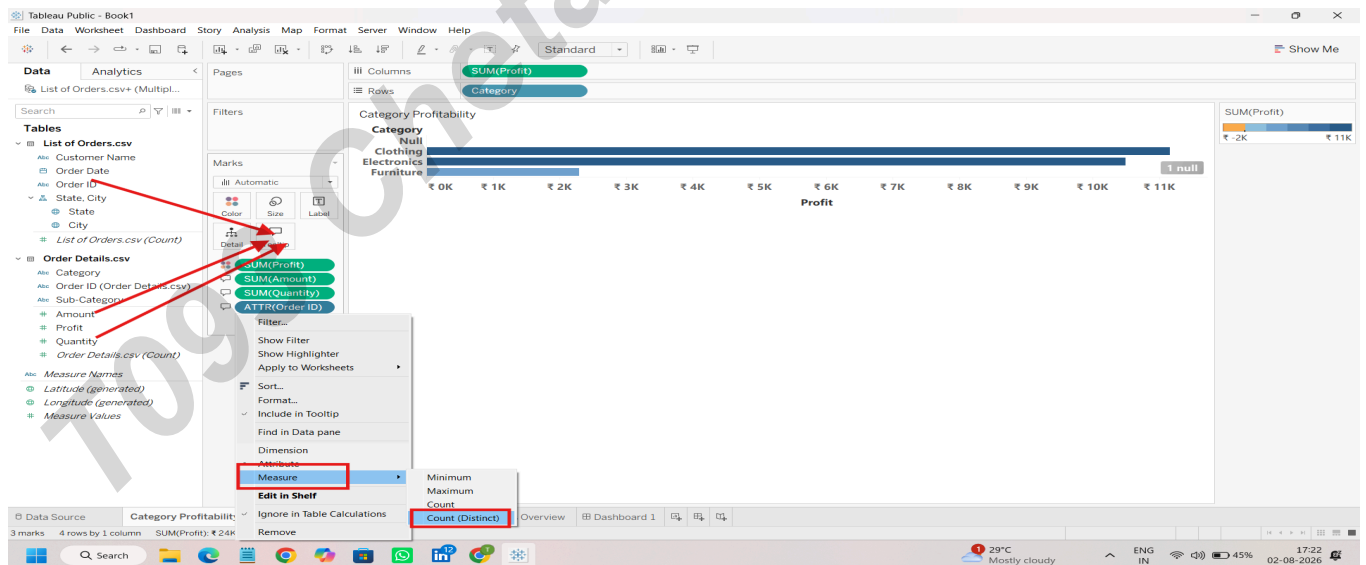

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 2:- Click Cancel to temporarily close the Edit Tooltip window. From the Data Pane, drag Amount onto the Tooltip card on the Marks card. Drag Quantity onto the Tooltip card on the Marks card. Drag Order ID onto the Tooltip card, then click its drop-down arrow Measure Count (Distinct) so it displays as CNTD(Order ID).

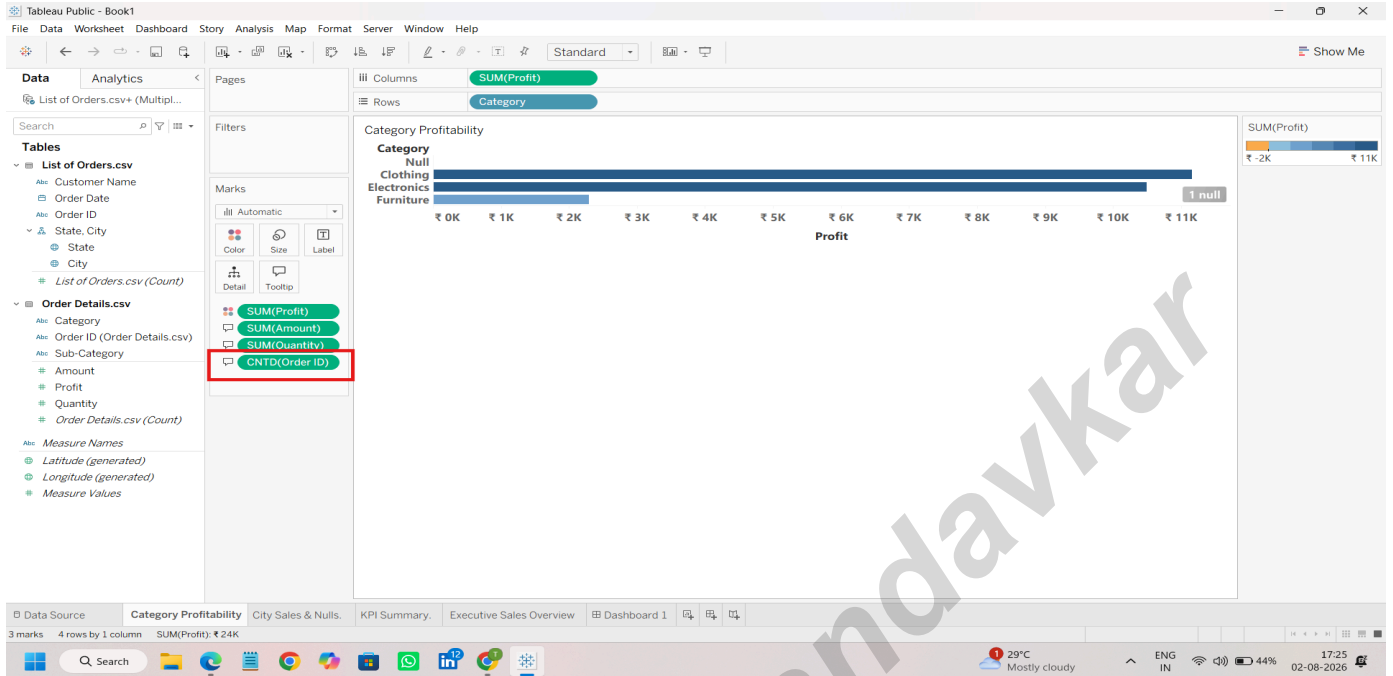

Name:- Chetan Mandavkar

Roll No. T093

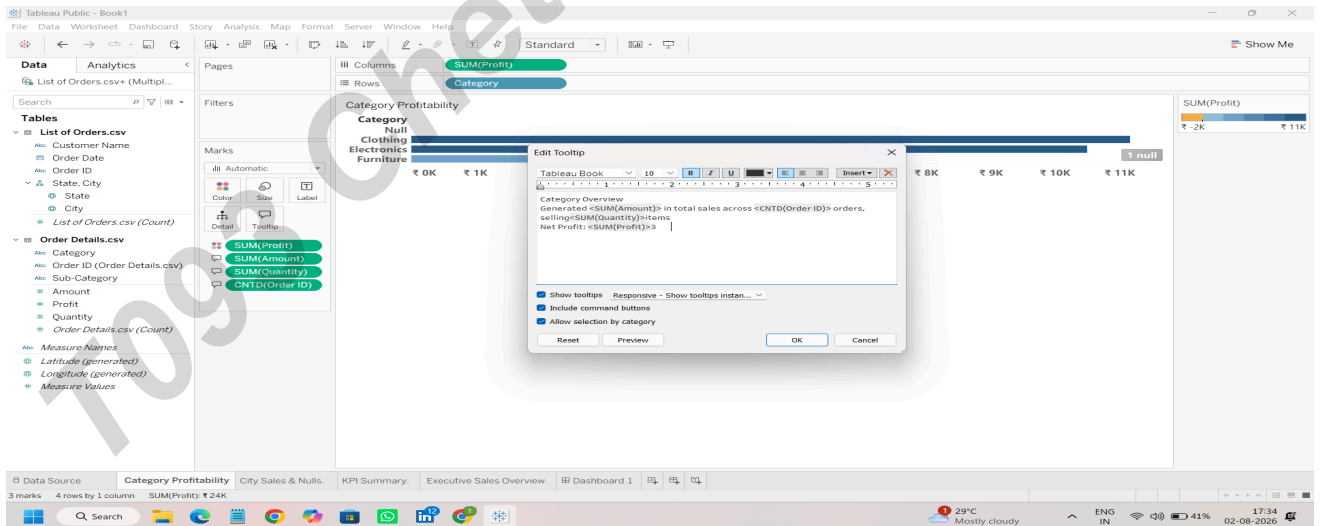

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 3:- Click the Tooltip card on the Marks card again to open the Edit Tooltip window. Delete all existing text inside the box. Re-type or paste the following clean, conversational text:

Category Overview Generated in total sales across orders, selling items. Net Profit:

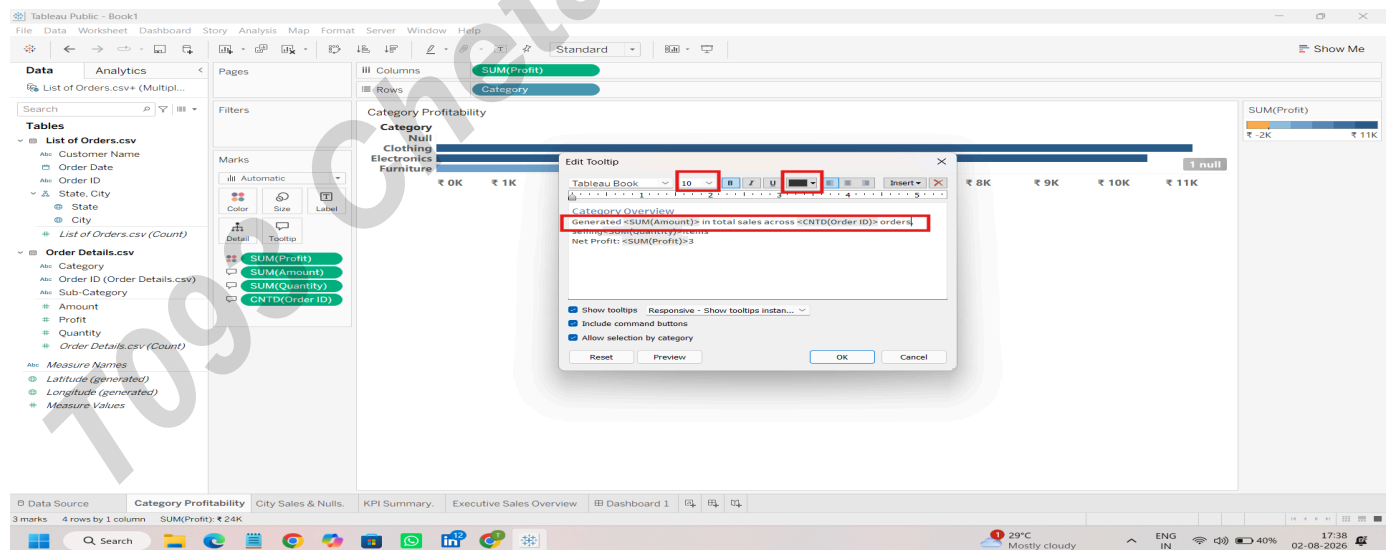

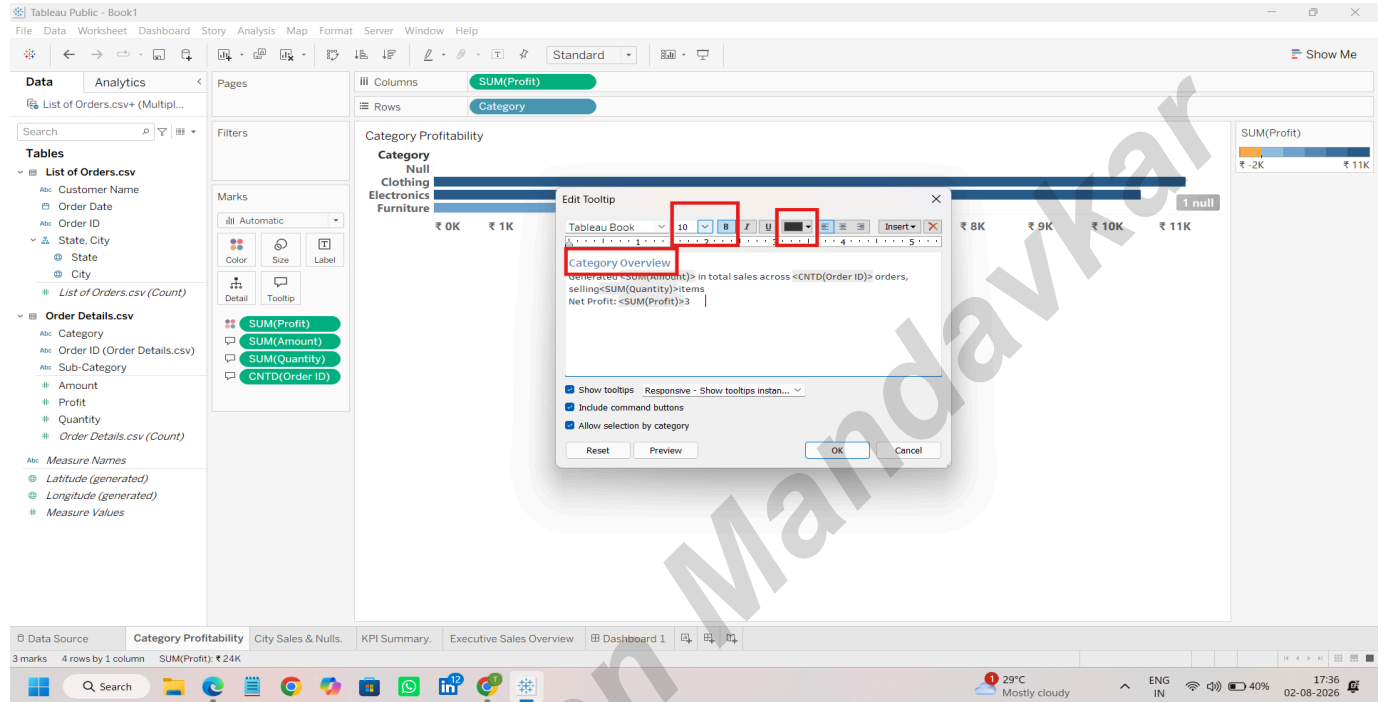

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

o Highlight Category Overview: Make it Bold, size 12pt, and color Dark Blue/Navy Highlight the sentence body: Set to Regular, size 10pt, and color Dark Gray. Highlight the metric dynamic tags (, , etc.): Make them Bold.

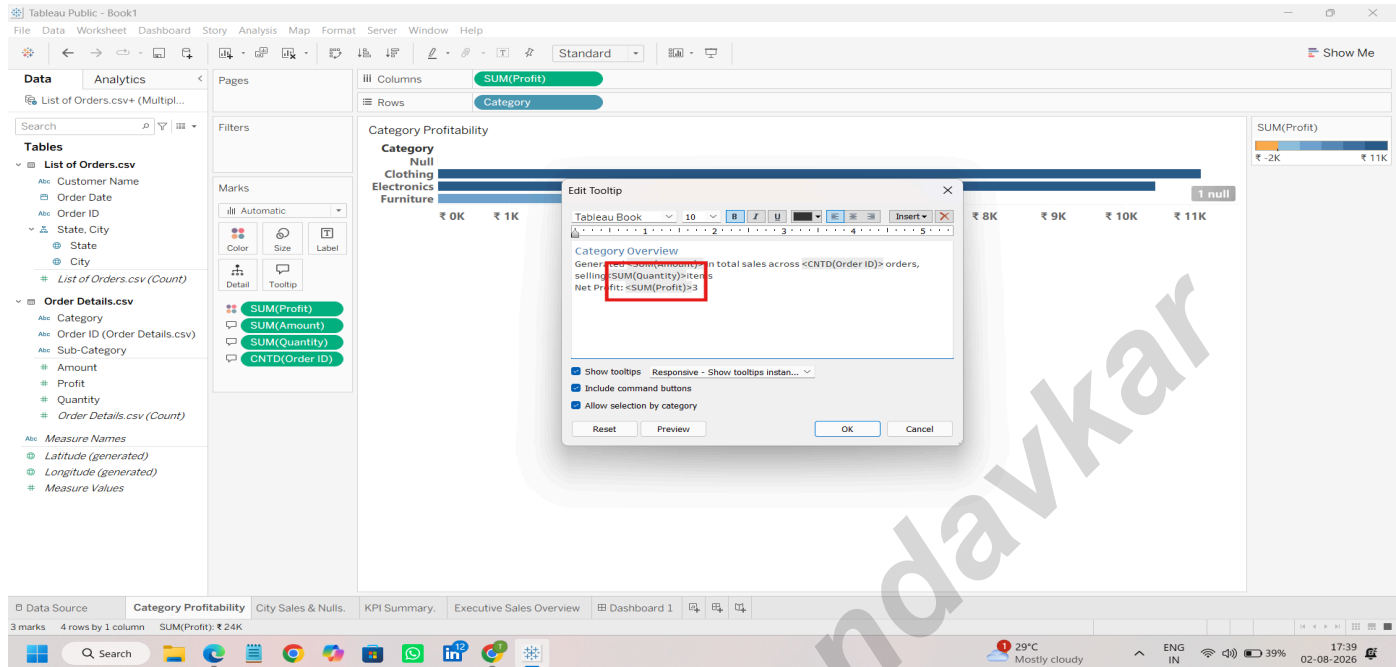

Name:- Chetan Mandavkar

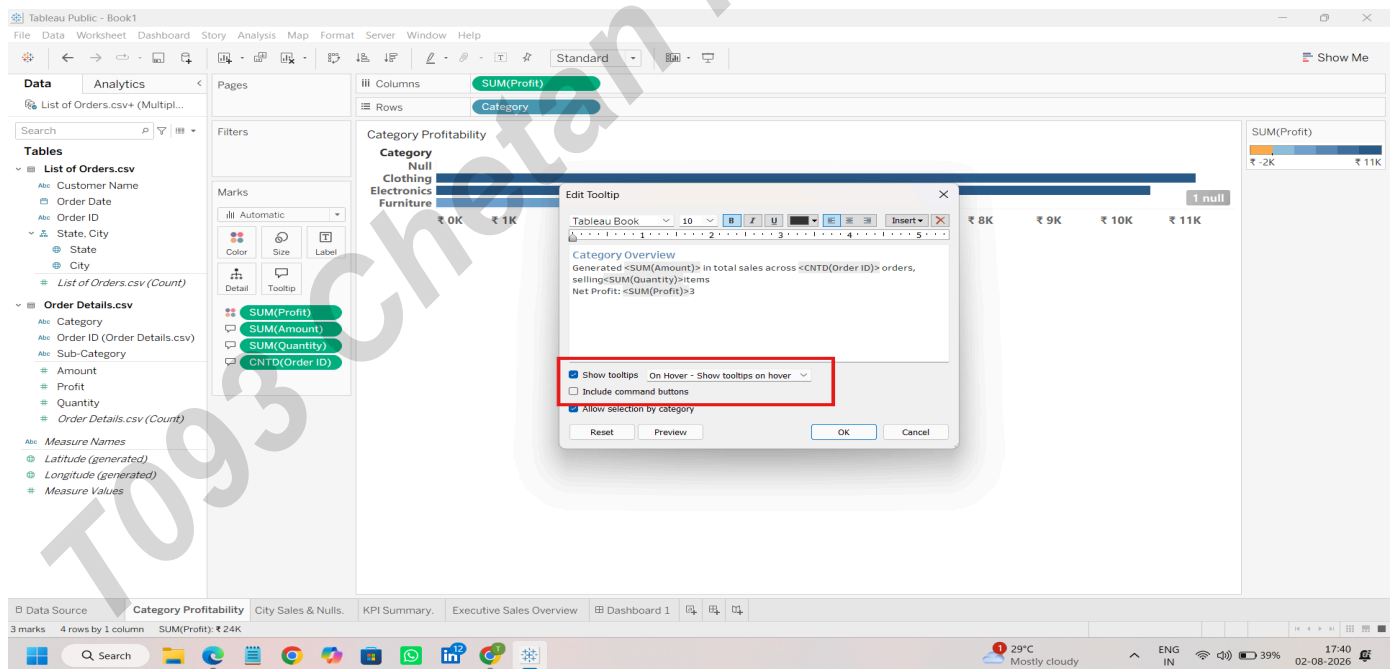

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Uncheck "Include command buttons" Check "Show tooltips: On hover". Then Click OK

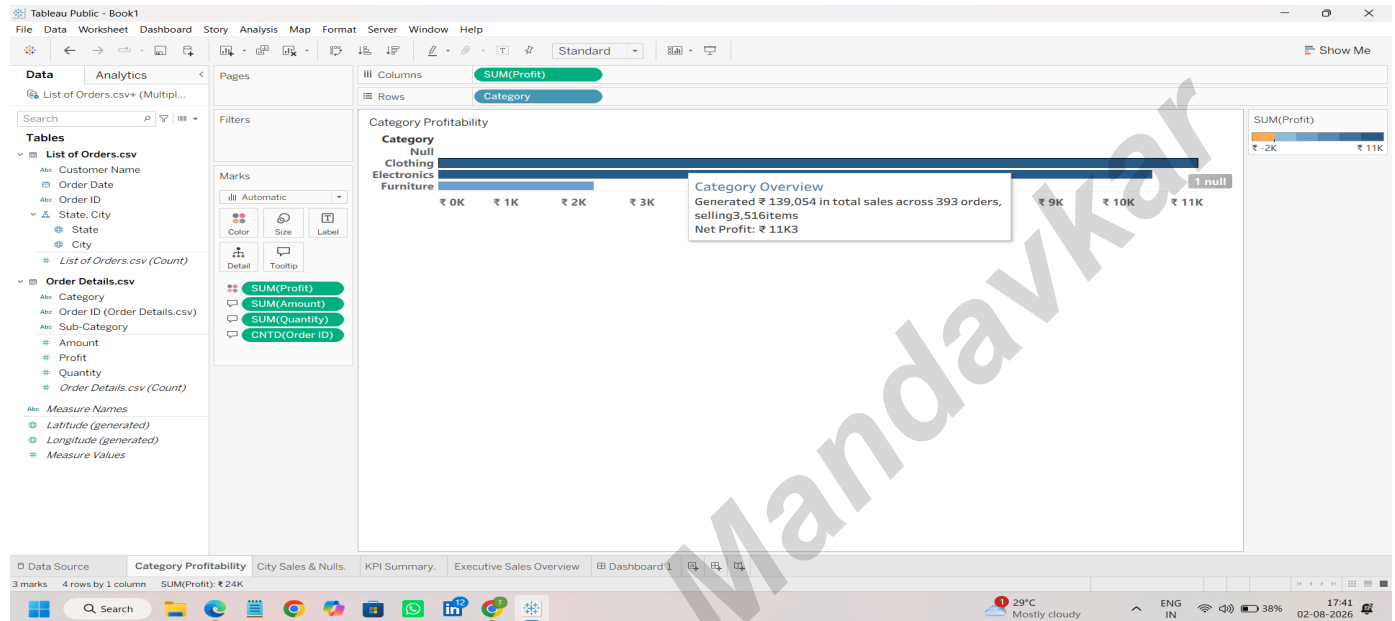

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

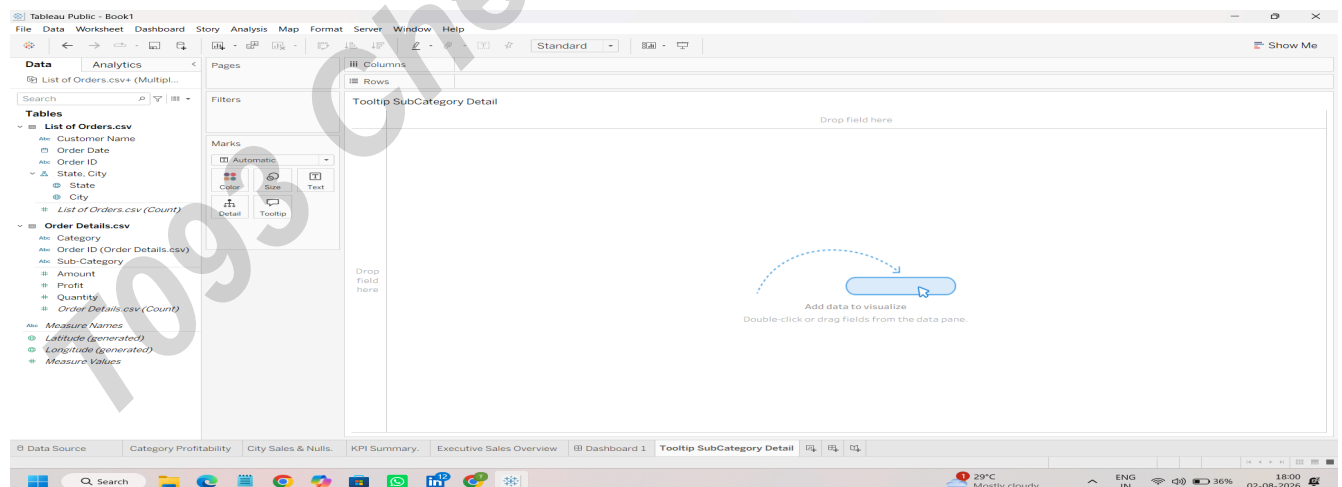

Sheth L.U.J. And Sir M.V. College

Step 4:- Move your mouse cursor over any bar in the Category Profitability view. Confirm that the popup reads as a clean, formatted sentence displaying exact sales, order counts, and net profit for that category!

E] Implement "Viz in Tooltip"

Step 1:- Click the New Worksheet icon at the bottom of the screen and name it: Tooltip SubCategory Detail.

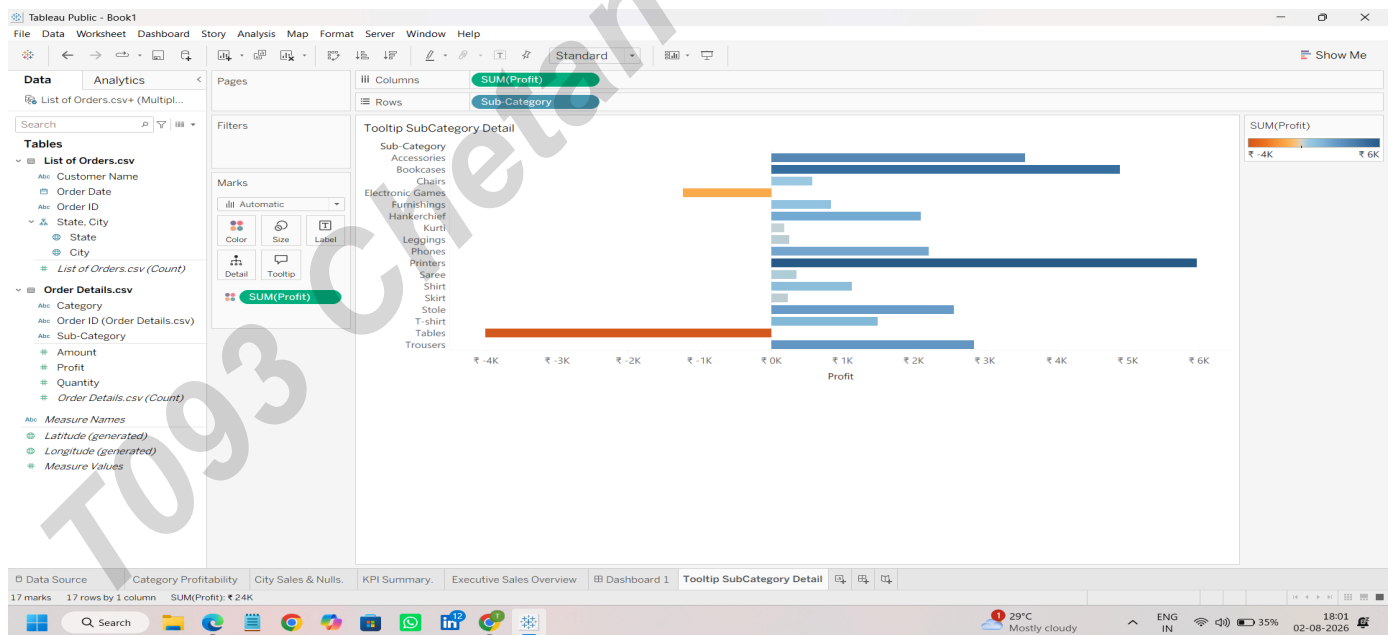

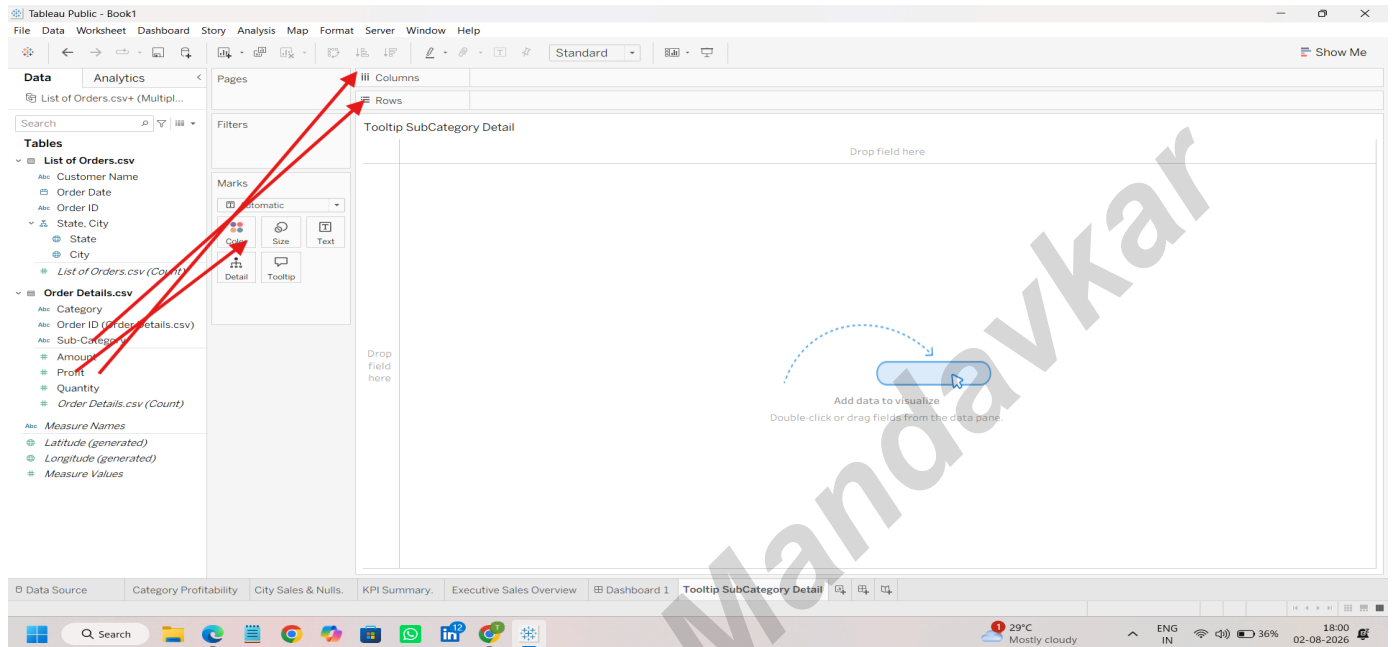

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 2:- From the Data Pane, drag Sub-Category to the Rows shelf. Drag Profit to the Columns shelf. Drag Profit to the Color card on the Marks card to give it visual context.

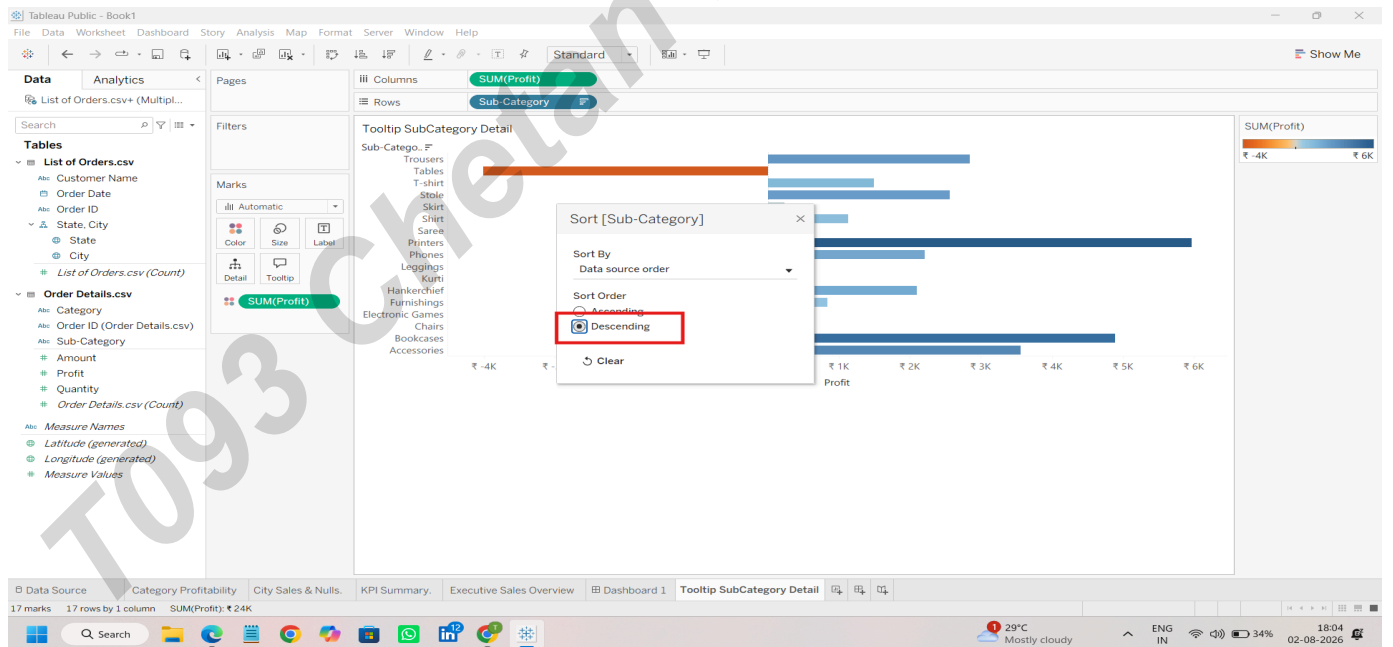

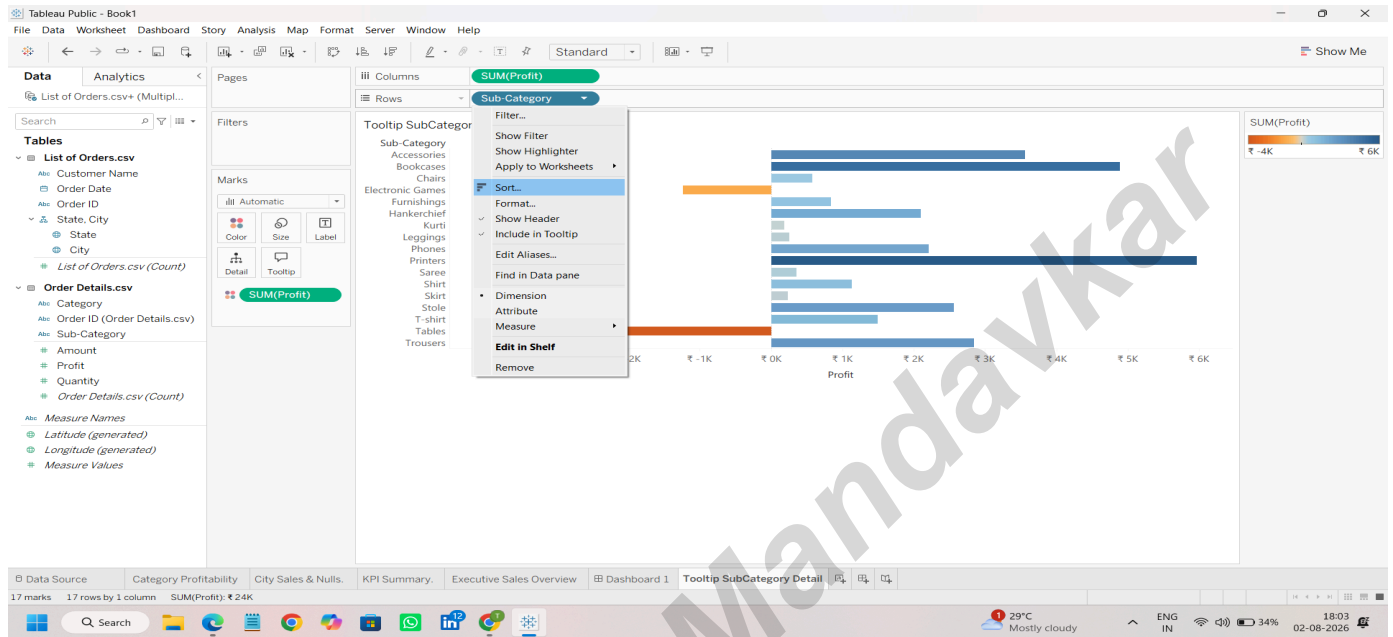

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 3:- Sort the bars: Click the Sort Descending button on the top toolbar (or right-click Sub Category on Rows Sort Nested by Profit Descending

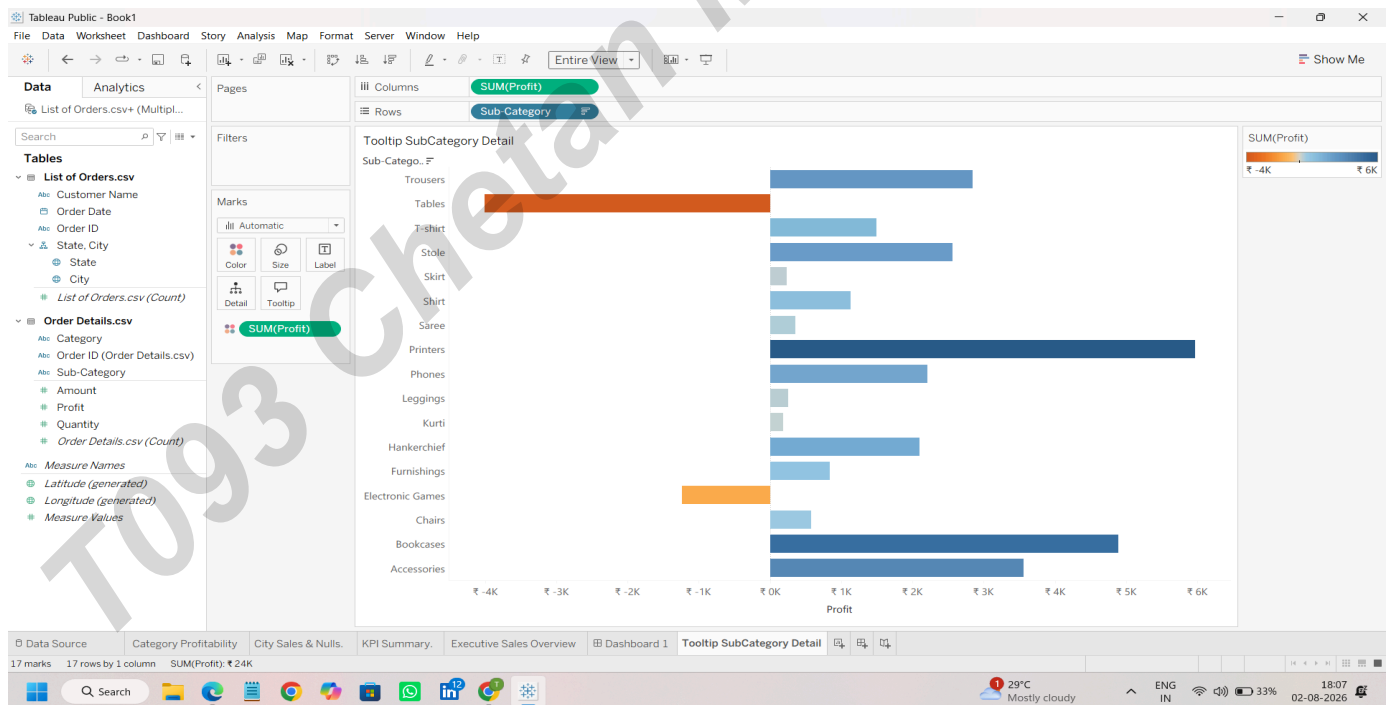

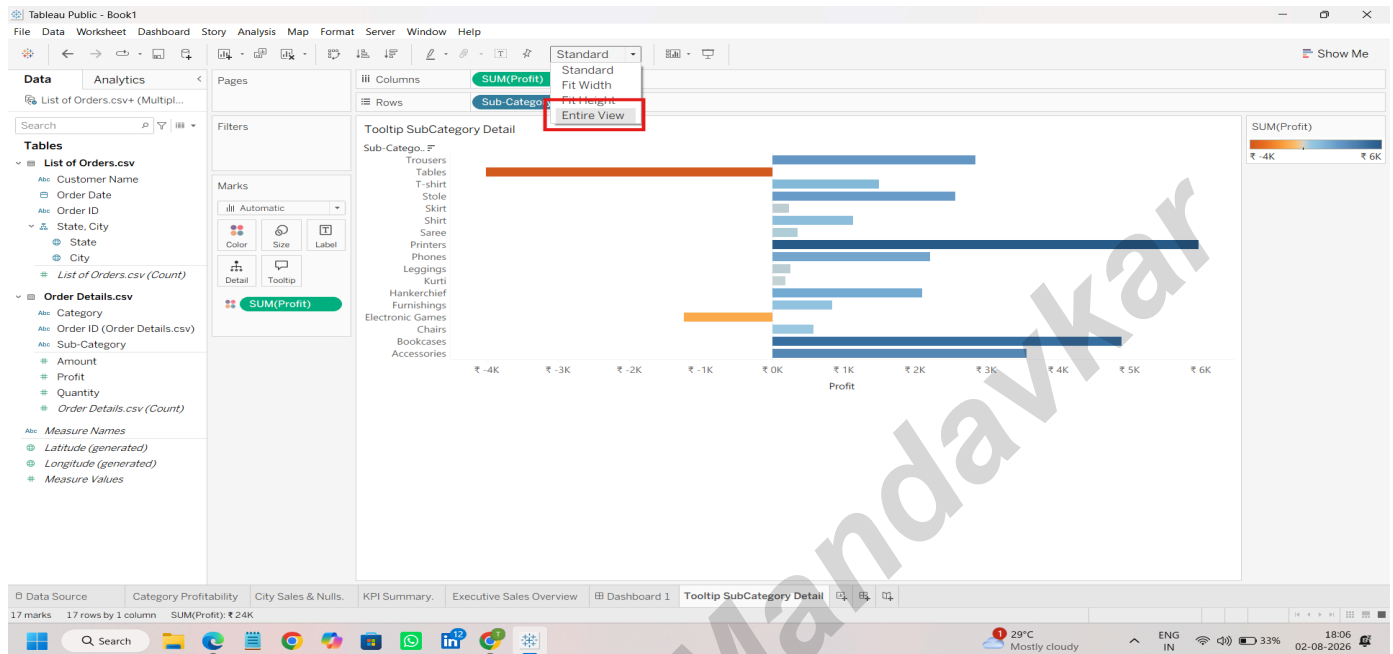

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 4:- Keep the sheet compact: In the top toolbar, change the view fit drop-down from Standard to Entire View.

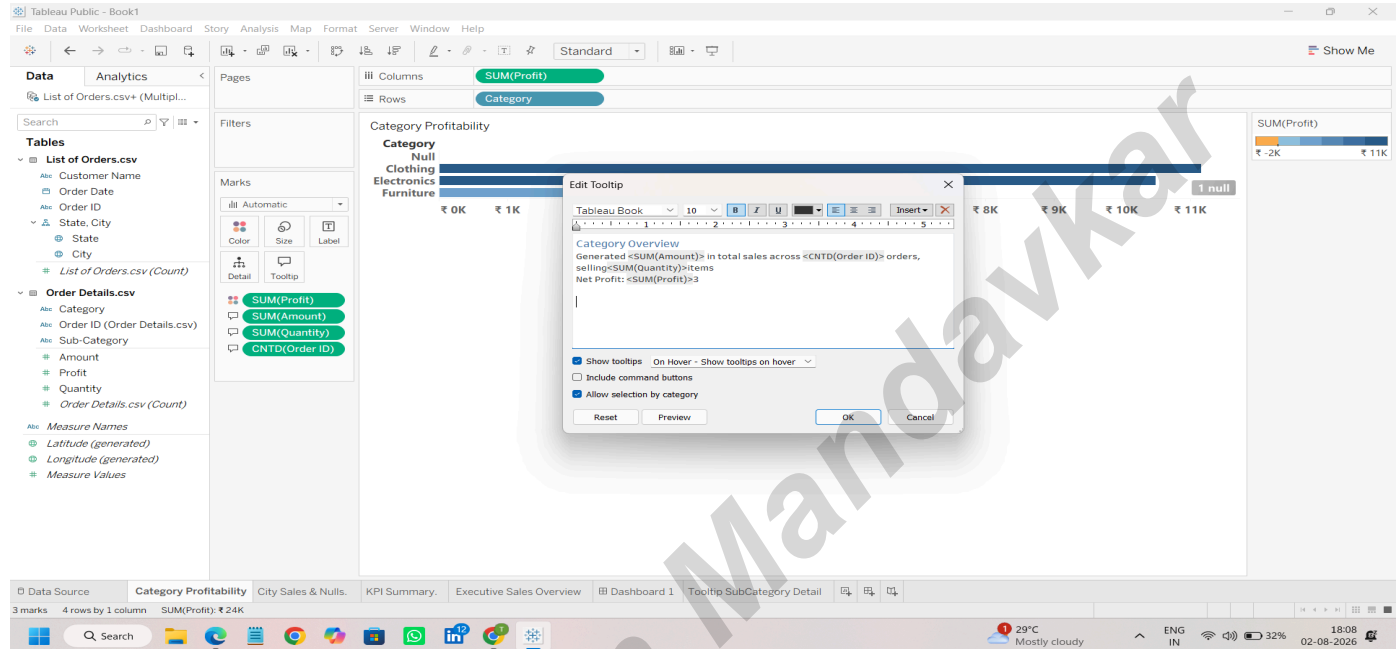

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 5:- Click on your primary worksheet tab at the bottom: Category Profitability. On the Marks card, click the Tooltip card to open the Edit Tooltip window. Place your cursor at the very bottom of your existing sentence-based text and press Enter to start a new line

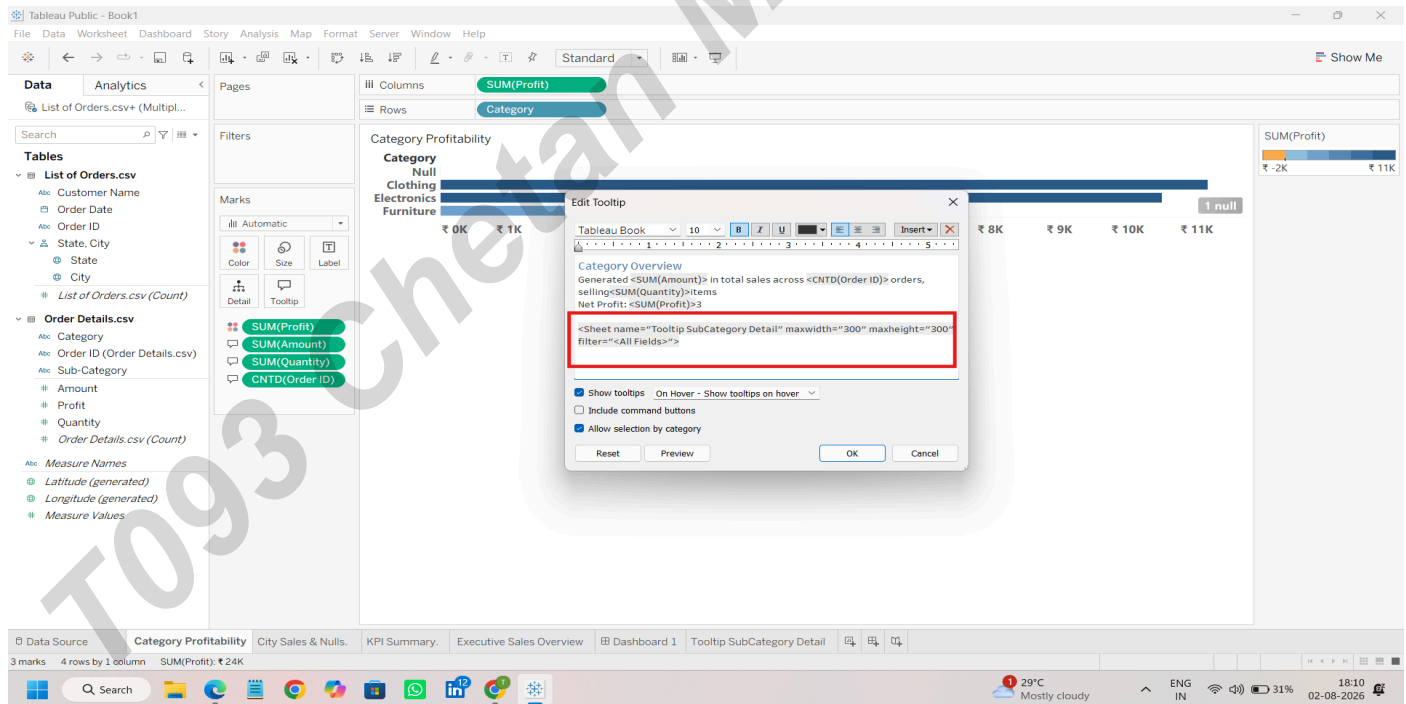

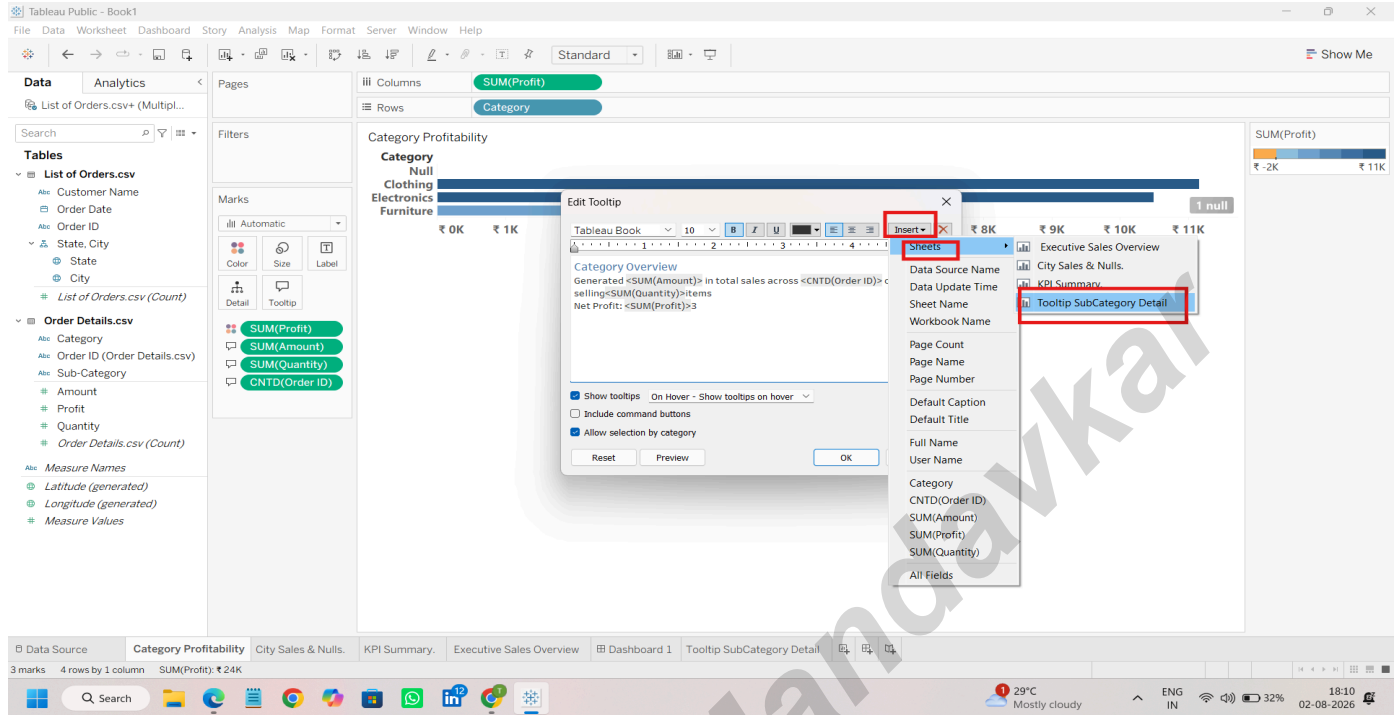

In the top right corner of the Edit Tooltip window, click the Insert drop-down menu. Hover over Sheets, then click Tooltip SubCategory Detail. Tableau will insert a tag that looks like this:
<Sheet name="Tooltip SubCategory Detail" maxwidth="400" maxheight="200" filter="<All Fields>">

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

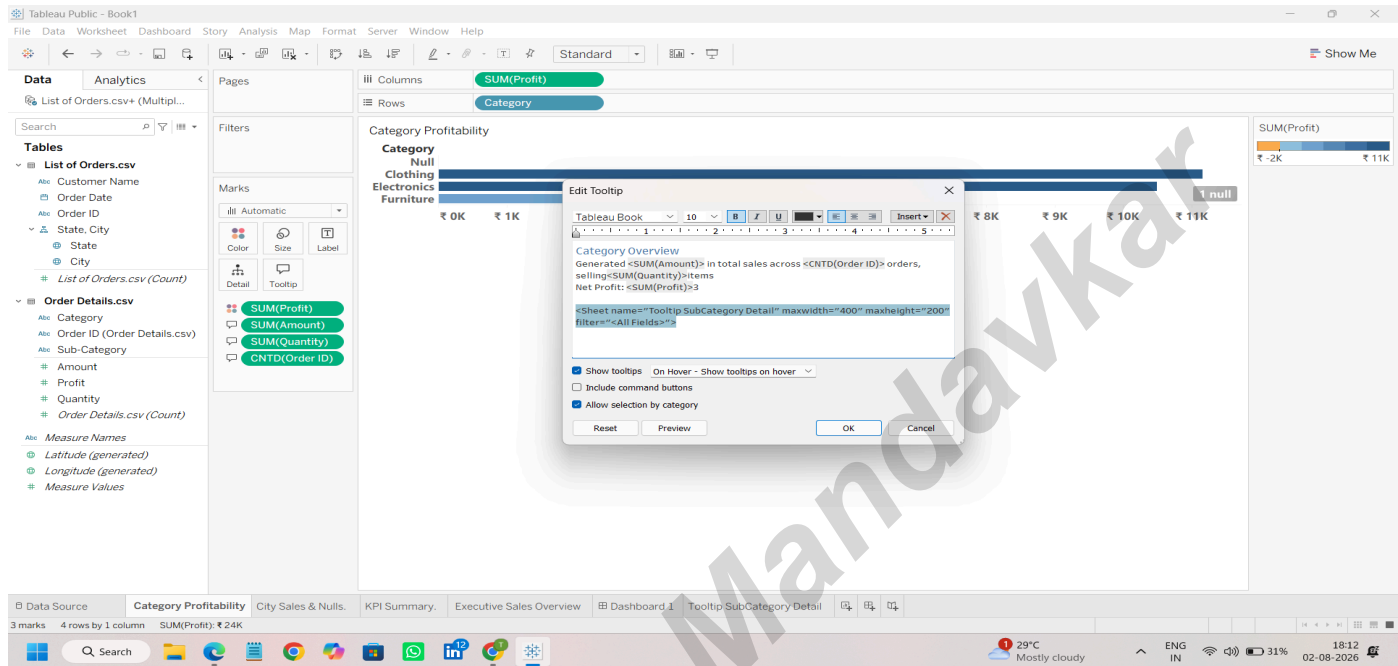

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Adjust the dimensions inside the tag if needed: Change maxwidth="300" to maxwidth="400". Change maxheight="150" to maxheight="200 And Click OK

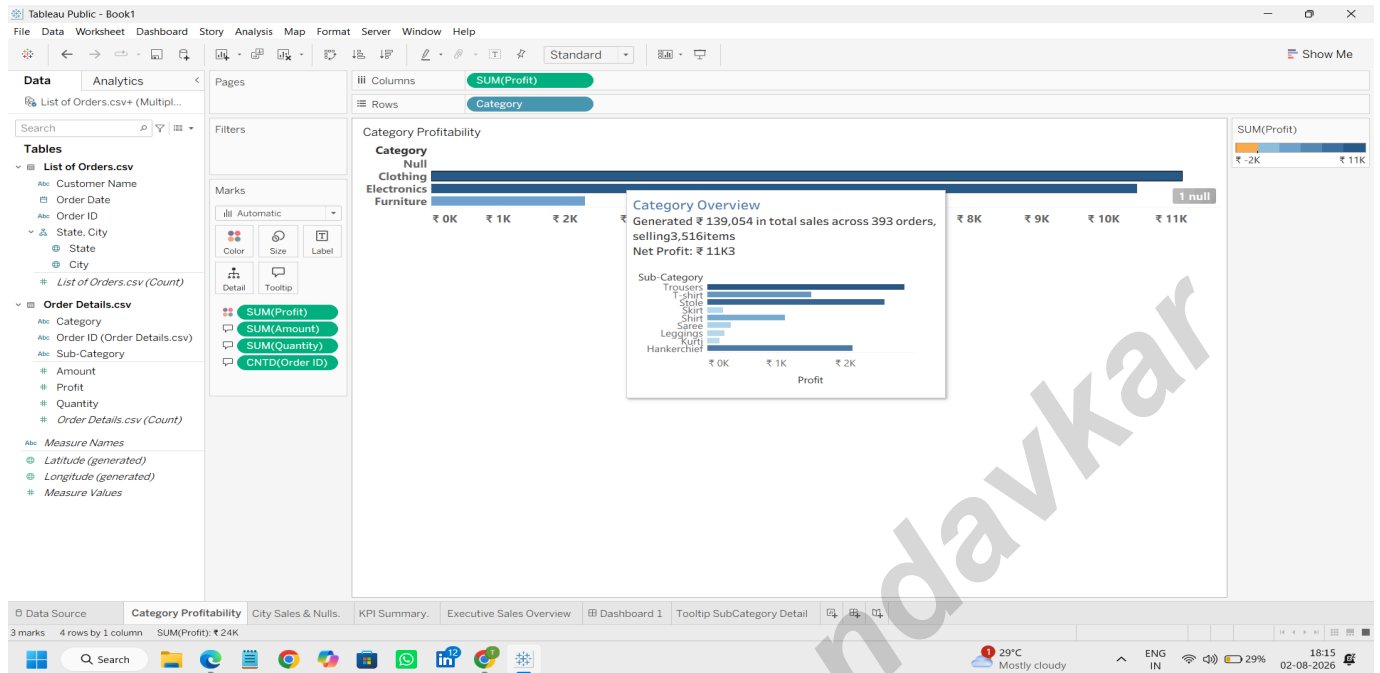

Step 6:- Hover your mouse over one of the main bars (e.g., the Clothing or Furniture category bar) in your Category Profitability worksheet. Observe the tooltip popup:- It will show your sentence-based overview from Part D. Directly below the sentence, it will display a mini horizontal bar chart listing only the sub-categories that belong to that specific hovered category!

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

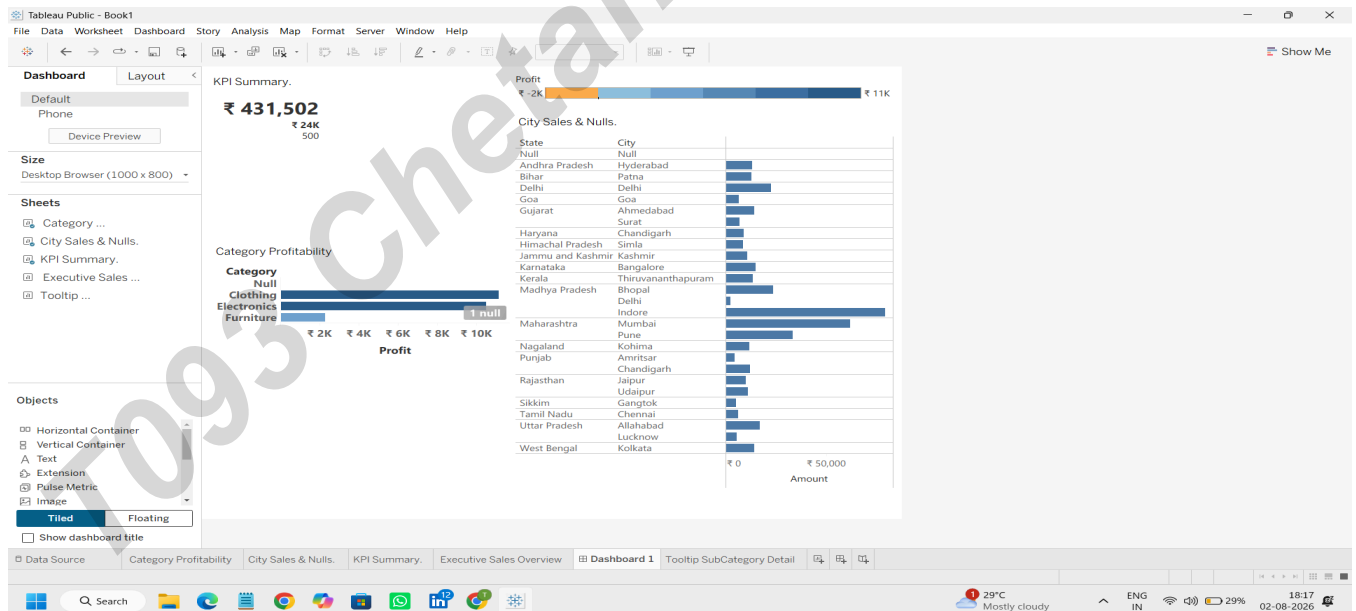

Sheth L.U.J. And Sir M.V. College

F] Improve Readability and User Experience

Step 1:- Switch to your Executive Sales Overview dashboard tab.

Click on the KPI Summary container/sheet to select it.

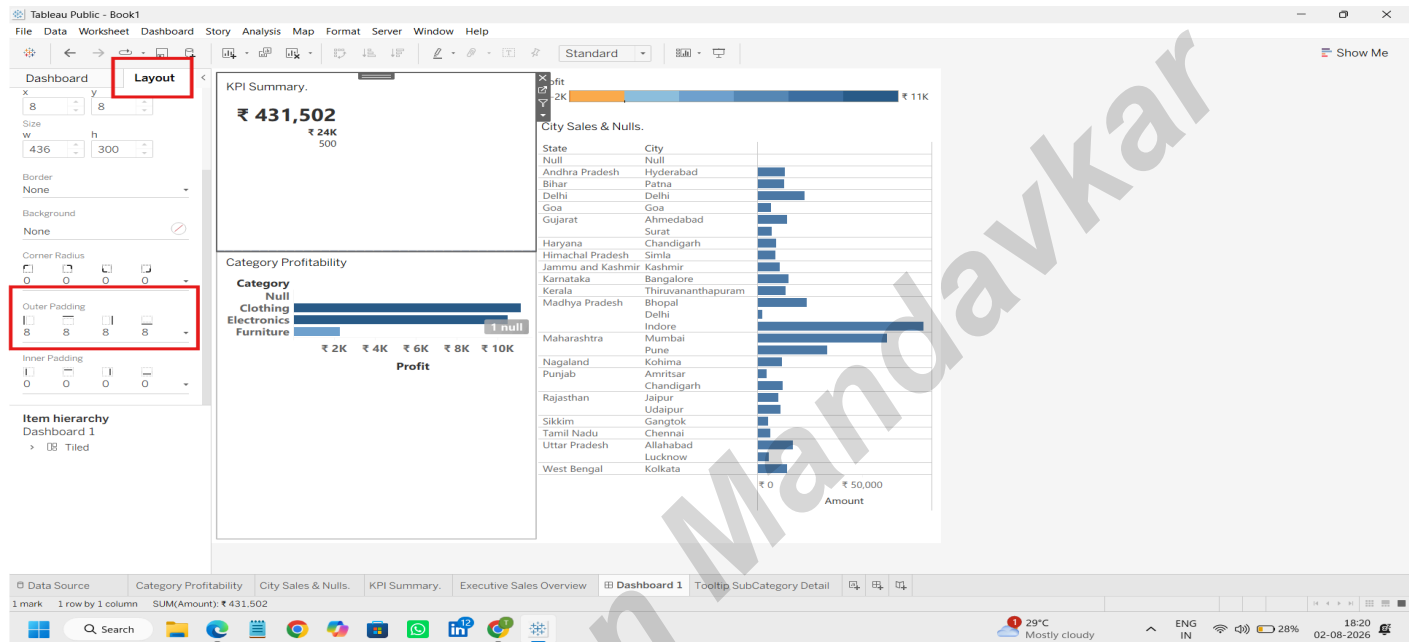

Name:- Chetan Mandavkar

Roll No. T093

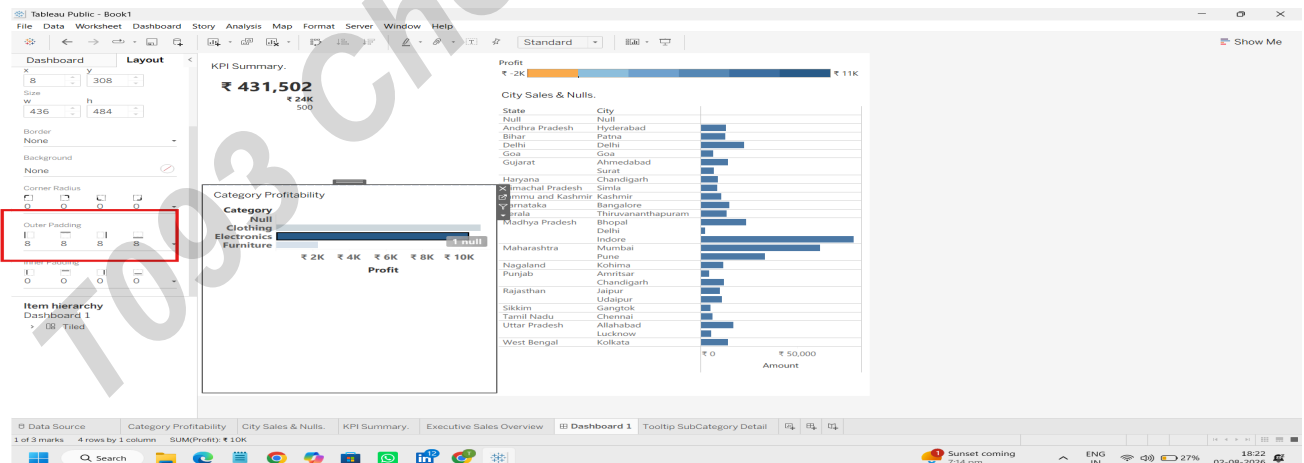

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 2:- In the left-hand panel, click the Layout tab (next to the Dashboard tab). Look for the Outer Padding and Inner Padding settings by scrolling: Click the lock icon to unlock all sides if needed. Adjust Outer Padding to 8 px on all sides to give space between the visual cards.

Step 3:- Click on the Category Profitability sheet and apply an Outer Padding of 8 px.

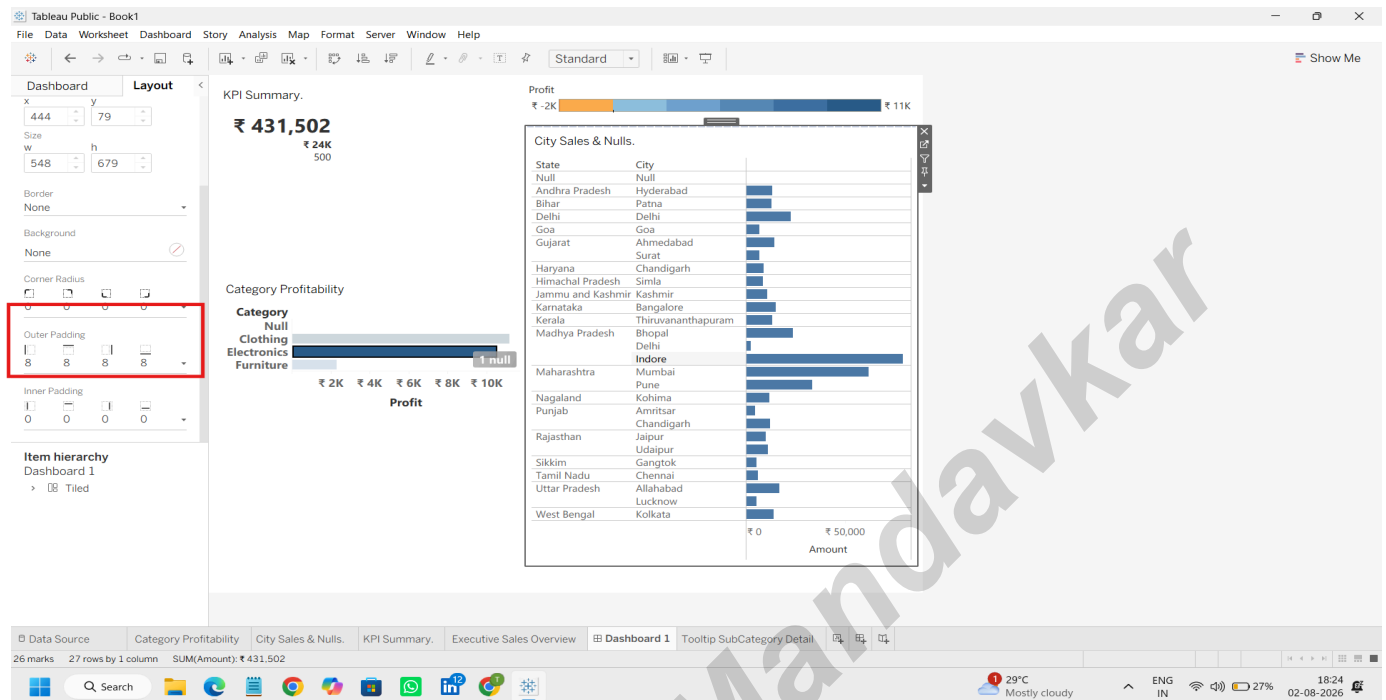

Name:- Chetan Mandavkar

Roll No. T093

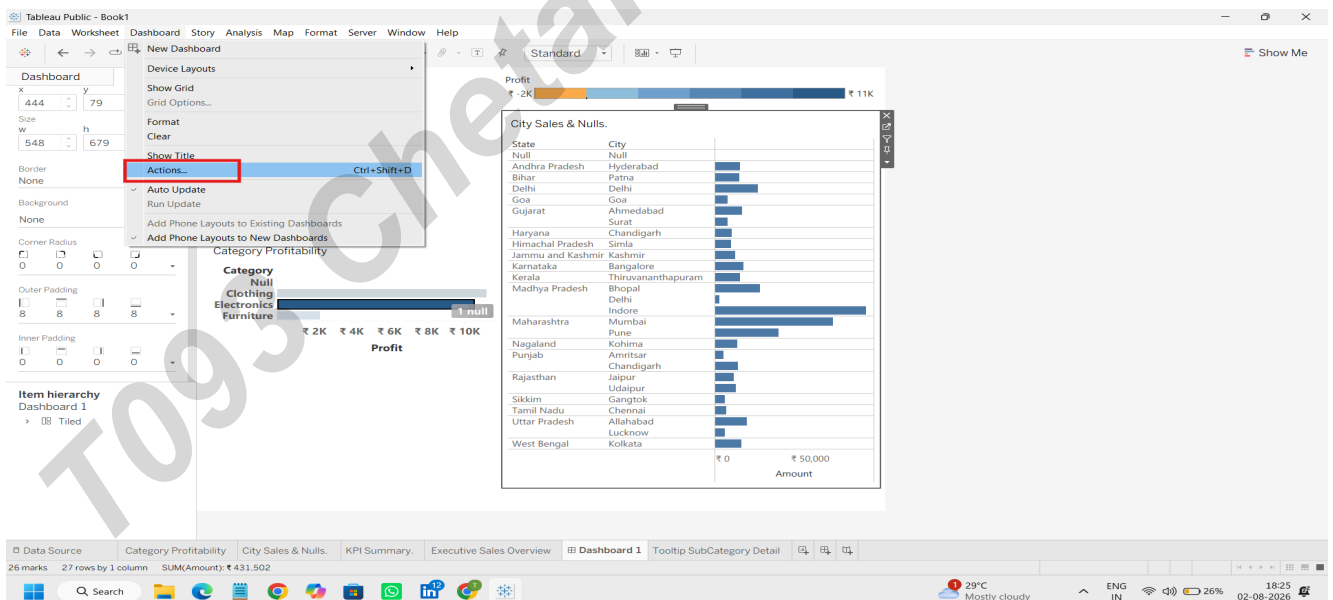

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 4:- Repeat for City Sales & Nulls.

Step 5:- On the top menu bar, go to Dashboard Actions... Click Add Action > at the bottom left and select Highlight...

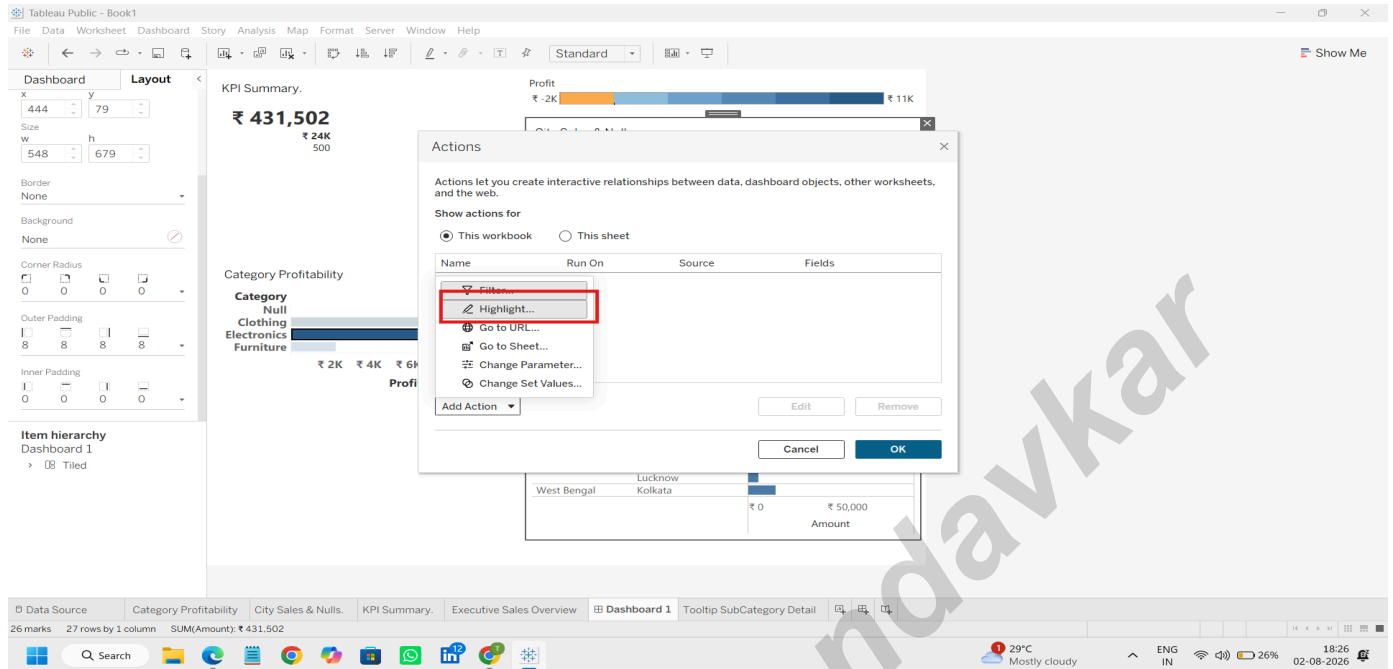

Name:- Chetan Mandavkar

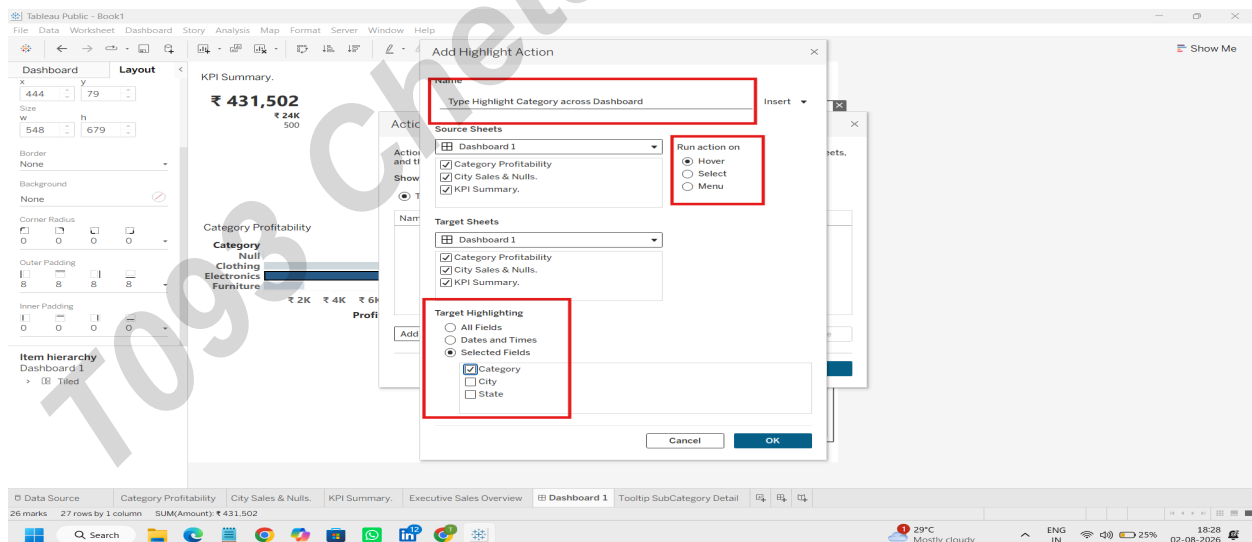

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 6:- In the Add Highlight Action window: Name: Type Highlight Category across Dashboard. Source Sheets: Select your dashboard name (Executive Sales Overview). Target Sheets: Check all worksheets listed under your dashboard. Run action on: Select Hover. Target Fields: Select Selected Fields Click Category.

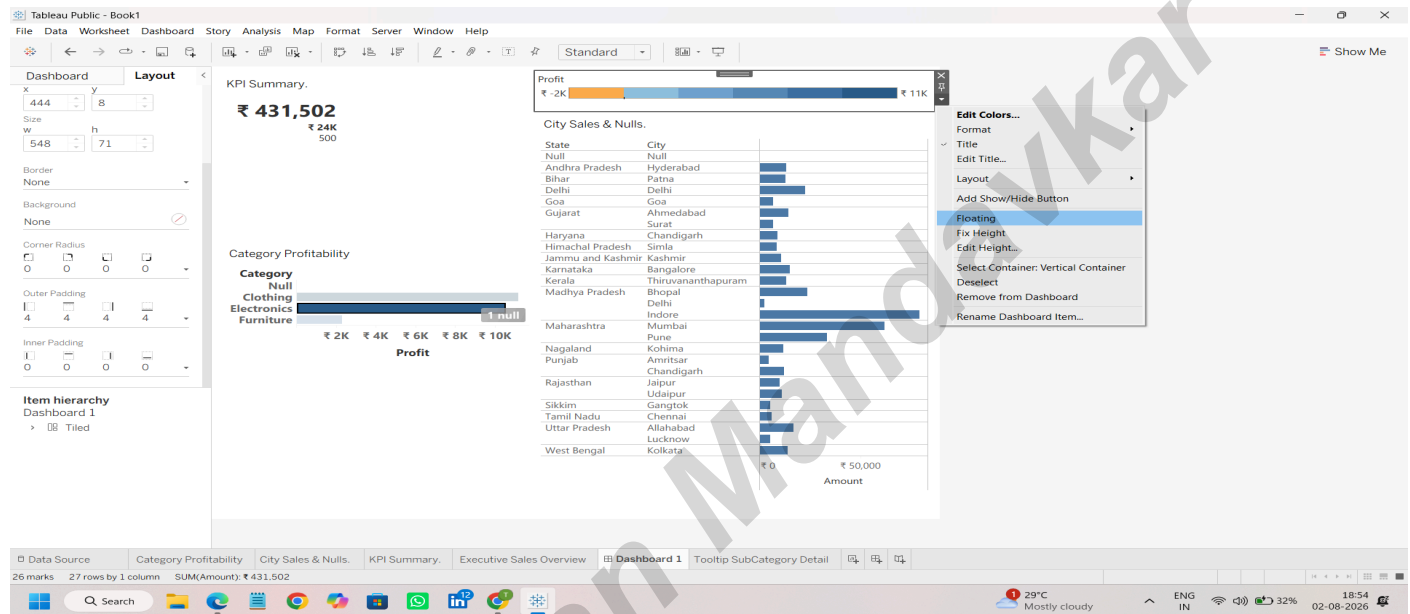

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 7:- Look at the right sidebar of your dashboard where color legends appear automatically. Select any redundant or repetitive legend boxes (e.g., if Profit color legend is self explanatory). Click the X in the top right corner of the legend box to remove it, or convert critical legends into floating elements: Click the down arrow on the legend container box select Floating.

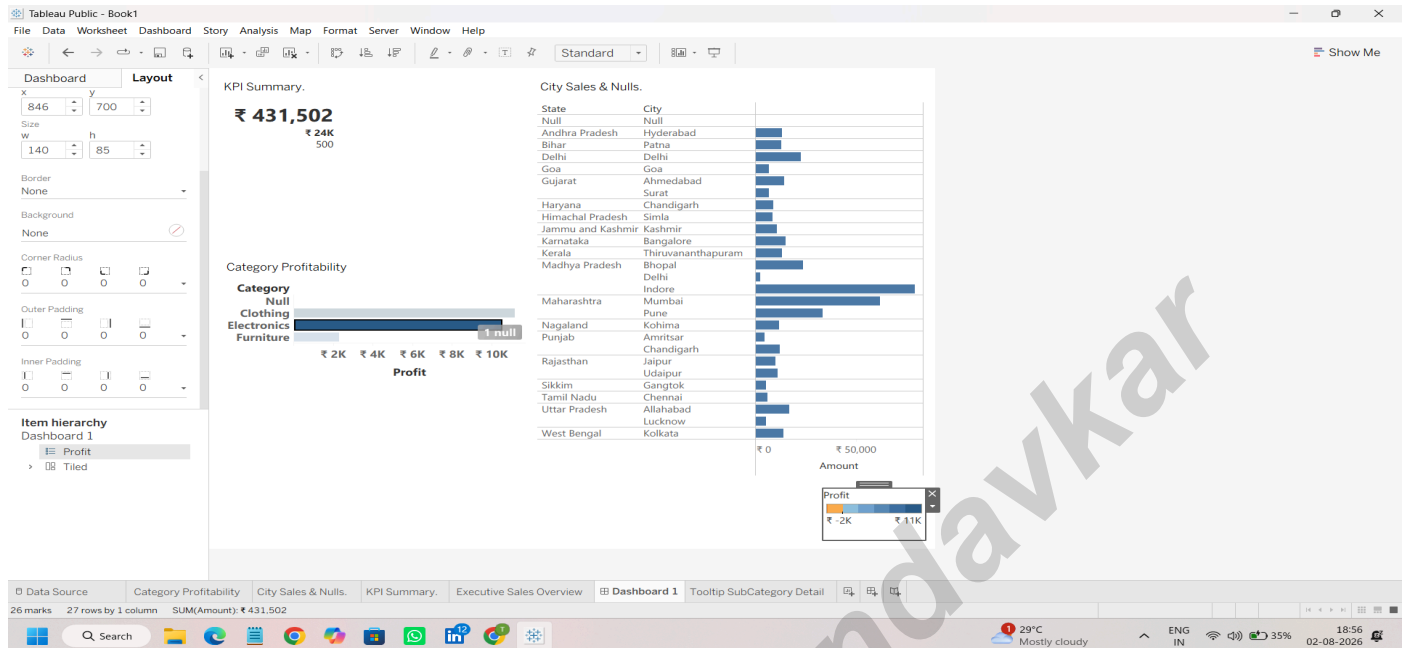

Drag and position it neatly near the relevant chart so it doesn't take up full column width.

Name:- Chetan Mandavkar

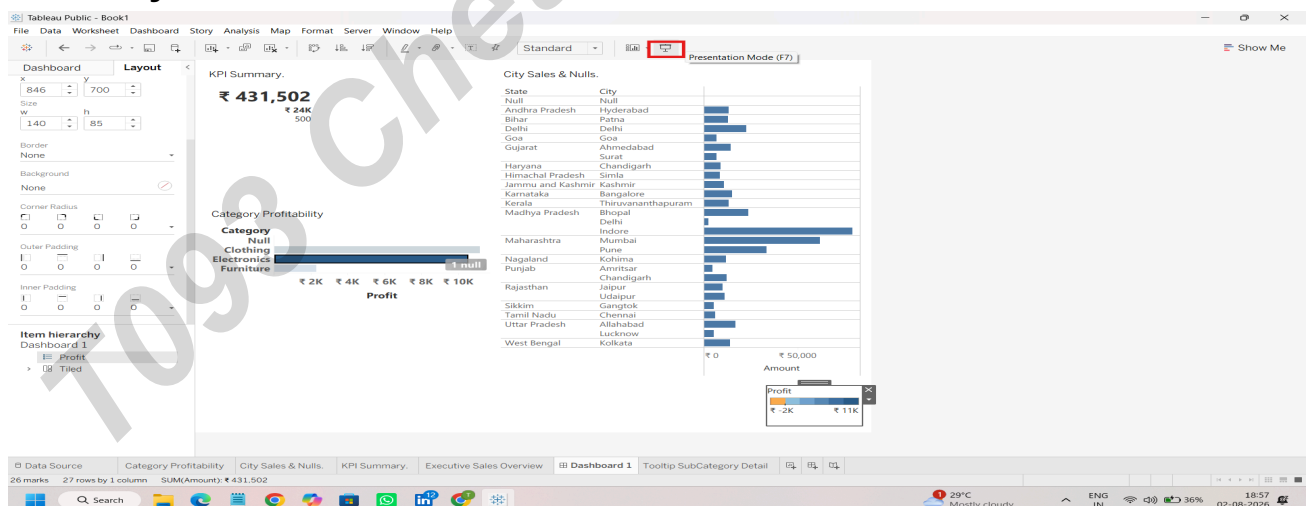

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 8:- At the bottom right of the screen (or in the top menu under Window), click Presentation Mode (or press F5). 2. Verify: Fonts are clean and consistent. Numbers display proper ₹ symbols with no awkward Null labels. Tooltips trigger seamlessly on hover with embedded sub-category breakdown charts. Highlighting functions smoothly across sheets.

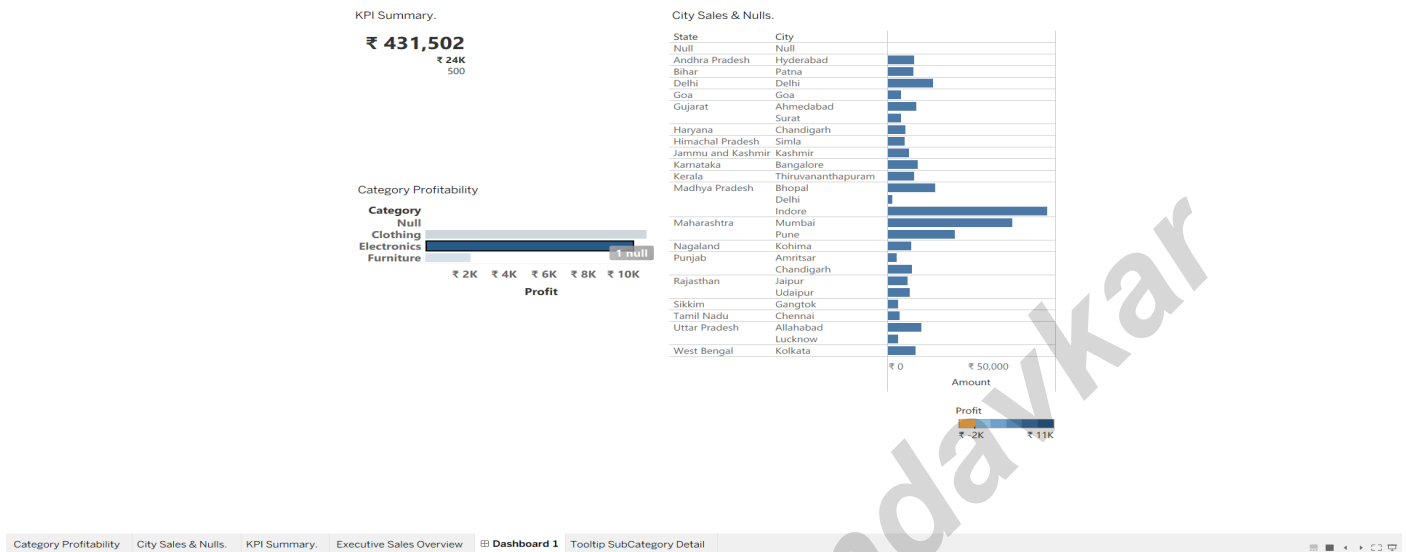

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

G] Apply Best Practices for Visual Storytelling

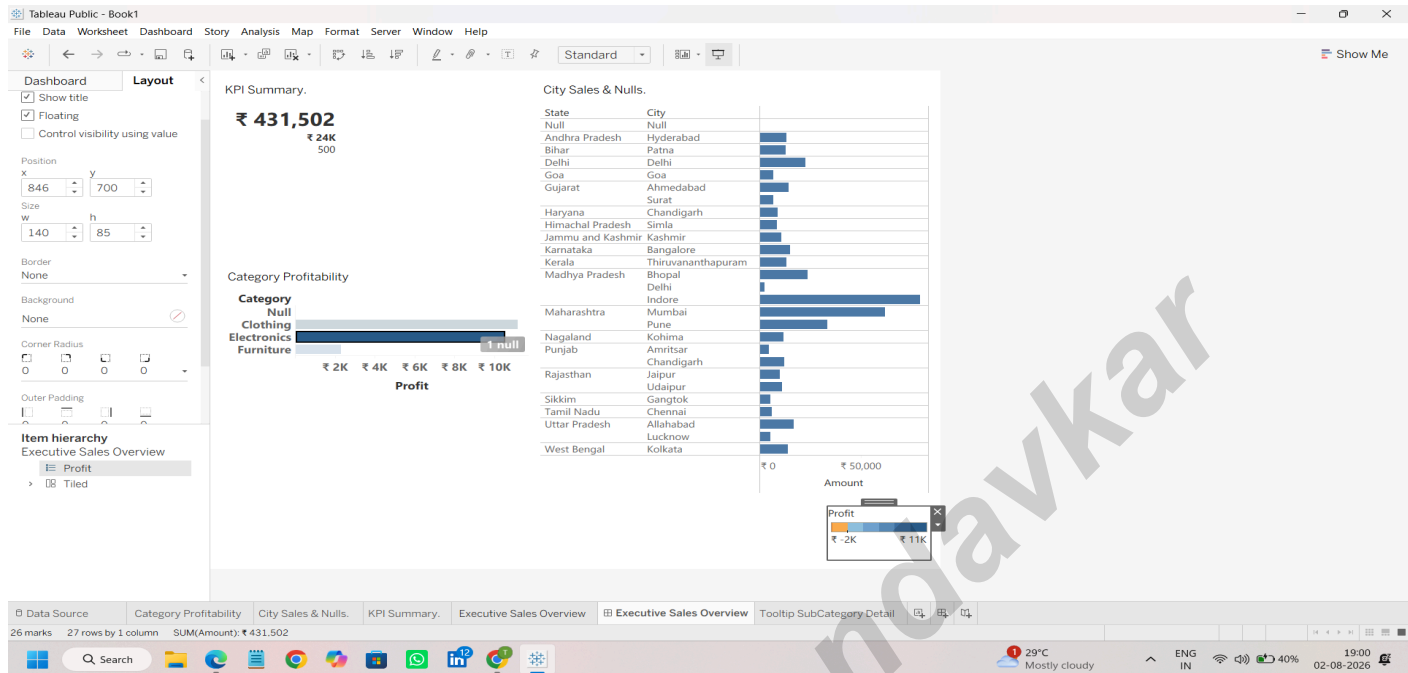

Step 1:- Switch to your Executive Sales Overview dashboard tab. Verify or adjust the sheet placement using a top-to-bottom reading path: Top Left: KPI Summary (Immediate baseline metrics: Total Sales, Total Profit, Orders). Middle Section: Category Profitability (Core narrative question: Which product categories drive or drag our profit?). Bottom/Right Section: City Sales & Nulls (Granular regional breakdown answering: Where are these sales geographically located?).

Name:- Chetan Mandavkar

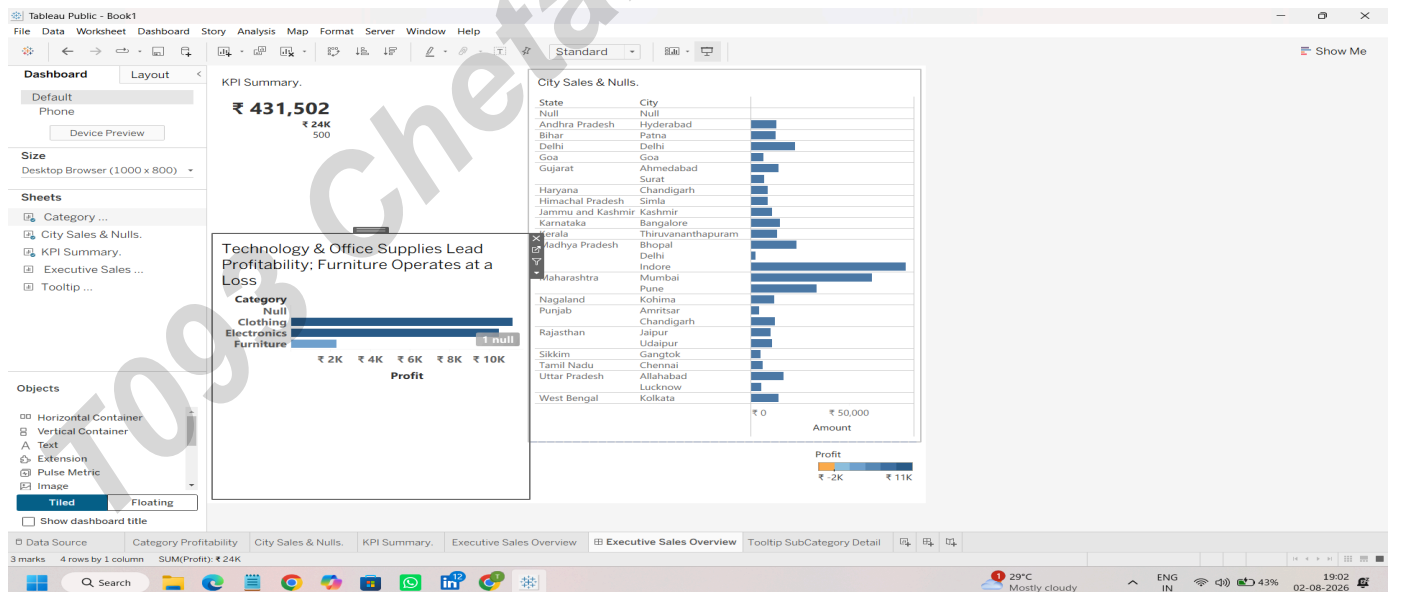

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 2:- Double-click the title block of Category Profitability on your dashboard. Edit the title text to be insight-driven: o Change from: Category Profitability Change to: Technology & Office Supplies Lead Profitability; Furniture Operates at a Loss

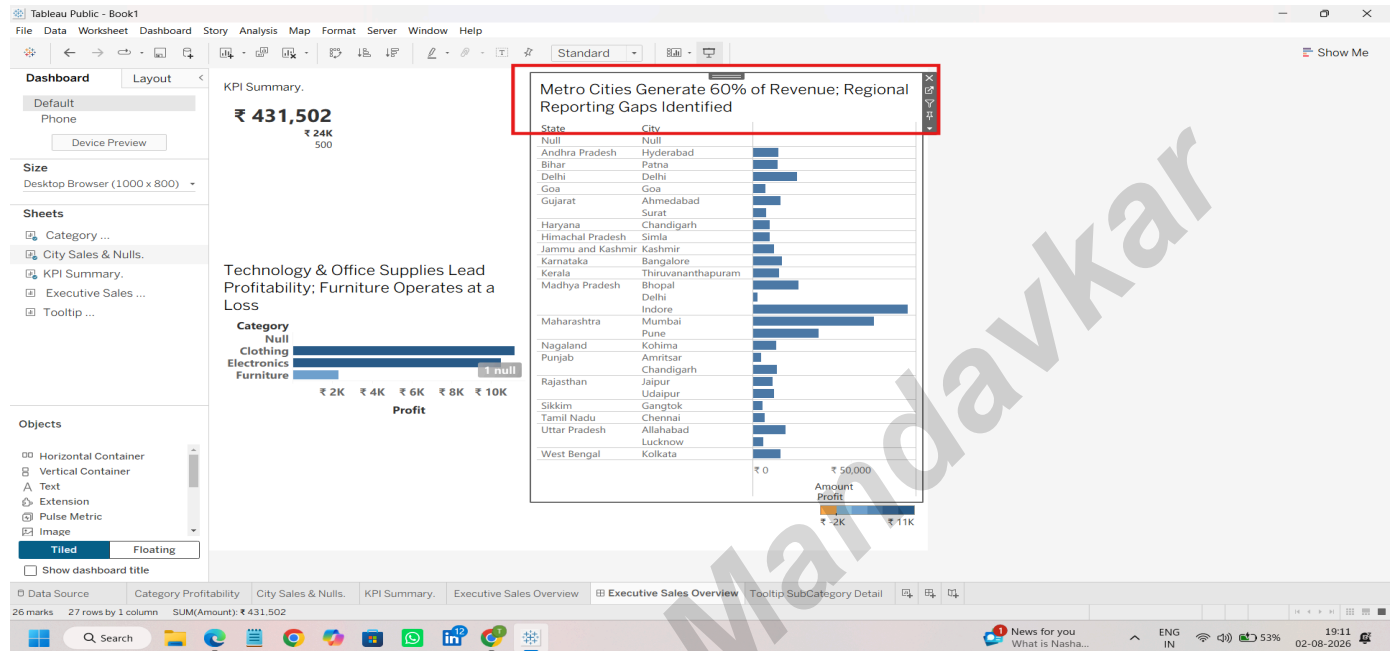

Name:- Chetan Mandavkar

Roll No. T093

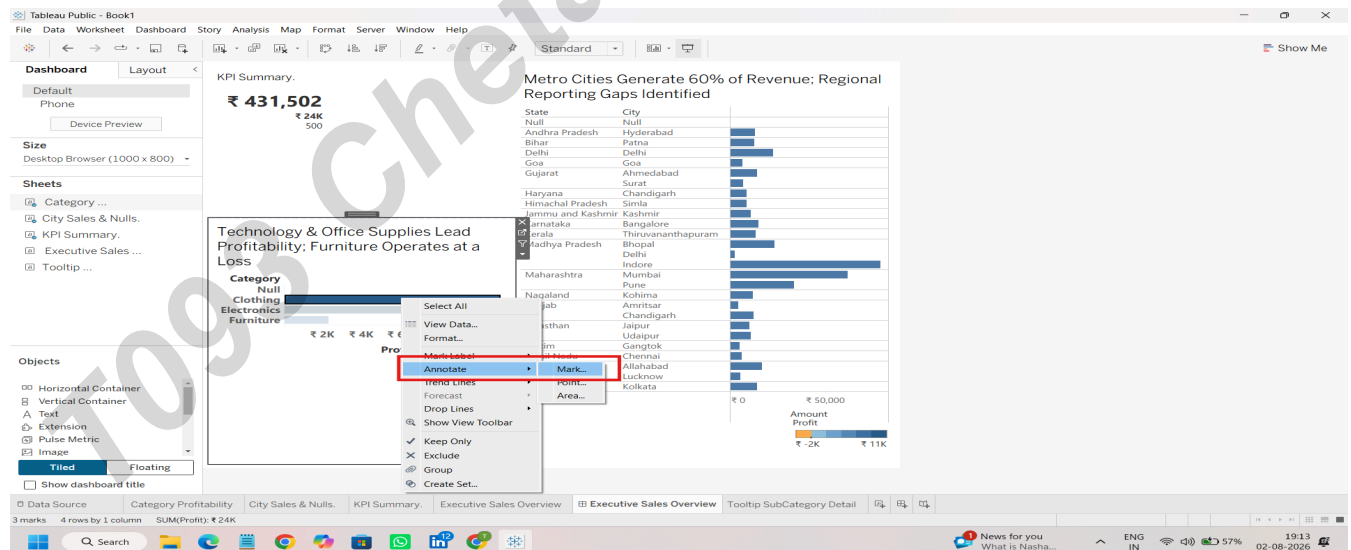

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 3:- Double-click the title block of City Sales & Nulls. 4. Edit the title text: o Change from: City Sales & Nulls Change to: Top Metro Cities Generate 60% of Revenue; Regional Reporting Gaps Identified

Step 4:- Right-click on the bar with the lowest profit (or highest loss) in your Category Profitability sheet.

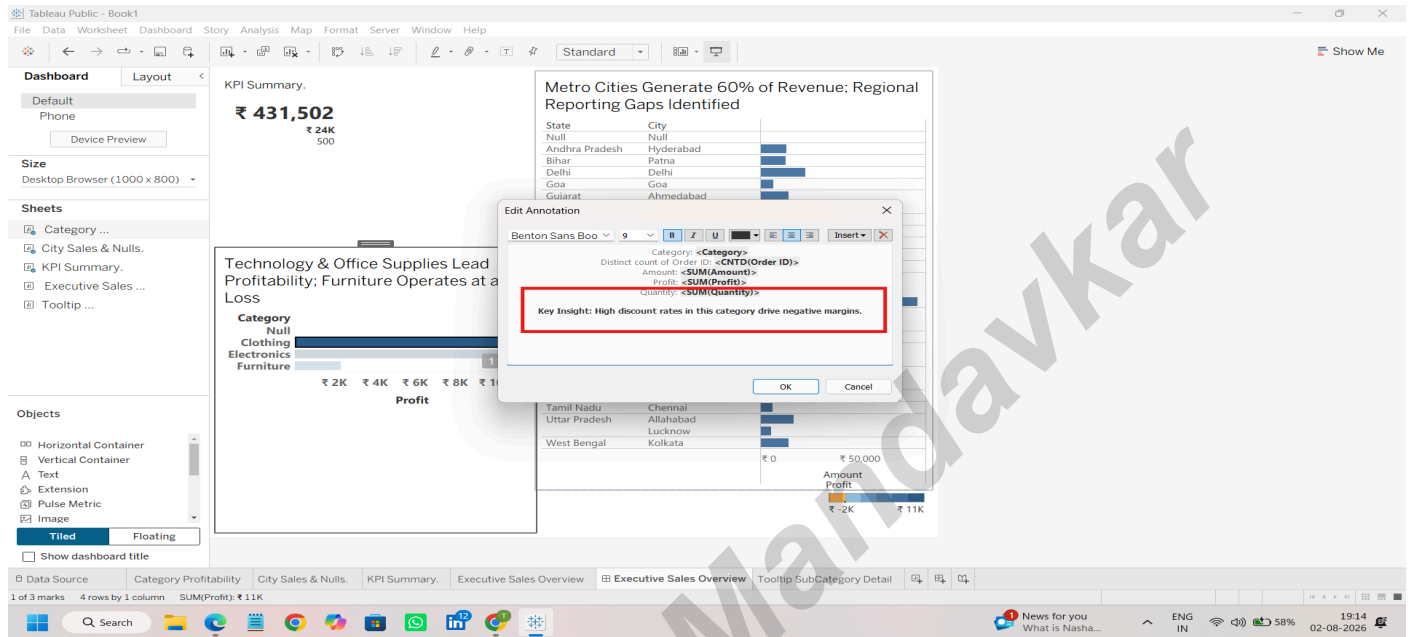

Name:- Chetan Mandavkar

Roll No. T093

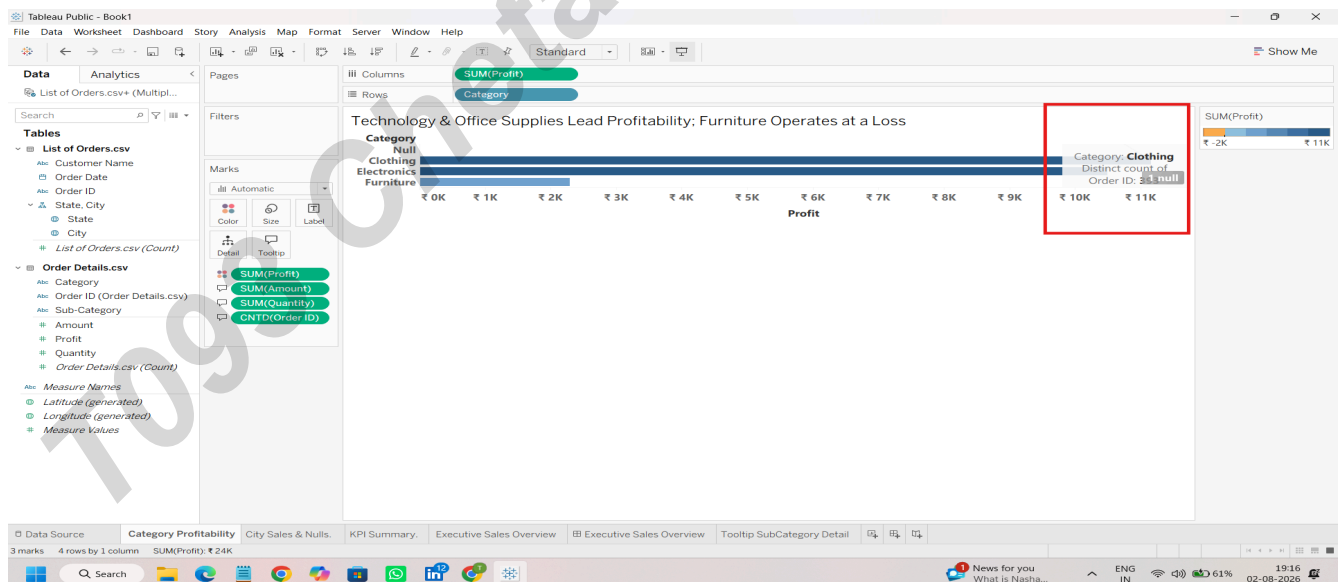

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

**Step 5:- In the annotation window, write a brief explanatory callout:
Key Insight: High discount rates in this category drive negative margins. Format the text to 9pt, Dark Gray, Bold, then click OK.**

Step 6:- Drag the line callout box so it sits cleanly above or next to the bar without overlapping neighboring data.

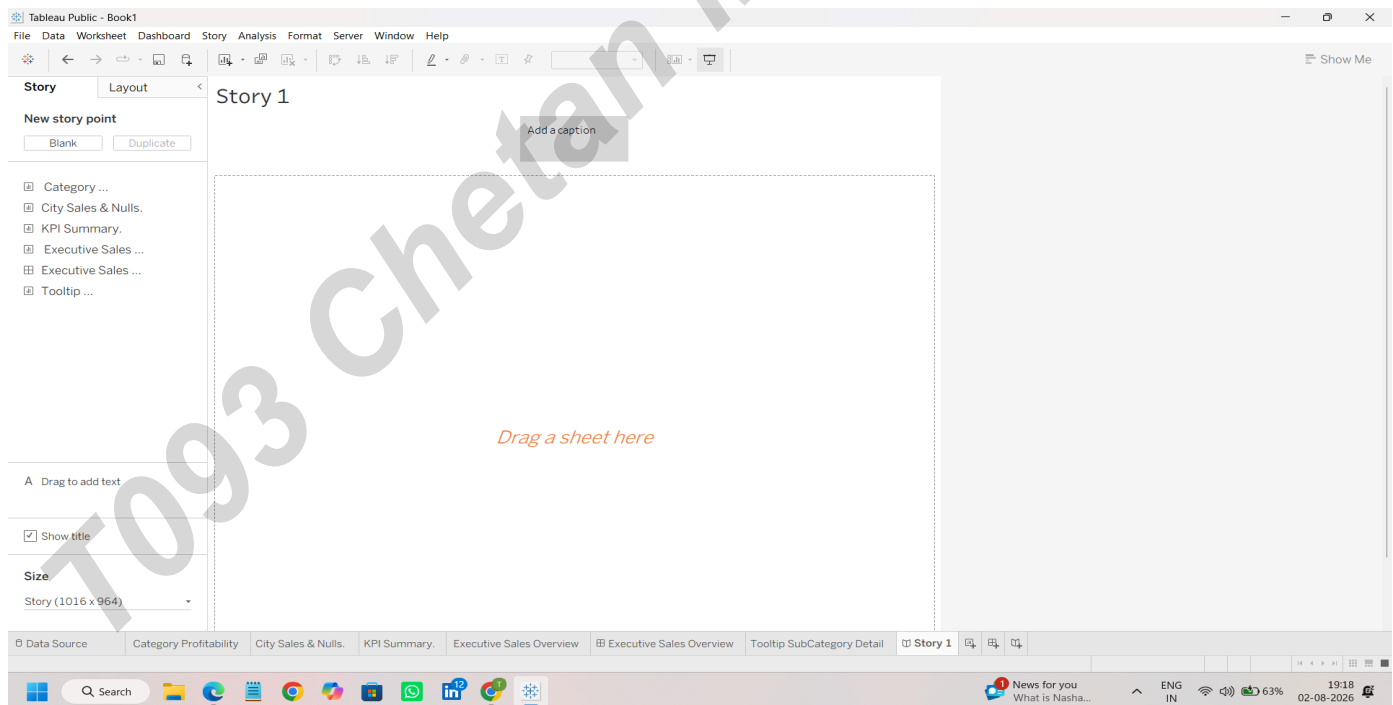

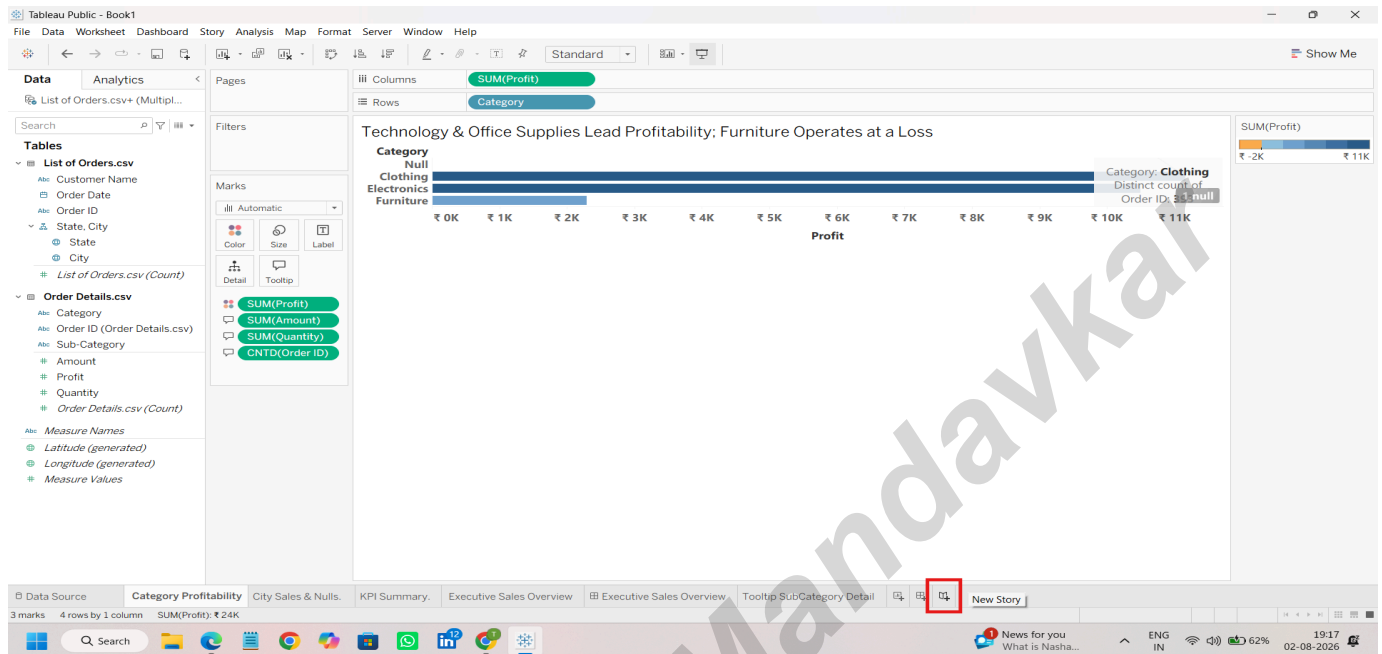

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 7:- At the bottom of your Tableau window, click the New Story icon (the book icon next to New Dashboard).

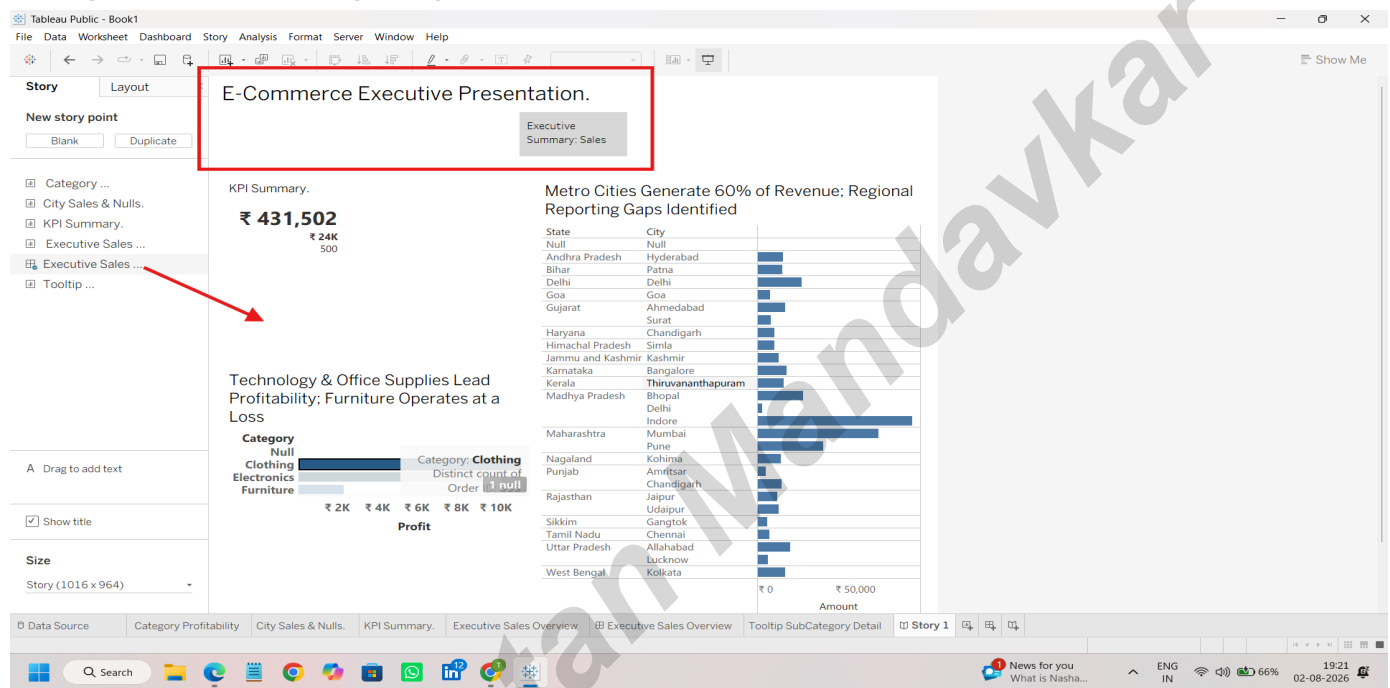

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 8:- Name the story tab: E-Commerce Executive Presentation. In the left-hand Story Pane, drag your Executive Sales Overview dashboard onto the canvas. Click on the gray navigation box above the view (the "Story Point" caption box) and type your first story point heading: Executive Summary: Sales remain strong across top categories, reaching target revenue.

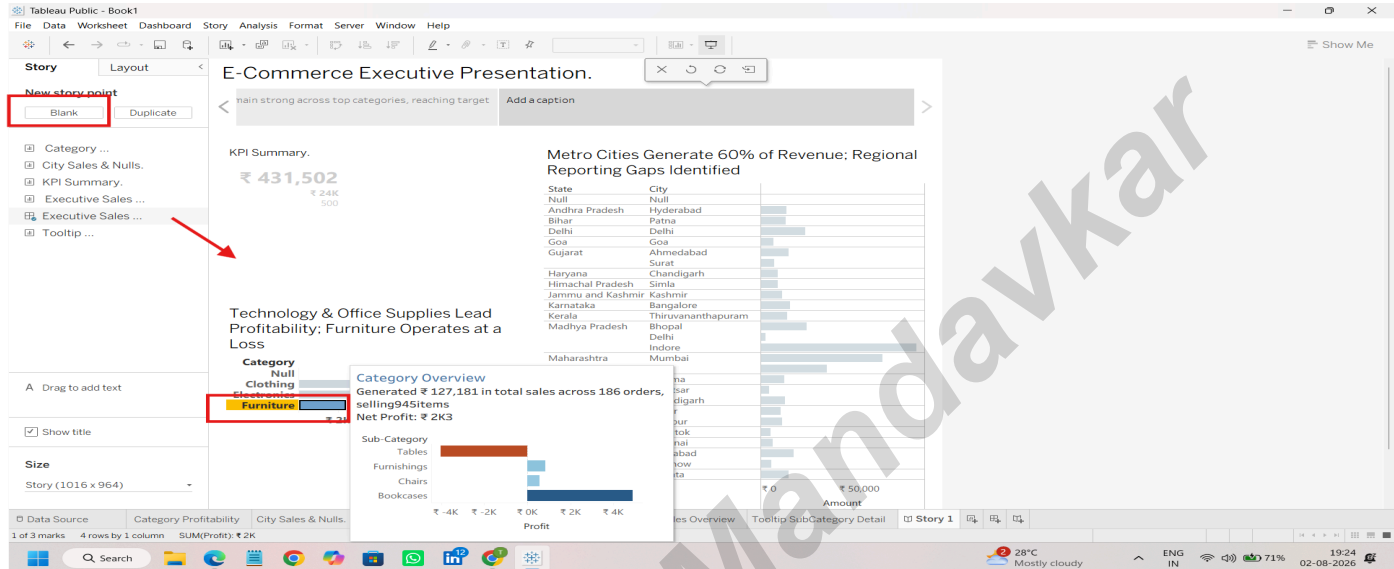

Name:- Chetan Mandavkar

Roll No. T093

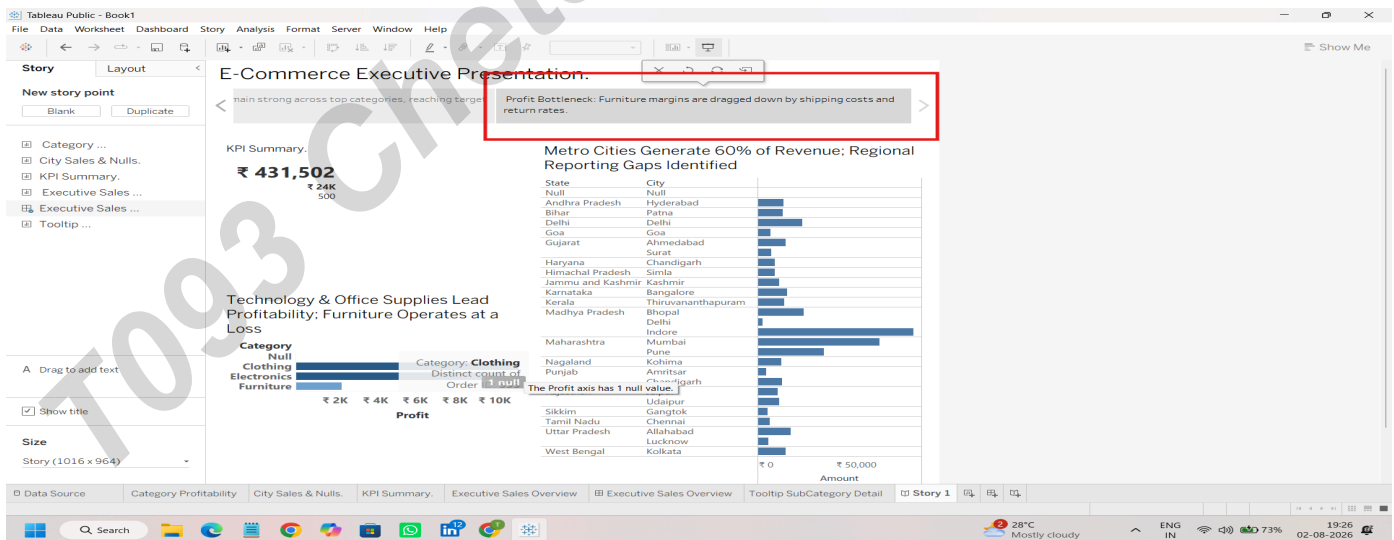

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 9:- In the top-left pane, click Blank under New Story Point to add a second slide. Drag Executive Sales Overview onto the canvas again. On the dashboard view itself, click on the Furniture category bar (or lowest profit bar) to filter/highlight it across the entire screen.

Step 10:- Click the caption box for Slide 2 and type: Profit Bottleneck: Furniture margins are dragged down by shipping costs and return rates.

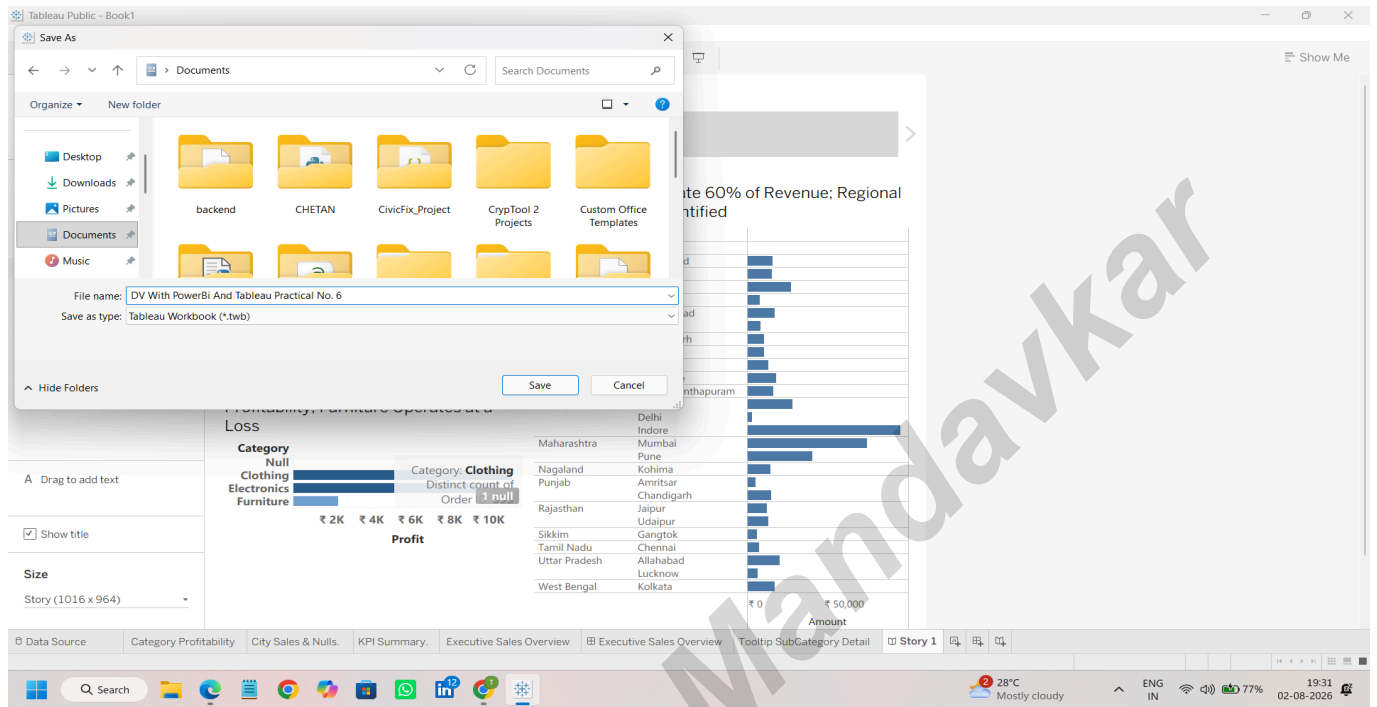

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau

Sheth L.U.J. And Sir M.V. College

Step 11:- Save The Workbook

Name:- Chetan Mandavkar

Roll No. T093

Subject:- Data Visualization With Power BI And Tableau
